\*\*The U.S. Army Space & Missile Defense Command will exercise and award Option 1A (SUBCLIN 0005AB) to the sole source Contractor (Raytheon Company) upon authorization and approval by the Milestone Decision Authority to enter into System Development and Demonstration at Milestone B and availability of JLENS program funding which will be provided to the Procuring Contracting Officer. This option award will be made approximately 15 days after funding availability.

In the event the contractor fails to complete the milestones required by F-5 of the contract for SubCLIN 0005AA, the government may postpone (day for day) the exercise of the Option for SubCLIN 0005AB and/or SubCLIN 0005AC without increase in the estimated cost and fee. In the event the contractor fails to complete the milestones required by F-5 of the contract for CLIN 0005 and/or CLIN 0007, the government may postpone the exercise of the option for CLINs 0011 and 0012 without increase in the estimated cost and fee.

SubCLIN 0007AB, 0007AC and SubCLIN 0007AD may be exercised individually. SubCLIN 0007AD may only be exercised if SubCLIN 0007AB has been exercised.

CLIN 0009: At the unilateral option of the government, CLIN 0009 may be exercised incrementally or totally at any time during the period of performance of the contract, up to the amount set forth in Section B of the contract. The CPFF unit price per DPPH [REDACTED] will be used to exercise CLIN 0009, if it is exercised incrementally. (b)(4)

CLIN 0015: At the unilateral option of the government, CLIN 0015 may be exercised incrementally or totally not later than 30 Sep 07, up to the amount set forth in Section B of the contract. The CPFF unit price per DPPH [REDACTED] will be used to exercise CLIN 0015, if it is exercised incrementally. (b)(4)

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)  
 Due to a Standard Procurement System defect, the date shown in Block 10B of the SF30 may be inaccurate. That date should be 30 Jan 1998.  
 The purpose of this modification to the basic document is to effect a no-cost extension of CLINs 0005AA and 0007AA from 30 September 2005 to 31 October 2005.  
 Additionally, due to administrative error, modifications P00108 and P00109 are hereby cancelled and will no longer be used. Any information contained therein should now be considered null and void. And, it serves to correct a typographical error in the line of accounting of modification P00107, CLIN 0009AB. In that modification, the Agency Code (5C) was inadvertently omitted.  
 Except as referenced above, all other terms and conditions of the basic contract remain unchanged.  
 Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

(2) B-11. COMPLETION TYPE COST REIMBURSEMENT CONTRACT:

a. Performance of Contract Line Items 0001/0002, 0003/0004, 0005AA/0006, 0005AC/0006 (if exercised), 0007AA/0008, 0011/0012 (if exercised), 0013/0014, 0015/0016, and 0017/0018 shall be accomplished on a completion basis as defined in FAR 16.306(d)(1). Pending satisfactory completion of the task, fee payments are provisional and are not final. Fee payments will not become final unless and until the contractor performs the task required by CLIN/SubCLINs 0003, 0005AA, 0005AC (if exercised), 0007 (if exercised), 0011 (if exercised), and 0013 and delivers data required by CLINs 0006, 0008 (if exercised), 0012 (if exercised), 0014, 0016, and 0018 and such are accepted by the Government as being satisfactory. Fee payments for CLINs 0003, 0005, 0013, 0015, and 0017 will also not become final unless and until completion of the milestones listed in F-5. In the event the task cannot be completed by the contractor within the estimated cost of the CLIN, the Government may require completion of the task without increase in fee, provided the Government increases the estimated cost of the CLIN under the LIMITATION OF COST or FUNDS contract clause.

b. CLIN 0001 will be considered complete based upon the completion of the statement of work requirements.

c. CLIN 0003 will be considered complete based upon the completion of the milestones listed in F-5 and the statement of work requirement.

d. **CLIN 0005: SubCLIN 0005AA, and SubCLIN 0005AC (if exercised) will be considered complete based upon the completion of the milestones listed in F-5 and the statement of work requirement.**

e. **CLIN 0007: SubCLIN 0007AA will be considered complete based upon the completion of the milestones listed in F-5 and the statement of work requirement.**

f. CLIN 0011 (if exercised) will be considered complete based upon completion of the statement of work requirements.

g. CLIN 0013 will be considered complete based upon the completion of the milestones listed in F-5 and the statement of work requirement.

h. CLIN 0015 will be considered complete based upon the completion of the milestones listed in F-5 and the statement of work requirement.

i. **CLIN 0017 will be considered complete based upon the completion of the milestones listed in F-5 and the statement of work requirement.**

j. CLINs 0002, 0004, 0006, 0008, 0012 (if exercised), 0014, 0016, and 0018 will be considered complete based upon a determination that all data and reports have been submitted and accepted, as set forth in Block 8 of each exhibit line item number of the DD Form 1423.

(3) B-12. SEPARATE APPLICATION OF FUNDING: The Limitation of Funds and Allowable Cost and Payments clauses apply separately to each of CLIN/SubCLIN sets: 0001/0002, 0003/0004, 0005AA/0006, 0005AC/0006, 0007AA/0008, 0009/0010, 0011/0012, 0013/0014, 0015/0016, and 0017AA/0018.

2. SECTION F – DELIVERIES OR PERFORMANCE is changed as follows:

a. Paragraph F-1, COMPLETION OF REQUIREMENT, is changed as follows:

1. The contractor shall complete the task required by CLIN 0001 and complete delivery of all data and reports required by CLIN 0002 by 30 Aug 1999.

g. CLIN 0013 is certified to be complete.

h. CLINs 0002, 0004, 0006, 0008 (if exercised), 0012 (if exercised), and 0014 will be considered complete based upon a determination that all data and reports have been submitted and accepted, as set forth in Block 8 of each exhibit line item number of the DD Form 1423.

B-3. LEVEL OF EFFORT (Applicable to CLINs 0009/0010 and 0015/0016):

a. SUBCLIN 0009AA and 015AA:

(1) In the performance of this contract, the contractor shall provide direct productive person hours (DPPH) level of effort as set forth in Paragraph B-1 above, within the time period as set forth in Section F hereof.

(2) DPPH are defined as prime contractor, consultant, and subcontractor actual direct labor hours exclusive of vacation, holiday, sick leave, and other absences.

(3) In accordance with FAR 16.306(d)(2), entitlement to the total fixed fee is subject to the certification by the contractor to the Administrative Contracting Officer that he has exerted the DPPH level of effort by labor category as specified herein in performing the work called for, has provided the reports called for, and the effort performed and reports provided are considered satisfactory by the Government.

b. SUBCLIN 0009AB and 0015AB: Material is property that may be incorporated into or attached to the demonstrated end item or that may be consumed or expended in performing CLIN 0009. It includes assemblies, components, parts, raw and pressed material, and small tools and supplies that may be consumed in normal use in performing CLIN 0009 and 0015, as applicable.

B-4 SEPARATE APPLICATION OF FUNDING: The Limitation of Funds and Allowable Cost and Payments clauses apply separately to each of CLIN/SubCLIN sets: 0001/0002, 0003/0004, 0005AA/0006, 0005AB/0006, 0005AC/0006, 0007AA/0008, 0007AB/0008, 0007AC/0008, 0007AD/0008, 0009/0010, 0011/0012, 0013/0014 and 0015/0016.

B-5 COST/SHARE RATIO STRUCTURE FOR CLINs 0001/0002: The performance of the effort required by CLINs 0001 and 0002 shall be on a cost-reimbursement basis. In accordance with General Provisions FAR 52.216-7, entitled "Allowable Cost and Payment", and FAR 52.216-12, "Cost Sharing Contract - No Fee", as applicable, the total amount for reimbursement of costs for performance under CLINs 0001 and 0002 is as set forth in Paragraph B-1 above.

Notwithstanding FAR 52.232-22, "Limitation of Funds", the contractor agrees to the following cost share ratio:

SECTION H - SPECIAL CONTRACT REQUIREMENTS

The following have been added by full text:

252.211-7003 ITEM IDENTIFICATION AND VALUATION (JUN 2005)

(a) Definitions. As used in this clause'

Automatic identification device means a device, such as a reader or interrogator, used to retrieve data encoded on machine-readable media.

Concatenated unique item identifier means--

(1) For items that are serialized within the enterprise identifier, the linking together of the unique identifier data elements in order of the issuing agency code, enterprise identifier, and unique serial number within the enterprise identifier; or

(2) For items that are serialized within the original part, lot, or batch number, the linking together of the unique identifier data elements in order of the issuing agency code; enterprise identifier; original part, lot, or batch number; and serial number within the original part, lot, or batch number.

Data qualifier means a specified character (or string of characters) that immediately precedes a data field that defines the general category or intended use of the data that follows.

DoD recognized unique identification equivalent means a unique identification method that is in commercial use and has been recognized by DoD. All DoD recognized unique identification equivalents are listed at <http://www.acq.osd.mil/dpap/UID/equivalents.html>.

DoD unique item identification means a system of marking items delivered to DoD with unique item identifiers that have machine-readable data elements to distinguish an item from all other like and unlike items. For items that are serialized within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier and a unique serial number. For items that are serialized within the part, lot, or batch number within the enterprise identifier, the unique item identifier shall include the data elements of the enterprise identifier; the original part, lot, or batch number; and the serial number.

Enterprise means the entity (e.g., a manufacturer or vendor) responsible for assigning unique item identifiers to items.

Enterprise identifier means a code that is uniquely assigned to an enterprise by an issuing agency.

Government's unit acquisition cost means--

(1) For fixed-price type line, subline, or exhibit line items, the unit price identified in the contract at the time of delivery;

(2) For cost-type or undefinitized line, subline, or exhibit line items, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery; and

001156

(3) For items produced under a time-and-materials contract, the Contractor's estimated fully burdened unit cost to the Government at the time of delivery.

Issuing agency means an organization responsible for assigning a non-repeatable identifier to an enterprise (i.e., Dun & Bradstreet's Data Universal Numbering System (DUNS) Number, Uniform Code Council (UCC)/EAN International (EAN) Company Prefix, or Defense Logistics Information System (DLIS) Commercial and Government Entity (CAGE) Code).

Issuing agency code means a code that designates the registration (or controlling) authority for the enterprise identifier.

Item means a single hardware article or a single unit formed by a grouping of subassemblies, components, or constituent parts.

Lot or batch number means an identifying number assigned by the enterprise to a designated group of items, usually referred to as either a lot or a batch, all of which were manufactured under identical conditions.

Machine-readable means an automatic identification technology media, such as bar codes, contact memory buttons, radio frequency identification, or optical memory cards.

Original part number means a combination of numbers or letters assigned by the enterprise at item creation to a class of items with the same form, fit, function, and interface.

Parent item means the item assembly, intermediate component, or subassembly that has an embedded item with a unique item identifier or DoD recognized unique identification equivalent.

Serial number within the enterprise identifier means a combination of numbers, letters, or symbols assigned by the enterprise to an item that provides for the differentiation of that item from any other like and unlike item and is never used again within the enterprise.

Serial number within the part, lot, or batch number means a combination of numbers or letters assigned by the enterprise to an item that provides for the differentiation of that item from any other like item within a part, lot, or batch number assignment.

Serialization within the enterprise identifier means each item produced is assigned a serial number that is unique among all the tangible items produced by the enterprise and is never used again. The enterprise is responsible for ensuring unique serialization within the enterprise identifier.

Serialization within the part, lot, or batch number means each item of a particular part, lot, or batch number is assigned a unique serial number within that part, lot, or batch number assignment. The enterprise is responsible for ensuring unique serialization within the part, lot, or batch number within the enterprise identifier.

Unique item identifier means a set of data elements marked on items that is globally unique and unambiguous.

Unique item identifier type means a designator to indicate which method of uniquely identifying a part has been used. The current list of accepted unique item identifier types is maintained at <http://www.acq.osd.mil/dpap/UID/uid--types.html>.

(b) The Contractor shall deliver all items under a contract line, subline, or exhibit line item.

(c) DoD unique item identification or DoD recognized unique identification equivalents.

(1) The Contractor shall provide DoD unique item identification, or a DoD recognized unique identification equivalent, for--

001157

(i) All delivered items for which the Government's unit acquisition cost is \$5,000 or more; and

(ii) The following items for which the Government's unit acquisition cost is less than \$5,000:

Contract line, subtitle, or exhibit line  
item No.                      Item description:

CLIN 0017, UID will be applied to all hardware and software items with a unit acquisition cost equal to or greater than \$5,000, and all hardware and software items with a unit acquisition cost less than \$5,000 when they are serially managed, mission critical, or controlled inventory items. The only exemptions will be: (1) parts within an assembly, or a subassembly, that are not subject to removal, replacement, or repair, or (2) parts deemed too small for the application of complete marking in accordance with MIL-STD-130L, paragraph 5.2.1, a logo or other abbreviated marking shall be substituted for the design activity identification.

(iii) Subassemblies, components, and parts embedded within delivered items as specified in Attachment Number ----  
--.

(2) The concatenated unique item identifier and the component data elements of the DoD unique item identification or DoD recognized unique identification equivalent shall not change over the life of the item.

(3) Data syntax and semantics of DoD unique item identification and DoD recognized unique identification equivalents. The Contractor shall ensure that--

(i) The encoded data elements (except issuing agency code) of the unique item identifier are marked on the item using one of the following three types of data qualifiers, as determined by the Contractor:

(A) Data Identifiers (DIs) (Format 06) in accordance with ISO/IEC International Standard 15418, Information Technology ``EAN/UCC Application Identifiers and ANSI MH 10 Data Identifiers and ANSI MH 10 Data Identifiers and Maintenance.

(B) Application Identifiers (AIs) (Format 05), in accordance with ISO/IEC International Standard 15418, Information Technology ``EAN/UCC Application Identifiers and ANSI MH 10 Data Identifiers and ANSI MH 10 Data Identifiers and Maintenance.

(C) Text Element Identifiers (TEIs), in accordance with the DoD collaborative solution ``DD" format for use until the solution is approved by ISO/IEC JTC1 SC 31. The ``DD" format is described in Appendix D of the DoD Guide to Uniquely Identifying Items, available at <http://www.acq.osd.mil/dpap/UID/guides.htm>; and

(ii) The encoded data elements of the unique item identifier conform to ISO/IEC International Standard 15434, Information Technology--Syntax for High Capacity Automatic Data Capture Media.

(4) DoD unique item identification and DoD recognized unique identification equivalents.

(i) The Contractor shall--

(A) Determine whether to serialize within the enterprise identifier or serialize within the part, lot, or batch number; and

(B) Place the data elements of the unique item identifier (enterprise identifier; serial number; and for serialization within the part, lot, or batch number only; original part, lot, or batch number) on items requiring marking by paragraph (c)(1) of this clause, based on the criteria provided in the version of MIL-STD-130, Identification Marking of U.S. Military Property, cited in the contract Schedule.

(ii) The issuing agency code--

001158

(a) Shall not be placed on the item; and

(B) Shall be derived from the data qualifier for the enterprise identifier.

(d) For each item that requires unique item identification under paragraph (c)(1)(i) or (ii) of this clause, in addition to the information provided as part of the Material Inspection and Receiving Report specified elsewhere in this contract, the Contractor shall report at the time of delivery, either as part of, or associated with, the Material Inspection and Receiving Report, the following information:

(1) Concatenated unique item identifier; or DoD recognized unique identification equivalent.

(2) Unique item identifier type.

(3) Issuing agency code (if concatenated unique item identifier is used).

(4) Enterprise identifier (if concatenated unique item identifier is used).

(5) Original part number.

(6) Lot or batch number.

(7) Current part number (if not the same as the original part number).

(8) Current part number effective date.

(9) Serial number.

(10) Government's unit acquisition cost.

(e) For embedded DoD serially managed subassemblies, components, and parts that require unique item identification under paragraph (c)(1)(iii) of this clause, the Contractor shall report at the time of delivery, either as part of, or associated with the Material Inspection and Receiving Report specified elsewhere in this contract, the following information:

(1) Concatenated unique item identifier or DoD recognized unique identification equivalent of the parent item delivered under a contract line, subline, or exhibit line item that contains the embedded subassembly, component, or part.

(2) Concatenated unique item identifier or DoD recognized unique identification equivalent of the embedded subassembly, component, or part.

(3) Unique item identifier type.\*\*

(4) Issuing agency code (if concatenated unique item identifier is used).\*\*

(5) Enterprise identifier (if concatenated unique item identifier is used).\*\*

(6) Original part number.\*\*

(7) Lot or batch number.\*\*

(8) Current part number (if not the same as the original part number).\*\*

(9) Current part number effective date.\*\*

001159

- (10) Serial number.\*\*
- (11) Unit of measure.
- (12) Description.

\*\* Once per item.

(f) The Contractor shall submit the information required by paragraphs (d) and (e) of this clause in accordance with the data submission procedures at <http://www.acq.osd.mil/dpap/UID/DataSubmission.htm>.

(g) Subcontracts. If paragraph (c)(1) of this clause applies, the Contractor shall include this clause, including this paragraph (g), in all subcontracts issued under this contract.

(End of clause)

PROPOSAL INSTRUCTIONS

**SPECIAL INSTRUCTIONS FOR PREPARATION OF THE PROPOSAL  
FOR CLIN 0017 CONTRACT DASG60-98-C-0001**

#### A. INTRODUCTION:

1. The Program Executive Office, Missile and Space (PEO - MS), Cruise Missile Defense Systems (CMDS) Project Office, Joint Land Attack Cruise Missile Defense Elevated Netted Sensor System (JLENS) Product Office plans to restructure the current JLENS contract DASG60-98-C-0001, Contract Line Item Numbers (CLINs) 0005AB and 0007AB into CLIN 0017 to procure two complete JLENS System Development and Demonstration (SDD) systems pursuant to Statement of Work, dated 25 Oct 05, and MIS-PRF-55628, dated 26 Oct 05.

2. The JLENS program is utilizing a system of systems approach whereas each JLENS SDD orbit consists of one elevated fire control system and one wide-area surveillance system capable of providing an [REDACTED]

[REDACTED] The fire control system and wide-area surveillance system shall have the capability of operating independently and autonomously and/or together as a JLENS orbit.

(b)(3)(A)  
(i)&Title  
10 Sec  
130 (a)(b)

#### B. OVERVIEW:

1. The contractor shall propose the costs for [REDACTED] prime items. The prime items are as follows:

(b)(3)(A)  
(i)&Title  
10 Sec 130  
(a)(b)

001160

(b)(3)(A)  
(i)&Title 10  
Sec 130 (a)(b)

- a. [redacted] fire control radars
- b. [redacted] Surveillance radars
- b. [redacted] processing stations of identical design.
- c. [redacted] aerostats platforms inclusive of the tethers and mobile mooring stations of identical design
- d. [redacted] communication payloads

(b)(3)(A)  
(i)&Title 10  
Sec 130 (a)(b)

2. The proposal shall also include effort for the following:

a. The proposal shall not merely offer to perform work in accordance with the SOW, but shall describe how to perform the actual work proposed as specifically and concisely as possible. Repeating the SOW without sufficient elaboration is unacceptable. Address all portions of the SOW as specifically and concisely as possible.

b. Trained personnel, equipment, supplies, tools, materials, helium, payload, on-site security, and associated equipment and services required to operate and maintain the systems. The contractor shall provide qualified Flight Directors for tests/demonstrations and normal flight operations. Support to tests/demonstrations/normal flight operations include the relocation and shipment of the hardware and support equipment to the exercise site, operations and maintenance of the system during the tests/demonstrations/normal flight operations.

c. The Contractor shall make maximum use of the items in the Government inventory: to test, to be components of, to operate, and to maintain the system. The government plans to provide the contractor access to the government supply system IAW AR 725-50. The contractor should make maximum use of the government maintenance and supply system, if it is advantageous to the government, to order spares/repair parts for the repair and maintenance of common items. The GFP list for CLIN 0017 is provided with the change order.

d. The contractor shall, as part of the proposal, identify all equipment (vehicles, generators, forklifts, converters, test equipment, cranes, helium trailers, etc.) required to operate and maintain the systems. The contractor shall provide items if not already in the government inventory.

f. The contractor shall describe the integration of the various program and engineering disciplines for the JLENS program by clearly describing the roles, responsibilities, and tasks of each functional area. The summary will provide an overview of the contractor's organization (includes key personnel, major subcontractors, responsibilities, lines of authority, flow of information, etc.) and general approach to support the solicitation requirements. Pertinent aspects of the proposed approach including teaming approaches, if any, subcontracting, and relevant expertise on similar programs should be identified. Particular proposal advantages or unique approaches should also

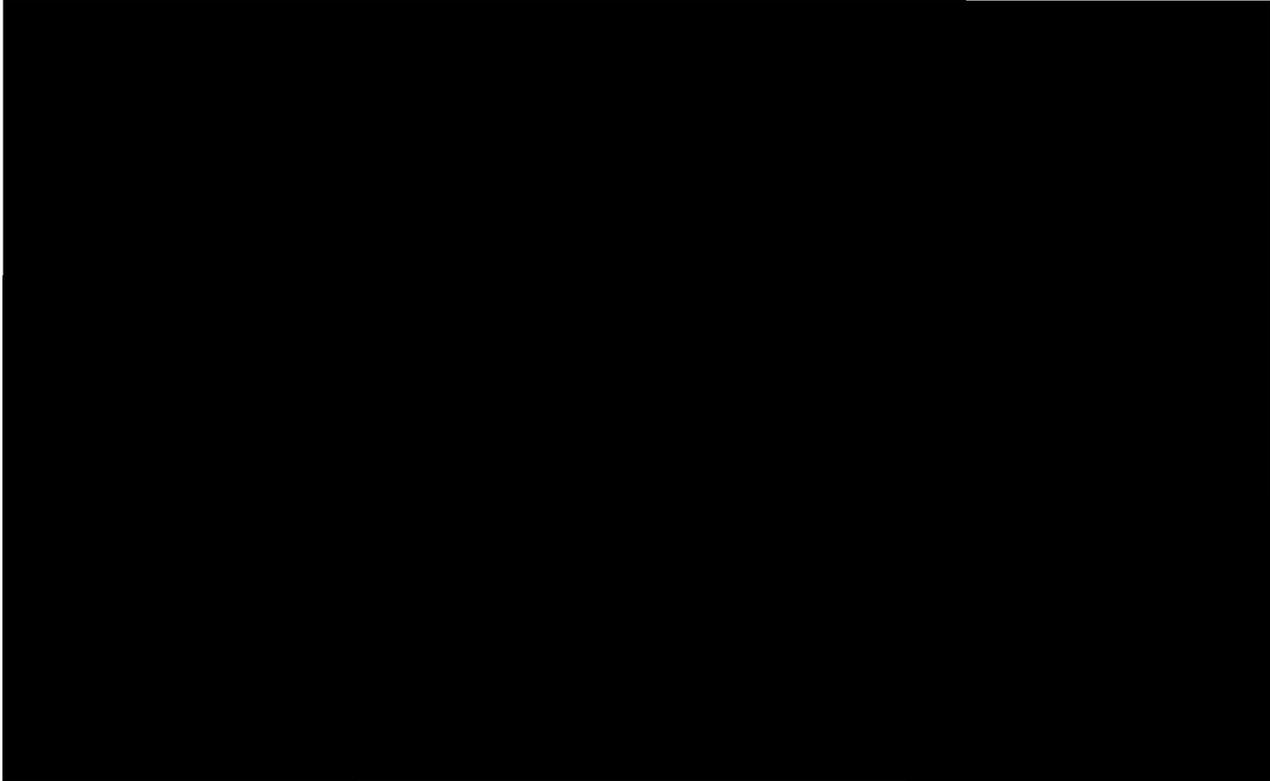

001161

be highlighted. The contractor shall fully describe the integrated management control system established for: scheduling, budgeting, and accumulating cost; assessing earned value; identifying cost and schedule problems; performing estimates at completion; and providing timely detailed performance status to management and the government.

g. The contractor shall extend the Program Work Breakdown Structure (PWBS) contained in this change order to the level of detail necessary to accomplish the contract Scope of Work. The PWBS and guidance for its extension to the Contractor Work Breakdown Structure (CWBS) are contained in the SOW Attachment 3.

001162

h. The contractor shall develop a CWBS in accordance with the WBS depicted in Figure 2.2.7-1.

**SUBMISSION OF PROPOSALS:** In addition to the copies required in paragraph C below, entitled "General", your response (proposal) to this change order shall be submitted to both your cognizant DCAA Auditor and the DCMA Administrative Contracting Officer. Submit one (1) copy of the cost and technical proposals to each office.

001164

**C. GENERAL:**

1. The address for proposal submission is as follows:

U.S. Army Space and Missile Defense Command  
JLENS Product Office  
ATTN: [REDACTED]  
[REDACTED]  
Huntsville, Alabama 35805-1990

(b)(6)

2. For purposes of this request for proposal (RFP), a page is defined as one side of standard 8 1/2" x 11" paper, 12-pitch or equivalent, proportional spacing permissible, "newspaper copy type" style (two column) permissible, one inch margin all sides, single spaced. Any charts or graphs, 8-pitch or equivalent is permissible, must be clearly legible. Foldouts are permissible; however, each 8 1/2 x 11 fold will count as a page. All pages shall be numbered. Print both sides of paper (head to head). Proposal volumes and appendices are to have soft covers (i.e., card stock), be spiral or comb bound or in 3-ring binders, be sized to stand on edge in a standard Government security safe drawer (maximum 10.25" high and 16" wide) and allow the drawer to close without requiring the document to lay down. Confine discussion of material contained in each appendix to the subject of the appendix.

3. In each proposal volume, a single cross-reference table to the statement of work (SOW) is required. Offerors shall propose the entire SOW. Appendices, title pages, table of contents, list of figures, list of tables, and acronyms, are not included in the stated page limitations for the proposal volumes. There are no page limitations for the appendices. Copies of the proposal volumes shall be numbered in sequence; i.e., copy 1 of 10 copies, etc. Proposals shall be UNCLASSIFIED with the exception of the technical volume and supporting documentation.

4. All electronic data must be for [REDACTED]

**D. VOLUME DESCRIPTIONS**

**1. VOLUME I - GENERAL:**

The general volume will consist of the actual proposal as set forth above to enter into a contract to perform the desired work. It shall also consist of the following: acknowledgment, team responsibility, assumptions and ground rules contained in the proposal, representations, certifications, acknowledgments, identification of technical data and computer software that the contractor intends to provide with limited rights or restricted rights, exceptions, and deviations. Provide any other General Information that may be beneficial in the evaluation of the proposal.

**2. VOLUME II - TECHNICAL PROPOSAL:**

The Technical Proposal shall address all the requirements of the government performance specification and the applicable paragraphs of the SOW. The technical proposal shall be formatted in a manner that will allow (1) its incorporation into the contract and (2) its practical application following contract award. The contractor has the flexibility to structure the technical proposal in a manner that satisfies both proposal and post-award application (e.g., appendices, attachments, annexes).

a. The technical proposal shall contain a description of the contractor's approach to complete all the requirements of the government performance specification using the government approved technical outline. For each section of the Technical Proposal, reference the pertinent SOW paragraph(s).

b. The proposal shall address: the nature of the requirements as understood by the contractor, identification of critical areas of the requirements, proposed methods of accomplishing overall requirements, and proposed methods of accomplishing critical areas.

c. Proposal containing statements of compliance only are not acceptable (e.g., "will comply"). The technical proposal shall contain a qualification of technical performance parameters and sufficient rationale to allow for evaluation of program approaches.

d. The contractor shall develop a crosswalk between the government performance specification and the proposal. If special conditions are required to meet a requirement(s) (such as NBC, transportability, engagement scenarios, operational availability), these shall be called out in a separate table or document along with the special condition (i.e, ten C-130's to move just the mooring station). If the proposed system is non-compliant with any portion of MIS-PRF-55628, the contractor shall so state, and provide the predicted performance of the system.

e. The contractor shall provide, with the proposal, a description of the Master Test Plan required in SOW at paragraph 5.2. The description shall include a preliminary list of all tests planned and identify the tests for which the contractor will submit test plans and reports per CDRL.

001166

f. The contractor shall provide, with the proposal, a plan and timeline for expediting data reduction during system level testing (PTIR system, SuR system, and Orbit).

g. The contractor shall provide a plan / approach to expeditiously verify the operational integrity of components, sub-systems, and orbit during E<sup>3</sup>, environmental, and HEMP tests. Identify any unique resources or special test equipment necessary to fulfill this plan.

h. The contractor shall describe models and simulations, how they will be used to mitigate program risks and the verification and validation process for each model and simulation proposed on this program that will be used for requirement verification. The contractor shall describe the process by which models and simulations will be used during flight tests (PTIR system, SuR systems, or Orbit).

001167

3. **VOLUME III - COST:**

a. INSTRUCTIONS FOR SUBMISSION OF A CONTRACT PRICING PROPOSAL WHEN COST OR PRICING DATA ARE REQUIRED: Cost proposals shall be submitted in accordance with FAR 15.408(l) and with 15.403-5. In submitting its proposal, the contractor grants the Contracting Officer or an authorized representative the right to examine, at any time before award, prime and major subcontractor, books, records, documents, or other directly pertinent records to verify any request for an exception under this provision, and the reasonableness of price. For items priced using catalog or market prices, or law or regulation, access does not extend to cost or profit information or other data relevant solely to the contractor's determination of the prices to be offered in the catalog or marketplace. In addition, provide the following:

b. For pricing purposes, the start date of the effort is the date the change order is issued. Include the proposed contract type and period of performance. The cost volume shall provide cost data in response to the SOW, Specification, and change order modification. The cost volume shall consist of the proposed costs for the JLENS System Development and Demonstration (SDD) Program. Provide any other General Information that may be beneficial in evaluation of your proposal.

Provide the following information on the first page of your pricing proposal:

- (1) Name, address, voice telephone number, fax number, and e-mail address of cognizant Defense Contract Audit Agency;
- (2) Type of contract (that is, FFP, FPI, CPFF, CPFF Level of Effort, etc.);
- (3) Proposed cost; profit or fee dollars, cost of money dollars, and total for overall contract;
- (4) Place(s) and period(s) of performance;
- (5) Whether your organization is operating under an accounting system that has been approved for cost type contracts. Whether your organization is subject to cost accounting standards; whether your organization has submitted a CASB Disclosure Statement, and if it has been determined adequate; whether you have been notified that you are or may be in noncompliance with your Disclosure Statement or CAS, and, if yes, an explanation; whether any aspect of this proposal is inconsistent with your disclosed practices or applicable CAS, and, if so, an explanation; and whether the proposal is consistent with your established estimating and accounting principles and procedures and FAR Part 31, Cost Principles, and, if not, an explanation;
- (6) A listing by Line Item Number of each line item's applicable cost, fee, COM, and total dollars;
- (7) Date of submission; and

001168

(8) Name, title and signature of authorized representative.

c. The cost volume shall include the proposed costs for the JLENS SDD Program, CLIN 0017, of the JLENS contract. The cost proposal shall include costs for two complete Precision Track and Illumination Radar (PTIR) systems comprised of a platform, PTIR, communications payloads, and mobile processing station and for two complete Surveillance Radar (SR) systems comprised of a platform, communications payloads, and mobile processing station.

(1) The cost proposal shall be consistent with the cost, schedule, and technical requirements provided with the change order. The cost proposal shall in accordance with the Contract Work Breakdown Structure (CWBS) provided.

(2) The cost proposal shall be supported by cost and pricing data. Costs proposed shall be provided:

(a) in total by both government fiscal year and contractor rate year that summarizes to the grand total amounts shown.

(b) by cost element by both government fiscal year and contractor rate year

(c) by cost element by WBS Level 2 by government fiscal year

(d) by government fiscal year to WBS Level 1, 2, 3, 4, and 5

(3) A DD1861, Contract Facilities Capital Cost of Money, shall be provided by contractor rate year. A table will be provided by government fiscal year for Contract Facilities Capital Cost of Money.

(4) A matrix of subcontractor proposed and contractor evaluated subcontract costs by both government fiscal year and contractor rate year.

(5) A consolidated priced Bill of Material shall be provided in descending high dollar format in total by WBS with the following information:

Part Number	Vendor Invoice N Or Other Referen	Vendor	Quantity	Unit Price	Extended Price	Basis of Estimate

(6) A matrix of costs by WBS by government fiscal year by Product IPTs / Cross Product IPTs. The contractor shall provide the test cost and the integrated logistics support cost into separate individual sections.

(7) A matrix of travel costs by WBS by both government fiscal year and contractor rate year shall be provided with the following information:

001169

No. of Trips	No. of Persons	No. of Days	Per Diem Per Day	Airfare Per Trip	Car Rental per Day	Total Travel Cost

(8) List all other direct cost (ODC) not otherwise included in the categories described elsewhere in this solicitation (e.g. computer, consultant service, etc.) and provide basis for pricing. For computer cost, describe the type of computer services being priced, the number of computer hours (and the basis of those hours) and the rate per computer hour. For consultant cost, provide the agreement between your company and the consultant showing the rate per consultant hour. For ODC other than those described, provide the same level of detail as listed for the computer cost and consultant cost

(9) A consolidated priced list of the GFE/GFP/GFS required of the contractor by the government with a description, cost, quantity, lead time, date required by contractor for items to be provided, availability, etc.

(10) For each subcontract proposal that is either greater than \$10,000,000 or greater than 10% of the contractor's proposed price and greater than the cost and pricing data threshold, provide the following:

- a. Information in Section II of L. for each subcontractor.
- b. A cost element breakdown by CLIN by government fiscal year and contractor rate year. In addition, provide a Grand Total rollup summary by cost element breakdown.
- c. Explanations of each cost element as delineated in the instructions to the prime contractor.

(11) If interdivisional transfers of cost are applicable, provide the following for each division:

- a. Information in Section II of L. for each division.
- b. A cost element breakdown by CLIN government fiscal year and contractor rate year. In addition, provide a Grand Total rollup summary by cost element breakdown.
- c. Explanations of each cost element as delineated in the instructions to the prime contractor.

(12) FAR 15.806 requires the prime contractor to submit as part of their cost and pricing data the results of subcontract review and evaluations. For this proposal, the contractor shall obtain assist audits from the DCAA on all subcontract proposals that exceed \$1,000,000. These audit reports and the contractor's cost and technical analyses of these subcontractor proposals shall be furnished to the government NLT forty-five days after the proposal is submitted.

(13) Since subcontractor technical evaluations will be conducted by the government, copies of the subcontractor's cost proposals shall be delivered with the submittal of the contractor's proposal (or furnished directly to the government by the subcontractor for those subcontractor's that do not wish to disclose their rates and factors and rate structure to the prime contractor) in the same level of detail as that required for the contractor's proposal.

001170

(14) Since the interdivisional transfers technical evaluations will be conducted by the government, copies of the interdivisional transfers cost proposals shall be delivered with the submittal of the contractor's proposal (or furnished directly to the government by the interdivisional transfers for those interdivisional transfers that do not wish to disclose their rates and factors and rate structure to the prime contractor) in the same level of detail as that required for the contractor's proposal.

(15) Provide a grand total roll-up summary by cost element breakdown by CFY.

(16) Provide the proposed fee/profit percentage and base.

(17) It is unacceptable to send proposals containing statements of compliance only (e.g., "will comply"). The proposal shall include a description of resources and positions by labor mix to be used in accomplishing the requirements of the statement of work.

(18) The proposal shall include within each Basis of Estimate (BOE), or in another format, a complete breakout by fiscal year of the number of hours proposed and correlated to specific implicit or explicit tasks to be performed under that BOE per year. All Level of Effort (LOE) tasks shall be kept to a minimum and disclosed in a separate table.

#### **4. VOLUME IV – CDRL PLANS and IPT Charters**

a. The following CDRLs require initial submittal with the SDD Proposal:

B002 - Integrated Master Plan/Integrated Master Schedule  
B052 - Program Management Plan

The contractor shall develop an event driven IMP that describes the contractor's approach to executing the overall program. Events, criteria, and planned accomplishments shall be shown such that all aspects of performance (operational and support), design and development, fabrication, assembly, integration, testing, quality, and logistics are addressed and oriented towards program objectives. The IMP shall provide the government and the contractor a living management document for execution of the program as well as an assessment of progress toward and completion of each activity and milestone. The IMP shall provide insight into the total work effort (SOW tasking) to achieve all program goals. The IMP shall be organized to track/map to the SOW, CWBS and the IMS. The IMP shall establish activities and events that must be successfully completed to provide a logical and orderly development process. The IMP shall identify planned accomplishments/criteria for each event to ensure a logical, orderly development process is maintained. In the IMS, the critical path shall be identified; the sensitivity of this path to significant activities/events and associate development/integration/risk mitigation tasks shall be identified; it shall be keyed to the major program milestones.

001171

The contractor shall submit the initial Integrated Master Plan (IMP) and Integrated Master Schedule (IMS) with the proposal. The baseline IMS will be provided at the IBR.

b. IPT Charters

The contractor shall include a description with charts of the proposed organization to include key technical and management personnel of the contractor's organization and proposed subcontractor(s) organization(s), and associated resumes. Key personnel are the Project Manager, Deputies, Chief of each functional element or the support staff, and other significant personnel. Access to senior corporate technical specialists, such as Chief Scientist, Quality, Safety, shall also be shown. Authority relationships and duties shall be established for the project organization with an indication of level of control of project and company resources. The degree of participation of key personnel and roles of the subcontractor's key personnel shall also be indicated.

The contractor shall submit the IPT structure in accordance with the Contract Work Breakdown Structure (CWBS). The contractor shall submit an IPT plan which includes charters for all contractor IPTs and sub-IPTs, membership (organization ) of each IPT and sub-IPT, methodology (processes) for government interaction, communication plan, and schedule of meetings. The IPT or sub-IPT charters shall detail the roles, responsibilities, and authority of its respective IPT or sub-IPT members, both contractor and government. The IPT shall not direct any changes which contradict the terms and conditions of the contract, nor shall the contractor use the IPT forum as a venue to solicit or acquire decisions that are contrary to the terms and conditions of the contract. The Configuration Control Board (CCB) and Risk Review Board (RRB) have been specifically identified by JLENS Product Director as required in the submission.

SECTION G - CONTRACT ADMINISTRATION DATA

Accounting and Appropriation

Summary for the Payment Office

As a result of this modification, value of contract is corrected to read \$298,645,015.52. The total funded amount for this contract does not change.

Whereas, available funds from CLINs 0005AA, 0007AA, and 0013 and associated ACRNs have been disbursed in support of CLIN 0017AA ACRN BW effort, the Government and contractor agree that this effectively increases the funded amount of CLIN 0017AA, ACRN BW, for the System Development and Demonstration (SDD) effort. Accordingly, amounts disbursed in support of CLIN 0017AA, ACRN BW effort, from available funds from CLINs 0005AA, 0007AA, and 0013 (identified below) shall not be considered in the basis of fee determination for CLINs 0005AA, 0007AA, and 0013.

Tasks under CLINs 0003, 0007AA, 0009, and 0013 have been accomplished on a completion basis. Tasks under CLIN 0005AA have been accomplished on a completion basis, except those identified within this modification to be transferred to CLIN 0017AA.

(End of Summary of Changes)

**The following items are applicable to this modification:**

MODIFICATION

1. Modification P00123 contained an error under Section G, Summary for the Payment Office. The total funded amount for this document is corrected from \$258,426,905 to \$298,645,015.52.
2. Effect of payment transfers from CLINs 0005AA, 0007AA, and 0013 to CLIN 0017AA:

0005AA	BH	3,500,000.00
0005AA	BL	187,000.00
<b>Subtotal CLIN 0005AA</b>		<b>3,687,000.00</b>
0007AA	BP	480,000.00
<b>Subtotal CLIN 0007AA</b>		<b>480,000.00</b>
0013	BJ	100,000.00
<b>Subtotal CLIN 0013</b>		<b>100,000.00</b>
<b>Total Transfer to CLIN 0017AA BW</b>		<b>4,267,000.00</b>

3. Payment transfers from CLINs 0005AA, 0007AA, and 0013 increased funding for payment of CLIN 0017AA, ACRN BW, in the amount of \$4,267,000.00. CLIN 0017AA total funds are increased from \$83,846,000.00 to \$88,113,000.00. Payment transfers as shown in this modification are administrative to show the payment of available funds from CLINs 0005AA, 0007AA, and 0013 and associated ACRNs to CLIN 0017AA, ACRN BW.

(e) If the contractor conducts the Test Readiness Review for the Limited User Test on or after 01 January 2011, the contractor is not entitled to any of the schedule fee incentive pool.

(f) If the contractor achieves an early milestone as listed in (a) through (d), the contractor shall submit a letter to the government Contracting Officer notifying him/her of the completion of the milestone and the claim for the incentive fee.

(3) For Earned Value and cost reporting purposes, the target cost value of [redacted] will be used. (b)(4)

(4) If schedule incentive fee listed above is earned, the additional contract value will be added to the total value of this contract at the time the incentive is earned.

#### d. Changes issued under FAR 52.243-2, Changes - Cost Reimbursement

In the event of a change issued under FAR 52.243-2, Changes - Cost Reimbursement, it is agreed that changes to the performance and schedule incentive may be considered a part of the equitable adjustment. In the event that any Options to CLIN 0017 are added and exercised, the incentive fee for cost and schedule/performance applicable to the Option will be incorporated in accordance with the incentive fee structure of this provision.

#### H-20 Contractor Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Technical Data or Computer Software.

The contractor and its subcontractors have provided document entitled "Identification and Assertion of Restrictions on the Government's Use, Release, or Disclosure of Technical Data or Computer Software". This document is incorporated into this contract as an attachment listed in section J. This Attachment is incorporated herein by reference as if fully set forth. This attachment identifies and provides information pertaining to certain technical data (including computer software documentation) and computer software that the contractor and subcontractors claim to qualify for delivery with less than Unlimited Rights. The contractor agrees not to withhold delivery of the technical data or software based on its claims. Proprietary source code will be delivered in accordance with a mutually agreed upon, no fee license. The Government has not investigated nor agreed to the validity of the contractor's claims and therefore reserves all its rights regarding the technical data/software in question, to include those rights as set forth in the Rights in Technical Data - Noncommercial Items (Nov 1995) clause (DFARS 252.227-7013), the Rights in Noncommercial Computer Software and Noncommercial Computer Software Documentation (Jun 1995) clause (DFARS 252.227-7014), and the Validation clauses at DFARS 252.227-7019 and 252.227-7037. The contractor reserves the right to submit additional entries to the aforementioned attachment in accordance with the provisions of paragraphs (e)(3) of DFARS 252.227-7013 and 252.227-7014.

The contractor shall have, maintain, and follow written procedures sufficient to assure that restrictive markings are used only when authorized by the terms of this contract and shall maintain records sufficient to justify the validity of any restrictive markings on any technical data or computer software delivered under this contract. The contractor agrees that the Government has Unlimited Rights in any deliverable technical data or computer software not listed (or appropriately submitted for inclusion) in the attachment and that such data or software will not be subject to any restrictive markings or legends.

The contractor further agrees to update the Attachment prior to completion of the contract and account for any development accomplished exclusively or partially with Government funds. The contractor also certifies for itself and its subcontractors that all claims to Limited or Restricted Rights in the Attachment and updates are or will be based on items, components, or processes (ICP) or computer software "developed" "exclusively at private expense" as those terms are defined in DFARS 252.227-7013 and 252.227-7014.

001218

H-21 GFP Additional Information:

The government will provide a full battery of equipment for the Road March and [REDACTED] hour emplacement demonstration on an as required basis.

**SPECIAL CONTRACTOR INSTRUCTIONS**

The contractor is required to provide unit cost and hour in the Progress Curve Report, DD Form 1921-1 (Part II). In section A (A1 through An), in each column, report incurred cost and hour data (unit-by-unit) for each unit completed. (Include all completed units whether designated as test, operational, or spare. Do not report on items such as spare parts or mock-ups, which represent only partially completed units.) If needed, additional columns may be added sequentially (i.e., A5, A6, etc.). In column B, Work-in-Process (WIP), enter incurred cost and hour data for all units started but not yet completed during the reporting period. (The sum of cost and hour data reported in section A and column B should match respective cost/hour data incurred to date on the Functional Cost-Hour Report column E). In column C, enter estimates for recurring cost and hour data to complete the work-in-process, and to complete remaining units. (The sum of cost and hour data reported in section A, column B, and column C should match respective cost/hour data estimated at completion on the Functional Cost-Hour Report column F).

**PROGRAM OVERVIEW AND CONTRACTING APPROACH**

**1. Special Contractor Instructions**

The contractor is required to provide unit cost and hour in the Progress Curve Report, DD Form 1921-1 (Part II). In section A (A1 through An), in each column, report incurred cost and hour data (unit-by-unit) for each unit completed. (Include all completed units whether designated as test, operational, or spare. Do not report on items such as spare parts or mock-ups, which represent only partially completed units.) If needed, additional columns may be added sequentially (i.e., A5, A6, etc.). In column B, Work-in-Process (WIP), enter incurred cost and hour data for all units started but not yet completed during the reporting period. (The sum of cost and hour data reported in section A and column B should match respective cost/hour data incurred to date on the Functional Cost-Hour Report column E). In column C, enter estimates for recurring cost and hour data to complete the work-in-process, and to complete remaining units. (The sum of cost and hour data reported in section A, column B, and column C should match respective cost/hour data estimated at completion on the Functional Cost-Hour Report column F).

(1) The target fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money in amount equal to [REDACTED].

(2) The maximum fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money in amount equal to [REDACTED]. (b)(4)

(3) The minimum fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money in amount equal to [REDACTED].

(4) Fee will be adjusted for actual cost that is less than or more than the target cost stated above using a share ratio of [REDACTED] Government / [REDACTED] Contractor for actual costs less than the target cost, and a ratio of [REDACTED] Government / [REDACTED] Contractor for actual costs greater than the target cost range applied according to Paragraph H-19(c)(1). (b)(4)

(5) Nothing stated in this clause shall take precedence over the clause 52.216-10 - Incentive Fee contained in this contract.

c. Schedule Incentive.

(1) A maximum [REDACTED] "flat zone" will be established at the target cost value of [REDACTED] with the conduct of milestones below. The "flat zone" over which the contractor will earn target fee is for eligible costs from [REDACTED] since the program milestones set forth below are conducted. (b)(4)

(a) [REDACTED] the maximum benefit of the "flat zone", earned by the conduct of the SDD System Functional Review NLT 2nd Quarter, Fiscal Year 2007.

It is hereby acknowledged by the Government that Raytheon completed the requirement for this flat zone and earned the "Flat Zone" Schedule Incentive of [REDACTED]. Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the conclusion of the Contract.. Reference: Letter dated 5 March 2007 from [REDACTED]. (b)(4)  
(b)(6)

(b) [REDACTED] the maximum benefit of the "flat zone", earned by the conduct of SDD Orbit Critical Design review NLT 2nd Quarter, Fiscal Year 2009.

(2) An additional schedule incentive fee pool of [REDACTED] is established and will be awarded to the contractor for conducting Test Readiness Review to allow for the Limited User Test Effort according to the schedule below: (b)(4)

(a) [REDACTED] of the schedule fee pool, an amount of [REDACTED] will be awarded to the contractor if the contractor conducts the Test Readiness Review for the Limited User Test NLT 31 December 2010. (b)(4)

(b) [REDACTED] of the schedule fee pool, an amount of [REDACTED] will be awarded to the contractor if the contractor conducts the Test Readiness Review for the Limited User Test NLT 30 November 2010. (b)(4)

(c) [REDACTED] of the schedule fee pool, an amount of [REDACTED] will be awarded to the contractor if the contractor conducts the Test Readiness Review for the Limited User Test NLT 31 October 2010. (b)(4)

001330

(d) [redacted] of the schedule fee pool, an amount of [redacted] awarded to the contractor if the contractor conducts the Test Readiness Review for the Limited User Test NLT 30 September 2010.

(b)(4)

(e) If the contractor conducts the Test Readiness Review for the Limited User Test on or after 01 January 2011, the contractor is not entitled to any of the schedule fee incentive pool.

(f) If the contractor achieves an early milestone as listed in (a) through (d), the contractor shall submit a letter to the government Contracting Officer notifying him/her of the completion of the milestone and the claim for the incentive fee.

(3) For Earned Value and cost reporting purposes, the target cost value of [redacted] will be used.

(b)(4)

(4) If schedule incentive fee listed above is earned, the additional contract value will be added to the total value of this contract at the time the incentive is earned.

d. Changes issued under FAR 52.243-2, Changes - Cost Reimbursement

In the event of a change issued under FAR 52.243-2, Changes - Cost Reimbursement, it is agreed that changes to the performance and schedule incentive may be considered a part of the equitable adjustment. In the event that any Options to CLIN 0017 are added and exercised, the incentive fee for cost and schedule/performance applicable to the Option will be incorporated in accordance with the incentive fee structure of this provision.

SECTION I - CONTRACT CLAUSES

Federal Acquisition Regulation (FAR) 22.103-5 requires FAR 52.222-2, "Payment for Overtime Premiums" to be included in cost reimbursement contracts over \$100,000 however, the Clause further states the Overtime Clause is not applicable if "A cost-plus-incentive fee contract will provide a swing from the target fee of at least plus or minus 3 percent and a contractor's share of at least 10 percent is contemplated". Therefore, FAR 22.103-5 negates the need for FAR 52.222-2 in Contract DASG60-98-C-0001. Therefore, FAR 52.222-2 is deleted from Contract DASG60-98-C-0001.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

SECTION A - EXPLANATION OF CHANGES ON MOD P00144:

- (1) Due to an error in the Acctg Code on the funding document for Mod P00142, SUBCLIN 0017AA funding line ACRN: KS was decreased by \$34M and SUBCLIN 0017AD funding line ACRN: KS was decreased by \$173,798. Per the new Acctg Code funding document: SUBCLIN ACRN: KT was increased by \$34M and SUBCLIN 0017AD is replaced with a new SUBCLIN 0017AH due to the Procurement System, therefore, SUBCLIN 0017AH ACRN: KT was increased by \$173,798.
- (2) Corrected stated amount on cover page of Mod P00142 for SUBCLIN 0017AD from \$173,050 to \$173,798, however, since this mod decreased this line item to \$0 for reasons described in (1) above, this is a mute point.
- (3) Increased SUBCLIN 0017AA ACRN: KN by \$300,000 and SUBCLIN 0017AA ACRN: KT by \$26M per a new funding document to incrementally fund SUBCLIN 0017AA.

### Use/relationship:

This report provides Government visibility into contractor expenditures for labor, materials, travel and other contract charges. It tracks these expenditures against baseline values, and provides to-completion estimates.

This Data Item Description (DID) contains format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

This DID is applicable to time and material, research and development and other contracts where use of Cost Performance Reporting (CPR) or Cost/Schedule Status Reporting (C/SSR) are not appropriate. It is not applicable on fixed-price contracts. It is acquired on a periodic basis.

It is not intended that all the requirements contained herein should be applied to every contract or program phase. Portions of this DID are subject to deletion tailoring depending on the management requirements of the solicitation/contract in which it is applied.

This DID is related to DI-A-5016, Project Planning/Actual Progress Chart (Other than fixed price contracts), and DI-FNCL-80003, Man-Hour Expenditure Chart.

This DID supersedes DI-FNCL-80331.

### Requirements:

1. Reference documents. None.

2. General. The Funds and Man-Hours Expenditure Report shall contain the following data:

- a. A tabular listing of funding and man-hour expenditures inclusive of the reporting period compared to original baseline values, including to-completion estimates.
- b. A graphical plot of planned versus actual funding expenditures.
- c. A graphical plot of planned and actual percentage of work completed.

3. Scope. Each task, job-order, sub-task, or unit of work will be separately addressed. If schedule or milestone reporting is also a reporting requirement under the contract; the breakdown of work task elements should be consistent with the reporting.

4. Format and Content. The report shall contain the following:

4.1 Funds and man-hour expenditure summary. This chart shall contain the following data elements (See Figure 1).

4.1.1 Original negotiated contract. A summary of all cost elements associated with the original negotiated contracts. This is defined as the contractor's original cost proposal, as negotiated and accepted by the Government. It is that cost as it appears on the original contract document. Its elements shall contain the cost estimate breakdown by category (i.e., direct labor (Sr. Engineer, Jr Engineer, draftsman, engineer shop, etc), burden/overhead, material/parts, travel, subsistence, fringe, General and Administration (G&A) fee, outstanding commitments, etc), as provided in the accepted proposal. Items and amounts specified in this entry shall remain constant on successive reports during the term of the contract.

4.1.2 Latest negotiated contract changes. A summary of the latest negotiated contract changes. It shall be a recapitulation of the 4.1.1 data elements reflecting all subsequent changes resulting for contract modifications. Breakdown by category shall be as provided in 4.1.1 unless altered by a contract modification. Indicated "none" if revised proposal has no effect.

4.1.3 Reporting period expenditures. Expenditure data for the current reporting period for the work task categories used in 4.1.1 or 4.1.2 (as applicable), and covering man hours, funds, and the change (new orders minus fulfilled orders) in outstanding commitments.

4.1.4 Cumulative expenditure to date. Cumulative man hour, funds and outstanding commitments expenditure data through the current reporting period for the work task categories used in 4.1.1 and 4.1.2 (as applicable). Additionally, show the cumulative costs as a percentage of the 4.1.1 of 4.1.2 costs.

4.1.5 Estimated cost-to-complete. The estimated costs required to complete the work task from the reporting date to the date of completion. This estimate shall be defined by categories as they appear in 4.1.1 of 4.1.2. All estimates shall be justified.

4.1.6 Latest cost estimate. An estimate of the final total cost at completion of the work effort. This is derived from 4.1.4 and 4.1.5. Deviations between the original contract and/or latest negotiated contract change shall be justified/explained in footnote remarks.

4.2 Funds expenditure graph. A funds expenditure graph shall be included. The graph shall be reproducible to enable periodic changes reflecting current contract funding status to be entered. The graph shall portray, on a periodic basis, the planned versus actual total dollar expenditures and the percentage of the total contract dollars that the expenditure represent (See Figure 2).

4.3 Work completed graph. A work completed graph shall be included that reflects the percentage of work completed by the contractor through the current reporting period. The graph shall plot actual completion versus planned completion, and shall be maintained current and be fully legible and reproducible (See Figure 3).

1. TITLE CONTRACT FUNDS STATUS REPORT (CFSR)		2. REPORT/SCHEDULE NUMBER DI-MGMT-81468	
3. DESCRIPTION/PURPOSE 3.1 The Contract Funds Status Report (CFSR), DD Form 1586, Sample Format 1, is designed to supply funding data about defense contracts to Program Managers for: (a) updating and forecasting contract funds requirements, (b) planning and decision making on funding changes to contracts, (c) developing funds requirements and budget estimates in support of approved programs, (d) determining funds in excess of contract needs and available for deobligation, and (e) obtaining rough estimates of termination costs.			
4. APPROVAL DATE (YYMMDD) 951019	5. OFFICE OF PRIMARY RESPONSIBILITY (OWA) OUSD(A&T)API/PM	6. DTIC APPLICABLE	7. GPO USE APPLICABLE
8. APPLICATIONS/RELATIONS 8.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirements as delineated in the contract. 8.2 This DID may be used in conjunction with the Contract Work Breakdown Structure DID, DI-MGMT-81334, the Cost Performance Report DID, DI-MGMT-81466, and the Cost/Schedule Status Report DID, DI-MGMT-81467. 8.3 <u>Contractual Application.</u> The CFSR is applicable to contracts over 6 months in duration. No specific application thresholds are established, but application to contracts of less than \$1,000,000 (constant fiscal year (FY) 1990 dollars) should be evaluated carefully to ensure only the minimum information necessary for effective management control is required. The CFSR will not be applied to firm fixed price contracts (as defined in FAR 16.202) unless unusual circumstances require specific funding visibility. CFSRs may be applied to unpriced portions of firm fixed price contracts that are estimated to be in excess of twenty (20) percent of the initial contract value. Only those parts of the CFSR essential to the management of each acquisition will be required. The DoD Program Manager will determine the need for contract funds information and apply only those portions of the CFSR deemed appropriate. To ensure that only minimum data is required over the life of the contract, provisions should be included in the contract to review reporting requirements at least annually and change them, if necessary, at no charge to the Government. (Continued on page 2)

12. PREPARATION INSTRUCTIONS 10.1 <u>Format.</u> Contractor formats should be substituted whenever they contain all the required data elements at the specified reporting levels in a form suitable for DOD management. 10.2 <u>Content.</u> The CFSR shall contain the following information: 10.2.1 <u>Item 1 - Contract Number.</u> Enter the assigned contract number and the latest modification number on which contractual agreement has been reached. 10.2.2 <u>Item 2 - Contract Type.</u> Enter the type of contract as identified in FAR Part 16 (e.g., Cost Plus Fixed Fee (CPFF), Fixed Price Incentive (FPI), etc.). 10.2.3 <u>Item 3 - Contract Funding For.</u> Enter the applicable type as follows: Multi-Year Procurement (MYP) Incrementally Funded Contract (INC) Contract for a Single Year (SYC) 10.2.3.1 <u>For FY.</u> For contracts which are financed with funds appropriated in more than one fiscal year, a report is required for each fiscal year's funds where the separate year's funds in the contract are associated with specific quantities of hardware, or services to be furnished. The fiscal year(s) being reported will be shown in this block and that year's share of the total target prices (initial and adjusted) will be shown in Items 9 and 10. (Continued on page 3)			
13. DOWNGRADING STATEMENT Distribution Statement A: Approved for public release; distribution is unlimited.			

001533

**7.3.1 Level of Reporting.** If a contract is funded with a single appropriation, a single line entry at the total contract level should be considered for CFSR reporting. Reporting by line item or WBS element will be limited to only those items or elements needed to support funds management requirements. A reduced level of reporting may be implemented on contracts (a) with a dollar value between \$250,000 and \$1,000,000 (constant FY 1990 dollars); (b) that are for time and material; or (c) for which only limited funding requirements information is needed.

**7.3.2 Multiple Appropriations.** Where two or more appropriation sources are used for funding a single contract, contractors will segregate funds data by appropriation accounting reference. The procuring agency will supply the appropriation numbers applicable to individual line items or WBS elements. If a single line item or WBS element is funded by more than one appropriation, methods for segregating and reporting such information will be negotiated and specified in the contract.

**7.3.3 Electronic Data Interchange.** The American National Standards Institute (ANSI) X12 standard (transaction set 839), or the United Nations Electronic Data Interchange For Commerce, Administration and Transport (EDIFACT) equivalent, will be used for EDI transmission.

**7.4 Frequency and Submission.** The CFSR will be a contractual requirement as set forth in the Contract Data Requirements List (CDRL) DD Form 1423. Unless otherwise provided in the contract, the CFSR will be prepared as of the end of each calendar quarter or contractor accounting period nearest the end of each quarter. The required number of copies of the CFSR will be forwarded within 25 calendar days after the "as of" date of the report, or as otherwise specified in the contract. In the event of exceptional circumstances which call for increased frequency in reporting, such frequency will not be more often than monthly and will be negotiated and specified in the contract.

**7.5 Explanations of Terms.**

**7.5.1 Open Commitments.** For this report, a commitment represents the estimated obligation of the contractor (excluding accrued expenditures) to vendors or subcontractors (based on the assumption that the contract will continue to completion).

**7.5.2 Accrued Expenditures.** For this report, include recorded or incurred costs as defined within the Allowable Cost, Fee and Payments Clause (FAR 52.216-7) for cost type contracts or the Progress Payments Clause (FAR 52.232-16) for fixed price type contracts, plus the estimated fee or profit earned. Such costs include:

**7.5.2.1 Actual payments for services or items purchased directly for the contract.**

**7.5.2.2 Costs incurred, but not necessarily paid, for storeroom issues, direct labor, direct travel, direct other in-house costs and allocated indirect costs.**

**7.5.2.3 Progress payments made to subcontractors.**

**7.5.2.4 Pension costs provided they are paid at least quarterly.**

**7.5.3 Termination Costs.** Although this report is prepared on the basis that the contract will continue to completion, it is necessary to report estimated termination cost by government fiscal year and generally by more frequent intervals on incrementally funded contracts. The frequency will be dependent on the funding need dates (i.e., quarterly) and should be compatible with the contract funding clauses, Limitation of Funds clause (cost type contracts) or

001534

costs include such items as loss of useful life of special tooling, special machinery and equipment; rental cost of unexpired leases; and settlement expenses. The definition of termination costs is included in FAR 31.205-42. In the event the Special Termination Costs clause (DFARS 252.249-7000) is authorized, then costs defined therein will be eliminated from the estimated termination costs.

7.6 The CFSR DID may be "tailored" in Block 16 of CDRL DD Form 1423. Tailoring is defined as deleting requirements from a DID. Requiring more information in the CFSR CDRL DD Form 1423 than specified in this DID is prohibited by DOD regulation. All negotiated reporting provisions will be specified in the contract's CDRL.

7.7 This DID supersedes DI-F-6004B.

Block 10, Preparation Instructions (Continued)

10.2.4 Item 4 - Appropriation. Enter the appropriation name (i.e., Research, Development, Test and Evaluation, Aircraft Procurement, etc.) and DoD Component (i.e., Air Force, Navy, etc.) in this block.

10.2.5 Item 5 - Previous Report Date. Enter the cut-off date of the previous report. (Year, Month, Day)

10.2.6 Item 6 - Current Report Date. Enter the cut-off date applicable to this report. (Year, Month, Day)

10.2.7 Item 7 - Contractor. Enter the name, division (if applicable), and mailing address of the reporting contractor.

10.2.8 Item 8 - Program. Identify the program by name or enter the type, model and series or other military designation of the prime item or items purchased on the contract. If the contract is for services or a level-of-effort (i.e., research, flight test, etc.), the title of the service should be shown.

10.2.9 Item 9 - Initial Contract Price. Enter the dollar amounts for the initial negotiated contract target price (or estimated price for non-incentivized contracts) and contract ceiling price when appropriate. For contracts which are financed with funds appropriated in more than one fiscal year, only the share of the total initial target and ceiling associated with the fiscal year shown in Item 3 will be entered.

10.2.10 Item 10 - Adjusted Contract Price. Enter the dollar amounts for the adjusted contract target price (initial negotiated contract plus supplemental agreements) and adjusted contract ceiling price or estimated ceiling price where appropriate. For contracts which are financed with funds appropriated in more than one fiscal year, only the share of the total adjusted target and ceiling associated with the fiscal year shown in Item 3 will be entered.

10.2.11 Item 11 - Funding Information.

10.2.11.1 Column a. - Line Item/Work Breakdown Structure (WBS) Element. Enter the line item or WBS elements specified for CFSR coverage in the contract.

10.2.11.2 Column b. - Appropriation Identification. Enter the appropriation number supplied by the DoD Component for the contract or, if applicable, each line item or WBS element.

001535

10.2.11.3 Column c. - Funding Authorized To Date. Enter dollar amounts of contract funding authorized under the contract from the beginning of the fiscal year(s) shown in Item 3 through the report date shown in Item 6.

10.2.11.4 Column d. - Accrued Expenditures Plus Open Commitments Total. For contract work authorized, enter the total of (a) the cumulative accrued expenditures incurred through the end of the reporting period, and (b) the open commitments on the "as of" date of the report. Enter the total applicable to funds for the fiscal year(s) covered by this report as shown in Item 3.

10.2.11.4.1 Separation of Open Commitments and Accrued Expenditures. On selected contracts, the separation of open commitments and accrued expenditures by line item or WBS element may be a negotiated requirement in the contract. Utilization of this provision should be held to the minimum essential to support information needs of the procuring agency. In the event this separation of data is not available in the contractor's accounting system or cannot be derived without significant effort, provision should be made to permit use of estimates. The procedures used by the contractor in developing estimates shall be explained in the Remarks section of the report.

10.2.11.4.2 Notice of Termination. When a Notice of Termination has been issued, potential termination liability costs will be entered in this column. They will be identified to the extent possible with the source of liability (prime or subcontract).

10.2.11.5 Column e. - Contract Work Authorized - Definitized. For the fiscal year(s) shown in Item 3, enter the estimated price for the authorized work on which contractual agreement has been reached, including profit/fee, incentive and cost sharing associated with projected over/underruns. Amounts for contract changes will not be included in this item unless they have been priced and incorporated in the contract through a supplemental agreement.

10.2.11.6 Column f. - Contract Work Authorized - Not Definitized. Enter the contractor's estimate of the funds requirements for performing required work (e.g., additional agreements or changes) for which firm contract prices have not yet been agreed to in writing by the parties to the contract. Report values only for items for which written orders have been received. For incentive type contracts, show total cost to the Government (recognizing contractor participation). Enter in the Remarks section a brief but complete explanation of the reason for the change in funds.

10.2.11.7 Column g. - Subtotal. Enter the total estimated price for all work authorized on the contract (Column e. plus Column f.).

10.2.11.8 Column h. - Forecast - Not Yet Authorized. Enter an estimate of funds requirements, including the estimated amount for fee or profit, for changes proposed by the Government or by the contractor, but not yet directed by the contracting officer. In the Remarks section state each change document number and estimated value of each change.

10.2.11.9 Column i. - Forecast - All Other Work. Enter an estimate of funds requirements for additional work anticipated to be performed (not included in a firm proposal) which the contractor, based on his knowledge and experience, expects to submit to the Government within a reasonable period of time.

10.2.11.10 Column j. - Subtotal. Enter an estimate of total requirements for forecast funding (the sum of Column h. plus Column i.). Specific guidelines on what the contractor may include in the funding forecast section may be made a part of the contract.

10.2.11.11 Column k. - Total Requirements. Enter an estimate of total funds requirements for contract work authorized and forecast (the sum of Column g. plus Column j.).

001536

10.2.11.12 Column l. - Funds Carryover. For incrementally funded contracts only, report the amount by which the prior federal fiscal year funding was in excess of the prior year's requirement. If there is no carryover, report zero. Specific instructions for the use of this item may be made a part of the contract.

10.2.11.13 Column m. - Net Funds Required. Enter an estimate of net funds required, subtracting funds carryover in Column l. from total requirements in Column k.

10.2.11.14 Column Totals. Totals should be provided for Columns c. through m. for all line items or NBS elements reported.

10.2.12 Item 12 - Contract Work Authorized (With Fee/Profit) - Actual Or Projected. Data entries will be as follows: In the first column, actuals cumulative to date; in all other columns except the last, projected cumulative amounts from the start of the contract to the end of the period indicated in the column heading; in the last column, the projected cumulative amounts from the start to the end of the contract or fiscal year being reported. When the contractor has developed a range of estimates at completion, the most likely estimate shall be used to develop the projected cumulative data in this item.

10.2.12.1 Column Headings. Columns 2 through 9 will be headed to indicate periods covering the life of the contract or fiscal year being reported and may be headed to show months, quarters, half years and/or fiscal years as prescribed by the procuring agency.

10.2.12.2 Data Composition. Projected data should include all planned obligations, anticipated accruals, anticipated over/under targets (total cost to the Government recognizing contractor participation), G&A, and fee/profit. For award fee contracts, the fee actually awarded will be included in Column 1, Actual to Date. The contractor shall describe in the Remarks section the amount, by period, and rationale for any award fee projections included in Columns 2 through 10.

10.2.12.3 Item 12.a. - Open Commitments. In the first column enter commitments open as of the date of the report. In subsequent columns enter the commitments projected to be open as of the end of each period indicated by the column headings. The amount entered will be the projected cumulative commitments less the planned cumulative expenditures as of the end of time period indicated. At the end of the contract, the amount will be zero.

10.2.12.4 Item 12.b. - Accrued Expenditures. In the first column enter actuals to date. In subsequent columns enter the projected cumulative accrued expenditures as of the end of each period indicated by the column headings.

10.2.12.5 Item 12.c. - Total (12.a. and 12.b.). In the columns provided, enter the total contract work authorized - actuals to date (Column 1) or projected (Columns 2 through 10). This total is the sum of open commitments and accrued expenditures projected through the periods indicated by the column headings. Significant changes in the amount or timephasing of this item shall be explained in the Remarks section.

10.2.13 Item 13 - Forecast Of Billings To The Government. In the first column enter the cumulative amount received from the Government plus any unpaid billings to the Government through the current report date, including amounts applicable to progress or advance payments. In succeeding columns enter the amount expected to be billed to the Government during each period reported (assuming the contract will continue to completion). Amounts will not be cumulative.

10.2.14 Item 14 - Estimated Termination Costs. In the columns provided, enter the estimated costs that would be necessary to liquidate all government

001537

obligations if the contract were to be terminated in that period. These entries are the amounts required in addition to the amounts shown in Item 12. Applicable fee/profit should be included. These entries may consist of "rough order of magnitude" estimates and will not be construed as providing formal notification having contractual significance. This estimate will be used to assist the Government in budgeting for the potential incurrence of such cost. On contracts with Limitation of Funds/Obligation clauses, where termination costs are included as part of the funding information in Block 11, enter the amounts required for termination reserve on this line.

**10.3 Remarks Section.**

**10.3.1 General.** This section shall contain any additional information or remarks which support or explain data submitted in this report. At a minimum, the contractor shall present the following information: (a) explanations of funds changes (refer to paragraphs 10.2.11.6, 10.2.11.8 and 10.3.2); (b) procedures used to develop estimates of open commitments and accrued expenditures (refer to paragraph 10.2.11.4.1); (c) the amount and rationale for any award fee projections included in Item 12 (refer to paragraph 10.2.12.2); (d) explanations of significant changes in the amount or timephasing of actual or projected total contract work authorized (refer to paragraph 10.2.12.5); and (e) any other information deemed significant or noteworthy. The contractor also shall provide a projected contract completion date that supports the funding projections in Item 12.

**10.3.2 Changes.** The Remarks section shall contain information regarding changes, as indicated below. A change in a line item shall be reported when the dollar amount reported in Item 11, Column k. of this submission differs from that reported in the preceding submission. The movement of dollar amounts from one column to another (Item 11, Columns e. through j.), indicating a change in the firmness of funds requirements, need not be reported in this section. Change reporting shall include the following:

- 10.3.2.1 The location of the changed entry (page, line, and column);
- 10.3.2.2 The dollar amount of the change; and
- 10.3.2.3 A narrative explanation of the cause of each change.

**JLENS**  
**SOFTWARE SOURCE CODE SPECIFICALLY NEGOTIATED LICENSE**  
**Per DFARS Clause 252.227-7014(b)(4)**  
**LICENSE NUMBER JLENS-SWLA-01**

This Specifically Negotiated License Agreement ("License") is entered into as of the 4<sup>th</sup> day of September, 2008 (the "Effective Date"), by and between Raytheon Company (including its subsidiary Raytheon [REDACTED], a corporation organized and existing under the laws of the State of Delaware, [REDACTED] (hereinafter referred to as "Raytheon"), [REDACTED] a Limited Liability Partnership having offices at [REDACTED] hereinafter collectively referred to as "Licensors" and the Program Executive Office, Missiles and Space (PEO MS), hereinafter collectively referred to as "Licensee", represented by the Space and Missile Defense (SMDC) Contracting Officer.

(b)(3)(A)  
(i)&Title 10  
Sec 130 (a)(b)

1. Definitions.

- (a) "Licensed Field" means the United States Government Joint Land Attack Cruise Missile Defense Elevated Netted Sensor (JLENS) System Design and Demonstration DASG60-98-C-0001 ("JLENS Contract") and any follow-on JLENS contracts, unless otherwise agreed upon.
- (b) "Licensed Source Code" is hereafter defined as source code written in programming languages in a form intelligible to trained programmers and capable of being translated into object code or executable code for operation on computer equipment through compiling or assembly and that is delivered or otherwise provided under CDRL B023 of the JLENS SDD contract (DASG60-98-C-0001) and that are subject to Restricted Rights in the JLENS SDD contract, (Restricted Rights Software). It also includes any Licensed Source Code documentation (to which the Government does not already have license rights) to be supplied with the Licensed Source Code and that are subject to Restricted Rights in the JLENS Contract, (Restricted Rights Software Documentation).
- (c) "Proprietary Information" means information which is confidential or proprietary to or trade secrets of the Licensors and which the Licensors wish to protect from public disclosure. Proprietary Information includes, without limitation, all information disclosed at any time before, after, or at the time of execution of this License by the Licensors relating to the Restricted Rights Software and / or Restricted Rights Software Documentation (including without limitation any specifications, designs, techniques or processes used in creating the Restricted Rights Software); and any other confidential information or trade secrets which have been or shall be disclosed between the parties relating to the Licensors' products, marketing and sales plans, financial status, product development plans, strategies and the like.

2. License of Software; Scope of Licenses.

(a) In addition to the Government's Restricted Rights in Licensed Source Code developed exclusively at private expense and required to be delivered or otherwise furnished under the JLENS SDD contract and Unlimited Rights in computer software documentation required to be delivered under the JLENS Contract, the Licensors hereby grant to Licensee (PEO MS) a non-exclusive, non-transferable, worldwide, paid-up non-royalty bearing License in the Licensed Field to use Licensed Source Code for the purposes of Independent Verification and Validation (IV&V) and other systems analysis purposes as defined in this License for the JLENS Contract; only and for no other purpose during the time that this License remains in effect subject to the terms and conditions of this Agreement.

(b) Raytheon Licensed Source Code will be provided directly to Licensee by Raytheon. Raytheon [REDACTED] Licensed Source Code will be provided directly to Licensee without transmittal through Raytheon. (b)(3)(A)  
(i)&Title 10  
Sec 130 (a)(b)

(c) The Licensee is entitled, upon entering into this Licensing Agreement, to utilize the Licensor's Licensed Source Code (and associated Restricted Rights Source Code Documentation) provided under this License solely for the following purposes:

- 1) Examination of Licensed Source Code as required to perform JLENS SDD Software IV&V.
- 2) Examination of Licensed Source Code as required to perform JLENS SDD system analysis and performance assessment.
- 3) Examination of Licensed Source Code as required to verify implementation of JLENS SDD system requirements.
- 4) Examination of Licensed Source Code as required to assess JLENS SDD algorithms.
- 5) Development of independent models and simulations of JLENS software; the independent models and simulations will support an independent government assessment.
- 6) Examination of Licensed Source Code as required to verify implementation of JLENS SDD safety critical software.
- 7) Examination of Licensed Source Code as required to verify compliance with design documentation and coding standards for the JLENS SDD system including, but not limited to, processor throughput and memory consumption/loading under high data bandwidth conditions and computer communications infrastructure limitations under loaded conditions.

001547

- 8) Instrumentation of the Licensed Source Code for the purpose of collecting data during tests of the JLENS system.
- 9) Analysis of Licensed Source Code when stressed under conditions predicted when the JLENS SDD configuration is netted into air defense architectures.

(d) The Licensee, upon entering into this Licensing Agreement and in exchange for the entitlements above, agrees to the following obligations:

- 1) The Licensee may not use or distribute this Licensed Source Code in any form (including reverse engineered design artifacts and/or design documentation) to other government or commercial programs for the purposes of the development of other government or commercial programs.
- 2) The Licensee may distribute the Licensed Source Code only to personnel assigned to or under obligation of confidentiality to the JLENS Product Office, including contractor personnel (in accordance with the requirements of Para (e) below), with a "need to know" to perform their tasks on the JLENS SDD System. The Licensee may not grant rights to the Licensed Source Code that are broader than those provided by this License. For example, the Licensee may not distribute the Licensed Source Code under terms that would permit other government or commercial use.
- 3) The Licensee may not remove or obscure any copyright, restricted right, proprietary right, limited right, or other restrictive markings from the Licensed Source Code, except as specified in DFARS clauses 252.227-7013(h) and 252.227-7014(h).
- 4) The Licensee may not use the Licensed Source Code to derive engineering / design artifacts for the purposes of re-engineering code (reverse engineering).
- 5) The Licensee must include a verbatim copy of this License with all distributions to JLENS program personnel.
- 6) The Licensee can only use Licensed Source Code to aid the development of any software programs that are designed to be used by, or in conjunction with JLENS in accordance with requirements of Para 2(c) above.
- 7) Other than modifications that the Licensee may need to make to the Licensed Source Code to support the Independent Verification and Validation (IV&V) and other systems analysis as contemplated by the License, the Licensee may only modify the Licensed Source Code or

001548

create derivative works therefrom after requesting and receiving consent in writing from the Licensor. If such consent is granted, the Licensee will cause the modified files to carry prominent notices describing the Licensee changes and the date of such changes and the Licensee modified Licensed Source Code will not be used during any test conducted by the Licensors, or during any field system test activity supported by Raytheon leading to JLENS orbit acceptance.

- 8) The Licensee shall not make, have made, or permit Government employees or third parties, to make any copies or verbal or media translations of the Licensed Source Code, in whole or in part, for any reason other than as provided in this License. Licensee shall not use, disclose, sell, transfer or copy the Licensed Source Code or any portion thereof, other than as expressly permitted in this License.
- (e) During the term of this License, the Licensee shall not release or disclose the Licensed Source Code to any other non-Government Party unless:
- 1) The third party recipient is a Licensee contractor receiving access to the Licensed Source Code for performance of a Licensee contract that contains the DFARS clause 252.227-7025, Limitations on the Use or Disclosure of Government Furnished Information Marked with Restrictive Legends in effect as of the Effective Date of this Agreement; or
  - 2) Prior to release or disclosure of the Licensed Source Code to a third party recipient pursuant to the terms of this Agreement, the Licensee shall require the intended third party recipient to execute a use and non-disclosure agreement as specified in DFAR 227.7103-7 in effect as of the Effective Date of this Agreement. This non-disclosure agreement shall be directly between the third party and whichever of the Licensor's parties has proprietary rights to the Licensed Source Code in question.
  - 3) The Licensee shall, within five (5) business days, provide written notice to the Licensors of the names of any third parties to whom the Licensed Source Code is released or disclosed pursuant to (i) or (ii) above.
- (f) All Licensed Source Code rights under this agreement shall expire after contract completion, at which time the Licensee must either return all copies of the Licensed Source Code to Licensors or certify to Licensors that all copies including modifications made thereto by Licensee of the Licensed Source Code have been destroyed, unless otherwise agreed upon. The Licensee shall not make, have made, or permit its employees or third parties to make any copies or verbal or media translations of the Licensed Source Code, in whole or in part, for any reason other than as provided in this License. The Licensee shall not use,

001549

) disclose, sell, transfer or copy the Licensed Source code or any portion thereof, other than as expressly permitted in this License.

(g) To the extent that the Licensee does not have greater license rights, the Licensee is granted the right to utilize the Licensed Source Code Documentation in connection with its use of the Licensed Source Code. The Licensee may make additional copies of the Licensed Source Code Documentation for the purpose of supporting Licensee's use of the Licensed Source Code under this License Agreement.

(h) Nothing in this License abrogates any of the protections afforded to the Government or Licensors under DFARS 252.227-7014.

(i) All rights not explicitly listed in this agreement are reserved to the Licensors.

### 3 Fees.

The Licensors hereby waive the normally intended License Fee for use of the Licensed Source Code. This License is granted free of charge to the Licensee for the purposes stated herein.

### 4. Proprietary Information.

) The Parties acknowledge that, in the course of performing their respective obligations hereunder, it will be necessary for the Licensors to disclose to Licensee Proprietary Information including, but not limited to, the Licensed Source Code including appropriate Licensed Source Code Documentation. Licensee shall hold such Proprietary Information in confidence and not make any use of the Proprietary Information nor disclose it or permit it to be disclosed to its employees, representatives, subcontractors or any other third party except as permitted by this License. Nothing in this License shall be interpreted as placing any obligation of confidence and non-use on Licensee with respect to any Proprietary Information that can be demonstrated to have been in the public domain as of the Effective Date or comes into the public domain during the term of this License through no fault of Licensee; or can be demonstrated to have been independently developed or development was funded in whole or in part by Licensee; or is rightfully received by Licensee from a third party not under an obligation of confidence.

### 5. Default and Termination.

(a) Upon the occurrence of any of the following events, a Party (the "Defaulting Party") shall be in default under this License:

- 1) The Defaulting Party commits a material breach in the performance of any obligations or covenants under this Agreement and does not cure such

)  
001550

breach within sixty (60) days after the date of written notice from the non-Defaulting Party.

- 2) Any representation or warranty made by the Defaulting Party hereunder is breached and remains uncured for sixty (60) days after the date of written notice from the non-Defaulting Party.
- 3) The Licensee is in violation of its obligations regarding the use and/or disclosure of the Licensed Source Code.

(b) If any default occurs and is not cured within any applicable period specified above, the non-Defaulting Party may employ any remedy then available to it under Federal law.

(c) In the event of termination of this Agreement as a result of default by the Licensee or automatic termination on conclusion of the JLENS Contract, all rights and Licenses granted hereunder by the Licensors shall cease and be terminated immediately as of the effective date of the termination and Licensee shall immediately cease all further use of Proprietary Information.

6. Assignment.

Except as specifically allowed in this Agreement, Licensee shall not assign this Agreement, or any of the rights granted to Licensee pursuant to this Agreement, and this Agreement and such rights shall not pass to any other person or entity by operation of law or otherwise. Any purported transfer of this Agreement by Licensee shall be void and have no force and effect, shall be a default under this Agreement, and shall void all rights granted to the Licensee hereunder. The Licensors, with prior approval of Licensee, which will not be unreasonably withheld, may assign this agreement to a successor to all or substantially all of the business of the Licensors to which this Agreement relates.

7. Effectiveness of License.

This License shall be effective (04 Sep 08) on the date the last of the following conditions have been satisfied: this License has been completed and executed by duly authorized representatives of the Licensors and Licensee.

8. Notices.

All notices and other communications pertaining to this Agreement shall be in writing and shall be deemed to have been given if: (i) personally delivered to the other party; or (ii) sent by the United States Postal Service certified mail, return receipt requested, postage prepaid or by Federal Express, United Parcel Service or other nationally recognized overnight carrier, and shall be deemed to have been given and received on the date so received by the Party to which said communication is so directed. A receipt

001551

evidencing delivery of certified or registered mail shall constitute evidence of receipt. All notices or communications between the parties shall be sent to the addresses as set forth below. Any Party may change its notification address by giving written notice to that effect to the other Party in the manner provided herein. Any notice requiring prompt action shall be contemporaneously sent by facsimile transmission or electronic mail.

9. Severability.

If any portion of this Agreement is held invalid, such invalidity shall not affect the validity of the remaining portions of the Agreement, and the parties will substitute for any such invalid portion hereof a provision which best approximates the effect and intent of the invalid provision.

10. Waiver.

Any waiver by either Party of a breach of any provision of this Agreement shall not operate as or be construed to be a waiver of any other breach of such provision or of any breach of any other provision of this Agreement. The failure of a Party to insist upon strict adherence to any term of this Agreement on one or more occasions shall neither be considered a waiver nor deprive that Party of any right thereafter to insist upon strict adherence to that term or any other term of this Agreement. Any waiver must be in writing and signed by the Party to be charged therewith.

11. Entire Agreement.

This Agreement, together with Contract DASG60-98-C-0001, are intended as the complete and exclusive statement of the agreement between Licensee and the Licensors with respect to the subject matter hereof, and supersede all prior agreements and negotiations related thereto.

12. Construction and Jurisdiction.

This License shall be governed by and construed in accordance with applicable federal laws and regulations of the United States of America.

13. Counterparts.

Provided that all Parties hereto execute a copy of this Agreement, this License may be executed in counterparts, each of which shall be deemed an original and all of which together shall constitute one and the same instrument. Executed copies of this License may be delivered by facsimile transmission or other comparable means.

001552

14. Force Majeure.

The Parties shall not be required to perform any term, condition, or obligation in this License so long as such performance is delayed or prevented by force majeure, which shall include, but not be limited to, acts of God, acts of a foreign government, war, riot, fires, epidemics or other similar causes beyond a Party's reasonable control.

IN WITNESS WHEREOF, the Parties have caused this Agreement to be executed in duplicate originals by their duly authorized representatives.

**SUMMARY OF CHANGES**

1. SECTION A - SOLICITATION/CONTRACT FORM

The total cost of this contract was increased by \$323,567.00 from \$1,661,693,671.00 to \$1,662,017,238.00.

The following have been added by full text:

PURPOSE

SUBCLIN 0017AA is hereby modified to provide funding in the not-to-exceed (NTE) amount of \$323,567 to continue with the [REDACTED]. The results of the trade study are due December 31, 2009. Total cost of the study shall not exceed a total amount of \$323,567.

(b)(3)(A)  
(i)&Title 10  
Sec 130 (a)(b)

The trade study shall address the following areas:

**Statement of Objectives:**

In FY08, the [REDACTED]

[REDACTED] The effort assessed both technical feasibility and provided suggested operational concepts that would be consistent and complementary (minimally disruptive) with already planned JLENS operational constructs. The Army JLENS study assessed:

- 1) For the [REDACTED]
  - a. [REDACTED]
  - b. [REDACTED]
  - c. [REDACTED]

(b)(3)(A)

  - a. [REDACTED]

(b)(3)(A)  
(i)&Title 10 Sec  
130 (a)(b)

- 3) The study recommended key next steps for additional data collect and demonstrations.

**Taskings:**

1. Execute a tech development and demonstration project to demonstrate the [REDACTED] identified in referenced studies. The effort will initially focus on recording stimulant release and other applicable field data, and then re-process the data to [REDACTED]. Up to 3 data collection events will be planned during the 12 month period at [REDACTED] or other locations as may provide sufficient data to compare to analytic work previously conducted.

(b)(3)(A)  
(i)&Title 10  
Sec 130 (a)(b)

2. Create a demonstration plan to cover the sequence of planned activities from FY09 through FY11 that could be overlaid on already planned JLENS development activities with minimal or no disruption, yet would yield some initial data collections and demonstrated capability in support of the [REDACTED]

3. If applicable and results warrant, support a demonstration approach to the JLENS sensor to allow processing of real time sensor data to in support of [REDACTED]

Fire Control Radar Study (9 Man Month Study)

- Continue study from 2008. Study performance of the sensor given different agent volumes (height extent of the cloud) (do not assume agent volume fills the radar beam)
- Continue waveform design to improve detection performance
- Continue signal processing filter design and detection algorithms
  - o Better antenna model
  - o Model oscillator noise and impact on clutter
- Study should include performance in current JLENS missions and performance in a [redacted] only (continuously searching a region and monitoring changes over time)

(b)(3)(A)  
(i)&Title

Surveillance Radar Study (3 Man Month Study)

- Perform initial study to determine if the Surveillance Radar provides additional capability [redacted]

(a)(b)

Test/Demonstration Planning (5 Man Month Study)

- Planning for a demonstration with JLENS (possible [redacted] or other location where JLENS will be available) to include the following:
  - o Coordinate activities with current JLENS activities
  - o Design possible scenarios
  - o Study impact to current software (special SW builds?)
  - o Data collection
  - o Post mission analysis
  - o Estimate costs for such an event

- (3) The minimum fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED] an amount equal to [REDACTED]
- (4) Fee will be adjusted for actual cost that is less than or more than the target cost stated above using a share ratio of [REDACTED] Government / [REDACTED] contractor for actual costs less than the target cost, and a ratio of [REDACTED] Government / [REDACTED] contractor for actual costs greater than the target cost range applied according to Paragraph H-19(c)(1).
- (5) Nothing stated in this clause shall take precedence over the clause 52.216-10 - Incentive Fee contained in this contract.

(b)(4)

c. Schedule Incentive.

(1) A maximum [REDACTED] "flat zone" will be established at the target cost value of [REDACTED] with the conduct of milestones below. The "flat zone" over which the contractor will earn target fee is for eligible costs from [REDACTED] [REDACTED] since the program milestones set forth below are conducted.

(b)(4)

(a) [REDACTED] of the maximum benefit of the "flat zone", earned by the conduct of the SDD System Functional Review NLT 2nd Quarter, Fiscal Year 2007. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned the "Flat Zone" schedule incentive of [REDACTED] Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the conclusion of the contract. Reference letter, dated 5 March 2007 from [REDACTED]

(b)(4)

(b)(6)

001727

(b) [redacted] of the maximum benefit of the "flat zone", earned by the conduct of SDD Orbit Critical Design Review NLT 2nd Quarter, Fiscal Year 2009. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned the "Flat Zone" schedule incentive of [redacted] Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the conclusion of the contract. Reference letter, dated 12 January 2009, from [redacted] (b)(4)  
(b)(4)  
(b)(6)

(2) An additional schedule incentive fee pool of [redacted] (maximum) is established and will be awarded to the contractor for conducting Test Readiness Review to allow for the Limited User Test Effort according to the schedule below: (b)(4)

(a) [redacted] of the schedule fee pool, an amount of [redacted] will be awarded to the contractor if the contractor conducts the Test Readiness Review for the Limited User Test NLT 31 March 2011. (b)(4)

(b) [redacted] of the schedule fee pool, an amount of [redacted] will be awarded to the contractor if the contractor conducts the Test Readiness Review for the Limited User Test NLT 28 February 2011. (b)(4)

(c) [redacted] of the schedule fee pool, an amount of [redacted] will be awarded to the contractor if the contractor conducts the Test Readiness Review for the Limited User Test NLT 31 January 2011. (b)(4)

(d) [redacted] of the schedule fee pool, an amount of [redacted] will be awarded to the contractor if the contractor conducts the Test Readiness Review for the Limited User Test NLT 31 December 2010. (b)(4)

(e) If the contractor conducts the Test Readiness Review for the Limited User Test on or after 01 April 2011, the contractor is not entitled to any of the schedule fee incentive pool.

(f) If the contractor achieves an early milestone as listed in (a) through (d), the contractor shall submit a letter to the government Contracting Officer notifying him/her of the completion of the milestone and the claim for the incentive fee.

(3) For Earned Value and cost reporting purposes, the target cost value of [redacted] will be used. (b)(4)

(4) If schedule incentive fee listed above is earned, the additional contract value will be added to the total value of this contract at the time the incentive is earned.

d. Changes issued under FAR 52.243-2, Changes - Cost Reimbursement

In the event of a change issued under FAR 52.243-2, Changes - Cost Reimbursement, it is agreed that changes to the performance and schedule incentive may be considered a part of the equitable adjustment. In the event that any Options to CLIN 0017 are added and exercised, the incentive fee for cost and schedule/performance applicable to the Option will be incorporated in accordance with the incentive fee structure of this provision.

SUMMARY OF CHANGES

1. SECTION A - SOLICITATION/CONTRACT FORM

The total cost of this contract was decreased by \$465,784.00 from \$1,811,943,450.00 to \$1,811,477,666.00. (NOTE: This decrease is due to an underrun experienced on CLIN 0026.)

2. SECTION B - SUPPLIES OR SERVICES AND PRICES

CLIN 0026

The target cost has decreased by [REDACTED] from [REDACTED] to [REDACTED]  
 The target profit/fee has increased by [REDACTED] from [REDACTED] to [REDACTED]  
 The total cost of this line item has decreased by \$465,784.00 from \$1,095,845.00 to \$630,061.00.

(b)(4)

3. SECTION G - CONTRACT ADMINISTRATION DATA

IMPLEMENTATION OF AND EXPLANATION OF THE RELATIONSHIP OF THE LIMITATION OF FUNDS (LOF) CLAUSE TO FEE OBLIGATIONS, is revised as follows:

CLIN 0026 :

	<u>PRIOR</u>	<u>THIS MODIFICATION</u>	<u>CUMULATIVE TOTAL</u>
(1) Amount Required for Full Funding, Including Fee:	\$1,095,845	(\$465,784)	\$630,061
(2) Amount Allotted Under the LOF Clause for Payment of Costs:	[REDACTED]	[REDACTED]	[REDACTED]
(3) Amount Separately Obligated for Payment of Fee:	[REDACTED]	[REDACTED]	[REDACTED]
(4) Total Amount Allotted and Obligated:	\$ 630,061	\$ 0	\$630,061
(5) Net Amount Required for Full Funding	\$ 465,784	(\$465,784)	\$ 0

(b)(4)

\*Allotted funds in the amount of \$30,034 have been transferred from cost to fee to account for the underrun experienced on CLIN 0026. In accordance with the contract incentive fee clause for CLIN 0026, the share ratio for an underrun is [REDACTED], therefore, the contractor earned [REDACTED] of the amount by which the total allowable cost was less than the target cost until the established maximum fee of \$ [REDACTED] was reached.

d. If there is no response within 30 days, the Contractor shall resubmit the request to:

U.S. Army Space and Missile Defense Command  
ATTN: SMDC-PA  
P. O. Box 1500  
Huntsville, AL 35807-3801

001872

e. The Contractor agrees to include a similar requirement in each subcontract under this contract. Subcontractors shall submit requests for authorization to release through the prime contractor.

TECHNICAL COGNIZANCE AND TECHNICAL DIRECTION:

a. The U.S. Army Space and Missile Defense Command is the cognizant Government technical organization for this contract and will provide technical direction as defined herein. Technical direction shall be exercised by the following Project Engineer:

<u>Name</u>	<u>Office symbol</u>	<u>Phone Number</u>
[REDACTED]	SFAE-MSLS-CMDS-JLN	[REDACTED]

(b)(6)

b. Technical direction, as defined in this clause is the process by which the progress of the contractor's technical efforts are reviewed and evaluated and guidance for the continuation of the effort is provided by the Government. It also includes technical discussions and, to the extent required and specified elsewhere in this contract, defining interfaces between contractors; approving test plans; approving preliminary and critical design reviews; participating in meetings; providing technical and management information; and responding to request for research and development planning data on all matters pertaining to this contract. The contractor agrees to accept technical direction only in the form and procedure set forth herein below.

c. Except for routine discussions having no impact on contractor performance, any and all technical direction described in paragraph b. above shall only be authorized and binding on the contractor when issued in writing and signed by a Government official designated in a. above. The Technical Direction shall not effect or result in a change within the meaning of the "CHANGES" clause, or any other change in the Scope of Work, price, schedule, or the level of effort required by the contract. Such changes must be executed by the Contracting Officer as a Modification-Change Order, or as a Modification-Supplemental Agreement, as appropriate. It is emphasized that such changes are outside the authority of the Government officials designated in a. above who are not authorized to issue any directions which authorize the contractor to exceed or perform less than the contract requirements. Notwithstanding any provision to the contrary in any Technical Directive, the estimated cost of this contract, and, if this contract is incrementally funded, the amount of funds allotted, shall not be increased or deemed to be increased by issuance thereof.

**INVOICING INSTRUCTIONS**

a. The contractor shall submit payment request electronically in accordance with DFARS 252.232-7003 utilizing Wide Area Work Flow (WAWF). The WAWF application allows DOD vendors to submit and track invoices and receipt/acceptance documents electronically. The contractor shall register with WAWF at <https://wawf.eb.mil> and ensure an electronic business point of contract (POC) is designated in the Central Contractor Registration site at <http://www.ccr.gov> within ten (10) days after award of this contract. Payments made under this contract shall be via Electronic Funds Transfer (EFT) and shall be based on the EFT information contained in the Central Contractor Registration (CCR) database. The contractor shall ensure that its EFT information in the CCR database remains current and correct.

b. Multiple pricing structures may be utilized for this contract or, if a task ordering contract, for individual task orders issued thereunder. In order to ensure the successful flow of WAWF documents, the type of payment request submitted shall be based on the following as applicable:

\_\_\_\_\_ **Invoice and Receiving Report (COMBO):** applicable to Firm-Fixed-Price (FFP) contracts/task orders that include the delivery of supplies/hardware.

\_\_\_\_\_ **Invoice as 2-in-1:** applicable to Labor Hour and FFP contracts/task orders for services only.

\_\_\_\_\_ **Cost Voucher:** applicable to Time and Material (T&M) and Cost-Reimbursement type contracts/task orders.

\_\_\_\_\_ **Construction Invoice:** applicable to contracts/task orders for construction.

c. WAWF requires the following data for each payment request:

Contracting Specialist/Contracting Officer [REDACTED]  
Contracting Officer's Technical Representative (COTR) [REDACTED]

(b)(6)

d. Questions concerning payments shall be directed to the Defense Finance and Accounting Service (DFAS). The appropriate DFAS office is indentified in the "PAYMENT WILL BE MADE BY" block on the contract award coversheet. Please have your contract and, if applicable, task order number ready when calling about payments. Payment and receipt information may be accessed using the DFAS web site MyInvoice. MyInvoice is a web-based application developed specifically for contractors/vendors and Government/ Military employees to obtain invoice status. It is an interactive web-based system, accessible 24/7. Users must allow pop-up messages within this system. Your contract and, if applicable, task order number or invoice number will be required to inquire about the status of your payment. For additional information, see the MyInvoice website at <https://myinvoice.csd.disa.mil/> or visit <http://www.dfas.mil/contractorpav/electroniccommerce/myinvoice.html>.

e. The contractor may submit requests for payment through WAWF not more frequently than monthly (or bi-weekly if a small business).

f. For Labor Hour and T&M contracts/task orders, payment requests for labor shall be based on the total labor hours/DPPH expended thereunder for the applicable billing period. These labor charges shall be derived by applying the total hours expended for each labor category multiplied by the applicable fixed-labor rates specified in the contract/task order. Labor charges for cost-reimbursement contracts/task orders shall be based on the total hours expended for each labor category multiplied by actual direct labor rates plus applicable indirect burdens and fee. Travel and ODC/material under T&M and Cost-Reimbursement type contracts/task orders shall be billed at actual costs. For each payment request, the contractor shall attach/upload into WAWF sufficient documentation as to how the billed amounts were derived/calculated.

g. For Firm-Fixed-Price contracts/task orders, payments on the total contract price (excluding any unexercised options) may be requested in equal monthly (or bi-weekly if a small business) amounts calculated over the life of the contract/task order unless alternative payment schedules (e.g., performance-based payments) are specified elsewhere in the contract, or if applicable, in individual task orders.

h. For each payment request, the contractor shall maintain sufficient documentation to substantiate the submitted charges. Such documentation shall include evidence of actual expenditures/payment such as individual daily job timecards, subcontractor/vendor invoices and payment receipts, or other substantiation specified by the Contracting Officer. Such data shall be maintained and readily available for audit purposes, but shall not be included with the WAWF submission. The contractor shall provide such documentation within 7 days of request by the Procuring Contracting Officer, Administrative Contracting Officer, or DCAA auditor.

i. The contractor shall ensure that each payment request submitted in WAWF denotes that the Contracting Officer and Contract Specialist will receive a copy of the payment request notice.

001880

j. Except for FFP contracts/task orders, the contractor and each assignee under an assignment entered into under this contract or, if applicable, an individual task order and in effect at the time of final payment on this contract or, if applicable, an individual task order issued under this contract, shall execute and deliver, at the time of and as a condition precedent to, any final payment thereunder, a release discharging the Government, its officers, agents, and employees, of and from all liabilities, obligations, and claims arising out of, or under, the specific contract/task order. These closing documents shall be submitted with the final payment request.

k. The contractor shall submit final payment requests for Labor Hour and FFP contracts/task orders within 120 days (or longer if approved in writing by the Contracting Officer) after contract/order completion. For T&M or Cost-Reimbursement type contracts/task orders, the contractor shall prepare a final payment request within 120 days (or longer if approved in writing by the Contracting Officer) after settlement of the final annual indirect cost rates to reflect the settled amounts and rates for the performance period covered. The cognizant DCAA shall perform a final audit on the contractor's final payment request to determine allowable costs. The Administrative Contracting Officer may utilize the cumulative allowable worksheets included with the DCAA incurred cost audit reports in lieu of requesting DCAA to perform the final closeout audit to determine the final costs on the cost reimbursable portions of the contract/task order.

4. SECTION H – SPECIAL CONTRACT REQUIREMENTS is changed as follows:

Paragraph H-19, INCENTIVE FEE STRUCTURE AND PAYMENT FOR CLIN 0017. SYSTEM DEVELOPMENT AND DEMONSTRATION (SDD), subparagraphs a. and b., are revised as follows:

a. General.

SubCLIN 0017AA, System Development and Demonstration (SDD), is a cost-plus-incentive-fee (CPIF) Line Item with cost and schedule incentives as described below. Paragraph H-19(b) applies only to the Cost Incentive and Paragraph H-19(c) applies only to the Schedule Incentive. The contract price amount of \$1,576,866,060 includes a target cost of [REDACTED] which includes [REDACTED] of cost and [REDACTED] of facilities capital cost of money) and a target incentive fee of [REDACTED] which is [REDACTED] of target cost less facilities capital cost of money.

(b)(4)

b. Cost Incentive.

(1) The target fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED] amount equal to [REDACTED]

(2) The maximum fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED] amount equal to [REDACTED]

(3) The minimum fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED] amount equal to [REDACTED]

(b)(4)

(4) Fee will be adjusted for actual cost that is less than or more than the target cost stated above using a share ratio of [REDACTED] Government / [REDACTED] Contractor for actual costs less than the target cost, and a ratio of [REDACTED] Government / [REDACTED] Contractor for actual costs greater than the target cost range applied according to Paragraph H-19(c)(1).

(b)(4)

(5) Nothing stated in this clause shall take precedence over the clause 52.216-10 - Incentive Fee contained in this contract.

c. Schedule and Performance Incentive.

(b)(4)

(1) A maximum [REDACTED] "flat zone" will be established at the target cost value of [REDACTED] with the conduct of milestones below. The "flat zone" over which the contractor will earn target fee is for eligible costs from [REDACTED] to [REDACTED] since the program milestones set forth below are conducted.

(b)(4)

(a) [REDACTED] of the maximum benefit of the "flat zone", earned by the conduct of the SDD System Functional Review NLT 2nd Quarter, Fiscal Year 2007. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned the "Flat Zone" schedule incentive of [REDACTED] Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the [REDACTED]

(b)(4)

(b)(4)

conclusion of the contract. Reference letter, dated 5 March 2007 from [REDACTED] (b)(6)

(b) [REDACTED] of the maximum benefit of the "flat zone", earned by the conduct of SDD Orbit Critical Design review NLT 2nd Quarter, Fiscal Year 2009. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned the "Flat Zone" schedule incentive of [REDACTED] Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the conclusion of the contract. Reference letter, dated 12 January 2009, from [REDACTED] (b)(4) (b)(6)

(2) An additional performance incentive fee pool of \$ [REDACTED] maximum) is established and will be awarded to the contractor for meeting performance incentives associated with System Capability Reviews (SCRs) and the Developmental Test (DT)/Limited User Test (LUT) according to the schedule below: (b)(4)

(a) [REDACTED] (maximum) earned based on successful conduct of technical performance defined by SCR-1. (b)(4)

(b) [REDACTED] (maximum) earned based on successful conduct of technical performance defined by SCR-2. (b)(4)

(c) [REDACTED] (maximum) earned based on successful conduct of technical performance defined by SCR-3. (b)(4)

(d) [REDACTED] (maximum) earned based on successful conduct of technical performance defined by LUT. (b)(4)

(e) The specific criteria/evidence and associated percentages related to successful completion of (a) through (d) above are defined in the Section J attachment entitled "Performance Incentive Fee Criteria/Evidence."

(f) Following completion of each milestone in (a) through (d) above, the government will determine the amount of performance incentive fee earned. If it is determined that performance incentive fee is earned, the additional contract value will be added to the total value of the contract at the time the incentive is earned.

(3) For Earned Value and cost reporting purposes, the target cost value of [REDACTED] be used. (b)(4)

d. Changes issued under FAR 52.243-2, Changes - Cost Reimbursement

In the event of a change issued under FAR 52.243-2, Changes - Cost Reimbursement, it is agreed that changes to the performance and schedule incentive may be considered a part of the equitable adjustment. In the event that any Options to CLIN 0017 are added and exercised, the incentive fee for cost and schedule/performance applicable to the Option will be incorporated in accordance with the incentive fee structure of this provision.

Paragraph H-19, INCENTIVE FEE STRUCTURE AND PAYMENT FOR CLIN 0017, SYSTEM DEVELOPMENT AND DEMONSTRATION (SDD), subparagraphs a. and b., are revised as follows:

a. General.

SubCLIN 0017AA, System Development and Demonstration (SDD), is a cost-plus-incentive-fee (CPIF) Line Item with cost and schedule incentives as described below. Paragraph H-19(b) applies only to the Cost Incentive and Paragraph H-19(c) applies only to the Schedule Incentive. The contract price amount of \$1,575,874,550 includes a target cost of [REDACTED] (which includes \$[REDACTED] of cost and \$[REDACTED] facilities capital cost of money) and a target incentive fee of \$[REDACTED] which is [REDACTED] of target cost less facilities capital cost of money.

(b)(4)  
(b)(4)

b. Cost Incentive.

(1) The target fee payable under SubCLIN 0017AA is [REDACTED] the target cost less facilities capital cost of money [REDACTED] an amount equal to [REDACTED]

(b)(4)  
(b)(4)

(2) The maximum fee payable under SubCLIN 0017AA is [REDACTED] the target cost less facilities capital cost of money [REDACTED] amount equal to [REDACTED]

(b)(4)  
(b)(4)

(3) The minimum fee payable under SubCLIN 0017AA is [REDACTED] the target cost less facilities capital cost of money [REDACTED] an amount equal to [REDACTED]

(b)(4)  
(b)(4)

(4) Fee will be adjusted for actual cost that is less than or more than the target cost stated above using a share ratio of [REDACTED] government / [REDACTED] contractor for actual costs less than the target cost, and a ratio of [REDACTED] government / [REDACTED] contractor for actual costs greater than the target cost range applied according to Paragraph H-19(c)(1).

(b)(4)

(5) Nothing stated in this clause shall take precedence over the clause 52.216-10 - Incentive Fee contained in this contract.

(b)(4)

c. Schedule and Performance Incentive.

(1) A maximum [REDACTED] "flat zone" will be established at the target cost value of [REDACTED] with the conduct of milestones below. The "flat zone" over which the contractor will earn target fee is for eligible costs from [REDACTED] to \$ [REDACTED] once the program milestones set forth below are conducted.

(b)(4)  
(b)(4)

(a) [REDACTED] of the maximum benefit of the "flat zone", earned by the conduct of the SDD System Functional Review NLT 2nd Quarter, Fiscal Year 2007. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned the "Flat Zone" schedule incentive of [REDACTED] Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the conclusion of the contract. Reference letter, dated 5 March 2007 from [REDACTED]

(b)(6)

(b) [REDACTED] of the maximum benefit of the "flat zone", earned by the conduct of SDD Orbit Critical Design review NLT 2nd Quarter, Fiscal Year 2009. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned the "Flat Zone" schedule incentive of [REDACTED] Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the conclusion of the contract. Reference letter, dated 12 January 2009, from [REDACTED]

(b)(4)

(b)(6)

002003

(2) An additional performance incentive fee pool of [REDACTED] (maximum) is established and will be awarded to the contractor for meeting performance incentives associated with System Capability Reviews (SCRs) and the Developmental Test (DT)/Limited User Test (LUT) according to the schedule below:

(b)(4)

(a) [REDACTED] (maximum) earned based on successful conduct of technical performance defined by SCR-1.

(b)(4)

(b) [REDACTED] (maximum) earned based on successful conduct of technical performance defined by SCR-2.

(b)(4)

(c) [REDACTED] (maximum) earned based on successful conduct of technical performance defined by SCR-3.

(b)(4)

(d) [REDACTED] (maximum) earned based on successful conduct of technical performance defined by LUT.

(b)(4)

(e) The specific criteria/evidence and associated percentages related to successful completion of (a) through (d) above are defined in the Section J attachment entitled "Performance Incentive Fee Criteria/Evidence."

(f) Following completion of each milestone in (a) through (d) above, the government will determine the amount of performance incentive fee earned. If it is determined that performance incentive fee is earned, the additional contract value will be added to the total value of the contract at the time the incentive is earned.

(3) For Earned Value and cost reporting purposes, the target cost value of [REDACTED] will be used.

(b)(4)

d. Changes issued under FAR 52.243-2, Changes - Cost Reimbursement

In the event of a change issued under FAR 52.243-2, Changes - Cost Reimbursement, it is agreed that changes to the performance and schedule incentive may be considered a part of the equitable adjustment. In the event that any Options to CLIN 0017 are added and exercised, the incentive fee for cost and schedule/performance applicable to the Option will be incorporated in accordance with the incentive fee structure of this provision.

(b)(6)

(2) An additional performance incentive fee pool of [REDACTED] (maximum) is established and will be awarded to the contractor for meeting performance incentives associated with System Capability Reviews (SCRs) and the Developmental Test (DT)/Limited User Test (LUT) according to the schedule below:

(b)(4)

(a) [REDACTED] (maximum) earned based on successful conduct of technical performance defined by SCR-1.

(b)(4)

002219

(b) [REDACTED] (maximum) earned based on successful conduct of technical performance defined by SCR-2. (b)(4)

(c) [REDACTED] (maximum) earned based on successful conduct of technical performance defined by SCR-3. (b)(4)

(d) [REDACTED] (maximum) earned based on successful conduct of technical performance defined by LUT. (b)(4)

(e) The specific criteria/evidence and associated percentages related to successful completion of (a) through (d) above are defined in the Section J attachment entitled "Performance Incentive Fee Criteria/Evidence."

(f) Following completion of each milestone in (a) through (d) above, the government will determine the amount of performance incentive fee earned. If it is determined that performance incentive fee is earned, the additional contract value will be added to the total value of the contract at the time the incentive is earned.

(3) For Earned Value and cost reporting purposes, the target cost value of \$1,447,892,193 will be used.

d. Changes issued under FAR 52.243-2, Changes - Cost Reimbursement

In the event of a change issued under FAR 52.243-2, Changes - Cost Reimbursement, it is agreed that changes to the performance and schedule incentive may be considered a part of the equitable adjustment. In the event that any Options to CLIN 0017 are added and exercised, the incentive fee for cost and schedule/performance applicable to the Option will be incorporated in accordance with the incentive fee structure of this provision.

SUMMARY OF CHANGES

1. SECTION A - SOLICITATION/CONTRACT FORM

The total cost of this contract was increased by \$1,618,600 from \$1,814,867,002.00 to \$1,816,485,602.00.

The following have been added by full text:

PURPOSE

To conduct a demonstration of a persistent capability for the Surveillance System (SuS) over a fourteen (14) day period (twenty-four (24) hours/day) not later than 30 September 2011.

The purpose of the demonstration is to gather data in support of meeting the Aerostat Retrieval Cycle requirement as shown in paragraph 4, Table 1, Requirement/ Verification Cross Reference Matrix, 3.14.5.2, of the JLENS System Performance Specification (MIS-PRF-55628).

The fourteen (14) day SuS Demonstration will include continuous operation of the Platform subsystem, the Radar subsystem, and the CPG subsystem in a near-tactical configuration. The SuS Demonstration will include conducting, documenting, and analyzing (1) platform flight operations, (2) radar radiation, detection, and tracking of primary mission targets, (3) control of the SuS via the CPG, and (4) communication of radar information [REDACTED]

(b)(3)(A)  
(i)&Title  
10 Sec 130  
(a)(b)

SuS Demonstration objectives will be developed by Raytheon and submitted to the JLENS Product Office (JPO) for approval thirty (30) days prior to the event. SuS Demonstration "quick look" results will be submitted to the JPO every twenty-four (24) hours during the fourteen (14) day event. A final report will encapsulate results and analysis for the SuS Demonstration events and will be delivered to the JPO thirty (30) after the fourteen (14) day SuS Demonstration completes.

# 1 INTRODUCTION

## 1.1 Objectives

The primary objective of the JLENS System Development and Demonstration (SDD) Program is to provide [REDACTED]

[REDACTED] The JLENS SDD Program is for the design, development, procurement, fabrication, integration, testing and delivery of two JLENS Orbits.

## 1.2 System Description

The JLENS Orbit is a dual aerostat-based surveillance and fire control sensor system. The surveillance system and the fire control system together make up an Orbit, although each are capable of operating as part of the Orbit or autonomously. The surveillance system consists of the surveillance radar, Communication and Processing Group (CPG) and platform. The fire control system consists of the fire control radar, CPG and platform. The Surveillance Radar (SuR) performs long-range 360 degree detection and tracking, while the [REDACTED]

[REDACTED] The CPG serves as the JLENS data and signal processing, communications and aerostat flight control center. The platform consists of an aerostat, Mobile Mooring Station (MMS), ground support equipment (power conversion module, cable storage module and weather equipment) and tether. The aerostat carries the radar payloads to altitude. The MMS anchors, launches and recovers the aerostat. The powered, fiber-optic tether connects the MMS to the aerostat, furnishes power to the payloads and is used to pass data between the processing station and the aerostat. The communication subsystem (part of the CPG) is the means for movement of internal and external data. [REDACTED]

## 1.3 Scope

This Statement of Work (SOW) defines the requirements for the JLENS SDD Program. Technical requirements are contained in the JLENS System Performance Specification (MIS-PRF-55628). The contractor shall design, develop, procure, fabricate, integrate, test and deliver two JLENS Orbits that meet the requirements of this SOW and MIS-PRF-55628. Only one Orbit will be deployable at the end of the SDD Program. A second set of full spares & refurbishment of the second Orbit after climatic, E3 and transport testing is not required.

002284

**1.4 Integrated Product Teams (IPTs)**

The JLENS Orbit shall be developed using a partnership between the Government and industry. The IPTs shall be the basis of that partnership. The contractor shall implement IPTs as an integral part of the JLENS SDD Program. The IPT structure developed shall follow the Contract Work Breakdown Structure (CWBS). The contractor shall be an integral member of Government IPTs and the Government will be an integral member of contractor IPTs. All contractor IPT documents shall be made available to the Government IPT members. The contractor shall develop an IPT plan to include charters for all contractor IPTs and sub-IPTs, membership of each IPT and sub-IPT, methodology for Government interaction, communication plan, schedule of meetings and make the plan available electronically to all IPT Government/contractor members. All IPT charters shall be approved by the Government as part of the Program Management Plan. The IPT or sub-IPT charters shall detail the roles, responsibilities and authority of its respective IPT or sub-IPT members, both contractor and Government.

**2 INTEGRATED PROGRAM MANAGEMENT**

**2.1 Integrated Cost, Schedule, and Technical Performance Management**

The contractor shall utilize their internal performance management system to plan, schedule, budget, monitor, manage and report cost, schedule and technical status applicable to the contract. The contractor's internal performance management system shall serve as the single, formal, integrated system that meets both the contractor's internal management requirements and the requirements of the Government for timely, reliable and auditable performance information. The contractor's system shall satisfy the industry standards delineated in ANSI/EIA-748-1998. The contractor's system shall meet the guidelines and be maintained in accordance with the requirements of the revised Department of Defense (DoD) Earned Value Management (EVM) Policy issued by the DoD Under Secretary of Defense, Acquisition, Technology and Logistics. The contractor shall flow down EVM and reporting requirements to major subcontractors and Intra-Organizational Transfers (IOT) that, based on risk, schedule criticality and dollar value, have the potential to impact the successful completion of the program. The contractor shall relate technical accomplishment with cost and schedule accomplishment in contract performance reports and at IPT meetings/integrated program reviews. The contractor shall develop a Program Management Plan In Accordance With (IAW) DI-MGMT-80004. **(Contract Data Requirements List (CDRL) B052)**

**2.2 Meetings and Reviews - Contractor Internal**

The contractor shall identify, conduct, support, attend, document reviews and make assessments by which the degree of completion of technical and programmatic efforts related to major schedule

002285

milestones can be made. The contractor shall notify and invite the Government to all such contractor and subcontractor reviews in a timely manner.

### **2.3 Meetings and Reviews - Contractor/Government**

The contractor shall conduct quarterly program reviews. The program reviews shall address technical performance, risk and risk management, cost, software indicators and corrective actions, technical and schedule progress, program status, staffing and issues that could affect program execution. The contractor shall relate technical accomplishment to cost and schedule using earned value and the Integrated Master Schedule during program reviews. The contractor shall conduct program management level reviews at the request of the JLENS Product Manager. The contractor shall develop presentation material IAW DI-ADMN-81373 and meeting minutes and reports IAW DI-ADMN-81505.

**(CDRLs B014 and B001)**

#### **2.3.1 Integrated Baseline Review (IBR)**

The contractor shall develop and maintain a comprehensive performance measurement baseline and support a Government led IBR. The contractor shall maintain baseline integrity and risk identification. The IBR will be conducted within ninety (90) days after definitization of the contract, exercise of options and major modifications as directed by the Government. The contractor shall flow-down the IBR requirement to those subcontractors that exceed the EVMS threshold (\$50M) on cost-type subcontracts. The contractor shall lead the subcontractor and IOT IBRs with active participation from the Government. **(CDRL B014 and B001)**

#### **2.4 Integrated Master Plan (IMP) / Integrated Master Schedule (IMS)**

The contractor shall develop and maintain an IMP / IMS IAW DI-MGMT-81650 that reflects key events/milestones, critical path, current status and completion forecasts. The contractor shall ensure that all activities are defined, resourced, controlled, scheduled, updated, monitored, reported and managed consistent with and supportive of the requirements set forth in this SOW. The contractor shall depict the overall structure of the program including the key processes, program events/milestones, significant accomplishments and activities as well as defining accomplishment criteria for each event in the IMP for the SDD Program. The IMP will serve as the basis for development of the IMS. The contractor shall develop a detailed IMS for the SDD Program consistent with the IMP, EVM, CWBS and CWBS Dictionary. The contractor shall logically link schedule tasks to reflect the manner in which the work is to be performed (including subcontractor/inter-organization transfer activities) resulting in the ability to analyze a critical path. **(CDRL B002)**

002286

**2.5 Contract Work Breakdown Structure**

The contractor shall develop, implement and maintain a CWBS and CWBS Dictionary IAW DI-MGMT-81334 to the lowest level at which work is performed. The contractor shall use the CWBS as the primary framework for planning, monitoring, budgeting, controlling and reporting the status of program cost, schedules and technical performance. The contractor shall update the CWBS during the execution of the contract. The contractor shall submit justifications for proposed changes to CWBS. (CDRL B025)

**2.6 Cost Reporting**

**2.6.1 Integrated Program Management Reporting**

The contractor shall report EVM data. The contractor shall report to applicable CWBS elements. The contractor shall prepare a Contract Performance Report (CPR) IAW DI-MGMT-81466 and a Contract Funds Status Report (CFSR) IAW DI-MGMT-81468. The contractor shall reconcile the cost/schedule data elements in the CFSR with the CPR. The contractor shall provide a reconciliation of the CFSR and CPR as an addendum to the CPR. To maintain necessary visibility, the contractor shall report data separately on the CPR via the CWBS structure. (CDRLs B004 and B003)

**2.6.2 Cost and Software Data Reporting**

The contractor shall prepare Contractor Cost Data Reports (CCDRs) and Software Resources Data Reports (SRDRs) in accordance with the JLENS Cost and Software Data Reporting Plan (CSDR) (Appendix C). These reports include Contract Data Summary Reports (DD Form 1921) IAW DI-FNCL-81565, Functional Cost Hour and Progress Report (DD Form 1921-1) IAW DI-FNCL-81566 and SRDR (DD Forms 2630-2,3) IAW DI-MISC-80508. The contractor may customize or tailor the DD Forms 2630-2,3 to be consistent with data it normally collects. The contractor shall propose the software measurement data within a Software Resources Data Collection Plan as part of the Software Development Plan. The contractor is responsible for flowing down the requirements of this paragraph to all subcontractors. (CCDR and CSDR Manuals are available from the Defense Cost and Resource Center (DCARC) website <http://dcarc.pae.osd.mil>.) (CDRL B026, B027, B048, B049)

**2.6.3 Program Cost Estimate**

A Rough Order of Magnitude Cost for SDD program procurement, operations and sustainment of the JLENS Orbit, pertaining to the contractor portion only, shall be developed IAW DI-FNCL-80448. The estimate will contain the costs for the fire control radar, surveillance radar, processing station, communications, platform, system engineering, program management and system test and evaluation costs by fiscal year and with each component cost shown separately. The estimate shall contain the

002287

assumptions used in developing the estimate and shall not be requested more than twice a fiscal year. A maximum of 12 estimates may be required. (CDRL B005)

**2.7 Data Management**

The contractor shall establish and implement a data management process that shall reproduce, catalog, store and deliver data items. The contractor shall make available all technical and programmatic data as requested by the Government. The contractor shall maintain a data repository for classified storage and an efficient means to accomplish fast and accurate classified data retrieval until the contractor is notified by the contracting officer that the Government classified repository is available for use. The contractor shall use the Government unclassified Management Information System (MIS) Portal for delivery of unclassified data. The contractor shall notify the Government Point of Contact (POC) designated on the corresponding CDRL via email when data is posted to the classified repository and the unclassified MIS Portal. The contractor shall include the filename and path to the posted data in the email. The Government POC designated on the corresponding CDRL will provide notification of CDRL receipt to the contractor via email. The contractor shall deliver data that is usable on personal computers using Microsoft Windows Operating System and Microsoft Office Application Programs.

[Redacted]

(b)(3)(A)  
(i)&Title 10  
Sec 130 (a)(b)

The contractor shall ensure all electronic deliveries are free from viruses. The contractor shall support and provide input IAW DI-MGMT-81453 to the Government development of acquisition documentation. (B006)

**3 SYSTEM ENGINEERING**

**3.1 General**

The contractor shall conduct systems engineering and provide a system design that meets the requirements of this SOW and MIS-PRF-55628. The contractor shall be responsible for total system integration and performance to include supporting the Government in assessing and optimizing total system reliability. The configurations of the system and the prime items shall be documented in the Orbit, System and Subsystem Design Description, as described in the Design Notebook IAW DI-IPSC-81432. The contractor shall translate the analysis and allocation of requirements from MIS-PRF-55628 and prepare the requirements, functional, allocated and product baseline design in preparation for program milestones. This engineering effort shall be based on and shall incorporate the contractor's systems engineering process that includes requirements analysis, functional analysis/allocation and design synthesis. Systems engineering shall include Orbit, system and subsystem engineering requirements allocation, specification production and configuration management, system analyses, tactical hardware,

002288

tactical software, tactical ground support equipment, risk management, radio frequency management, test requirements/plans, interface management and integration, safety, modeling and simulations, Cost as an Independent Variable (CAIV) and technical reviews and meetings. The contractor shall develop and submit a Systems Engineering Management Plan (SEMP) IAW DI-MGMT-81024 that clearly defines the JLENS systems engineering process. **(CDRLs B008 and B044)**

**3.2 Systems Engineering Process**

The contractor shall apply the principles of systems engineering and implement the requirements of MIS-PRF-55628 during the design work. The systems engineering process shall include all aspects of the design to include: external interfaces, supportability, logistics feasibility, environmental requirements, manpower and personnel, human factors, safety, supply support, support and test equipment, technical documentation, computer resources support, packaging, handling, storage and transportability, hazardous material handling and disposition, facilities, Reliability, Availability and Maintainability and Training (RAM-T).

**3.3 System Engineering Requirements Allocation**

The contractor shall develop a Specification Tree IAW DI-MISC-80508 for the JLENS Orbit to the equivalent of the Orbit, system and subsystem level. The contractor shall flow down the requirements from the MIS PRF 55628 to the equivalent of the Orbit, system and subsystem level. The Specification Tree shall be a top down diagrammatic representation of the breakdown of specification from the top specification (system performance specification) to lower level specifications (e.g. Prime Item Development Specification, Interface Control Document, Critical Item Development Specification, Software Requirements Specification, Source Control Document). The Specification Tree shall show the interdependency of specifications and form a convenient medium for the cataloging of applicable specifications. The contractor shall define and document the requirements in hardware IAW DI-SDMP-81465 and software IAW DI-IPSC-81433 specifications. The contractor shall develop Interface Control Documents for internal and external interfaces IAW DI-CMAN-81248. The contractor shall develop and maintain design documentation that will allow the contractor to replicate the JLENS hardware and software. The contractor shall document the design that meets the requirements and supporting analyses in a Design Notebook, such as the Engineering Design Notebook, and supporting documents such as a System Subsystem Design Document (SSDD), and with software design documents as identified in the Software Development Plan. The Design Notebook shall contain the key analyses and tradeoff studies conducted to support performance requirements, design and design tradeoffs. The Design Notebook shall include key parameters and assumptions used to determine hardware/software specification requirements. The Design Notebook shall contain a description of the system architecture that is being developed and

002289

fabricated. This description shall be provided in terms of visual descriptions, performance estimates and physical description. The Government shall have access, for use at Government facilities, to all requirements traceability database files, to include current and previous baselines. (CDRLs B007, B009, B029 and B010)

**3.4 System Analyses**

The contractor shall conduct performance analyses to support the system designs in accordance with the requirements of MIS-PRF-55628. [REDACTED]

[REDACTED] The contractor shall conduct analyses that establish the [REDACTED]

Performance analyses and trade studies shall be completed and system design shall be updated prior to design reviews to reflect the results of the trade studies. All trade studies shall include CAIV. All analyses and trade studies generated under this section shall be included in the Design Notebook. (CDRL B008)

(b)(3)(A)  
(i)&Title  
10 Sec  
130 (a)(b)

**3.5 Producibility and Manufacturing**

The contractor shall implement a producibility and manufacturing program that incorporates producibility and manufacturing into the design. This program shall include design strategies to address obsolescence, production readiness reviews, producibility planning and manufacturing technology insertion, associated with manufacturing and production. The contractor shall prepare Producibility Analysis Reports IAW DI-MGMT-80797. (CDRL B020)

**3.5.1 Production Engineering and Transition Planning**

The contractor shall develop and implement a manufacturing strategy IAW DI-MGMT-80790 that facilitates a smooth and orderly transition from development to low rate production. (CDRL B041)

**3.5.2 Producibility**

The contractor shall consider producibility in design decisions. Efforts to make the design more producible shall be directed toward achievement of cost goals and ensure manufacturing capabilities support the design. The contractor shall establish and maintain a system for measuring and reporting manufacturing costs.

**3.5.3 Manufacturing Plan**

The contractor shall prepare a manufacturing plan IAW DI-MGMT-80004 for the most economical set-up based on anticipated Low Rate Initial Production (LRIP) and Full Rate Production (FRP) delivery rates. Manufacturing planning and tooling is based upon a planned LRIP rate of one system per year (FY12 and FY13), a planned FRP rate of one system per year (FY14 and FY15) and a

002290

FRP rate of two systems per year (FY16, FY17, FY18, FY19, FY20). The contractor will identify critical JLENS hardware in the manufacturing plan. The manufacturing plan shall describe and document the manufacturing processes for critical JLENS hardware and the plan to transition this hardware to LRIP. The term "critical hardware", as used throughout section 3.5 of this SOW, is defined as hardware that fits one or more of the following criteria:

- a. utilizes manufacturing processes for which a facility or supplier does not have a proven history of continuous production at a volume similar to that planned for JLENS.
- b. utilizes manufacturing tests which are unique to JLENS.
- c. utilizes manufacturing processes such that conformance to requirements cannot be verified by inspection or test and if deviated from could affect product performance or safety. (CDRL B062)

#### **3.5.4 Production Qualification**

The contractor shall prove-out production representative manufacturing processes, test and inspection equipment, test procedures, work instructions and tooling for the JLENS critical hardware.

#### **3.5.5 Production Pilot Lines**

Pilot production lines shall be established for critical hardware items, as early as design maturity allows during the SDD Program. Pilot lines shall be validated prior to LRIP Production Readiness Review (PRR) and shall be used to manufacture hardware used for operational test. The Production / Process Verification (PPV) shall be performed on specified critical items to verify production processes are in accordance with the design, manufacturing, inspection and test documentation.

#### **3.5.6 Production Readiness Review (PRR)**

The contractor shall conduct PRRs, with Government participation, for all prime items and their associated critical hardware as defined in paragraph 3.5.3. The PRRs are a formal assessment of the contractor's ability to produce hardware and are the basis of a Government Production Readiness Assessment. The contractor shall develop presentation material IAW DI-ADMN-81373 and meeting minutes and reports IAW DI-ADMN-81505. (CDRL B014, B001) Accepted as Modified.

#### **3.5.7 Special Tooling (ST), Special Test Equipment (STE), Special Inspection Equipment (SIE) and Peculiar Support Equipment (PSE)**

The ST, STE, SIE and PSE designs shall represent production configuration and meet production rates as individual equipment or by duplication. During the design of the STE, SIE and PSE, consideration shall be given to standardization of common components to reduce spare parts required to support production. When ST/STE is used as a medium of inspection, the calibration, verification and re-verification procedures of the ST/STE shall be included in the quality program planning.

002291

### **3.5.8 Facilitization Plan**

The contractor shall develop and document IAW DI-MGMT-80004 the initial, and any follow-on, production facilitization requirements to support planned production rates. This includes all facilities, production equipment, test equipment and special equipment required to produce the JLENS Orbit.

**(CDRL B056)**

### **3.6 Hardware Development**

The contractor shall design, develop, fabricate, assemble, integrate, test, evaluate, document, deliver and support all JLENS hardware. The contractor has the responsibility for ensuring that hardware designs and deliverables meet the requirements of the MIS-PRF-55628 and this SOW. The contractor shall complete and document the conceptual and developmental design drawings/models IAW MIL-DTL-31000 of all JLENS hardware IAW DI-DRPR-80651. The contractor shall ensure compatibility of all functional and physical interfaces. The contractor shall conduct trade studies and analyses as required to accomplish a design that is cost effective and reliable. The contractor is encouraged to use commercial products, processes and practices that will reduce development, production and operational support costs. The contractor shall develop an Acceptance Test Plan (ATP) for hardware critical items IAW DI-QCIC-80553. The contractor shall provide and maintain sufficient hardware to meet the requirements of this contract. The contractor shall be responsible for total support of the hardware, including all maintenance and provision of spare/repair parts. Beginning with each Prime Item CDR, the contractor shall develop and implement a closed-loop Failure Reporting, Analysis and Corrective Action System (FRACAS) for hardware failures IAW DI-RELI-81315. This system shall be used to resolve detected hardware problems. The contractor shall document each detected hardware problem and corresponding corrective action. This system shall include/incorporate company or commercial best practices and shall be of sufficient detail to meet the program requirements and ensure program success. **(CDRLs B057, B042, and B061)**

### **3.7 Software**

#### **3.7.1 Software Reuse**

The contractor shall report reuse metrics including but not limited to size, breakage factor by SI, identification of changes required and proposed validation of change in regular Government/contractor IPT meetings and Technical Interchange Meetings and as identified in the Software Development Plan (SDP).

002292

**3.7.2 Software Engineering Environment (SEE)**

The contractor shall establish, control and maintain configuration of a SEE. The SEE shall provide the facilities, hardware, software, firmware, procedures and documentation needed to perform software development and software testing at each development facility. Elements may include, but are not limited to, Computer Aided Software Engineering (CASE) tools, software development library, software development files, compilers, assemblers, linkers, loaders, operating systems, debuggers, simulators, emulators, documentation tools, database management systems, code analyzers, test case generators and path analyzers. Government shall have access, on a non-interfering and read-only basis, to all the elements of the SEE to support System Software Engineering, QA, CM and Independent Verification & Validation (IV&V) efforts.

**3.7.3 Software Development**

The contractor shall develop, document, submit and implement a SDP which includes a description of the SEE IAW DI-IPSC-81427. The contractor shall develop, document and deliver an Interface Requirement Specification IAW DI-IPSC-81434. The contractor shall document the requirements traceability for each software item in a Software Requirements Specification IAW DI-IPSC-81433. The contractor shall design, develop, integrate and deliver software that meets the requirements of the Software Requirements Specifications and Interface Requirements Specifications. The contractor shall deliver software including, but not limited to, all executable software, source files, build and make files and software support information developed under the JLENS Contract IAW DI-MCCR-80700. These deliveries shall include formal and interim software builds. Except as provided in the Limited/Restricted Rights Assertion Section of the contract, software source code developed under this contract will be in accordance with the Software Source Code License, Number JLENS-WSLA-01 (DFARS Clause 252.227-7014(b)(4)). Submission of any proprietary source code will be for JLENS Product Office analysis and IV&V purposes only, on an as required basis, in accordance with a mutually agreed upon no fee license. If the JLENS Product Office analysis and IV&V is performed by a non-Government entity, then a Non-Disclosure Agreement with that entity, specifically protecting the proprietary source code software will be put in place prior to submission of any source code material. The software binaries and source code shall be delivered with checksums to verify data integrity. The contractor shall develop and document the interface design in an Interface Design Description (IDD) for each Computer Software Configuration Item (CSCI) IAW DI-IPSC-81436. The contractor shall document the design decisions, algorithm descriptions and the architectural designs in a Software Design Description (SDD) Document for each CSCI IAW DI-IPS-81435. (CDRLs B011, B032, B029, B023, B021 and B033)

002293

#### **3.7.4 Software Testing**

The contractor shall develop, document and implement a software test plan IAW DI-IPSC-81438 for software testing. The contractor shall conduct unit testing for all new and modified software units. The contractor shall conduct unit or Software Item (SI) level testing for all safety critical and safety related software. The contractor shall conduct unit integration testing for all software units. The contractor shall document the specific unit and unit integration test cases and related test procedures. The contractor shall verify all of the requirements in the Software Requirements Specifications (B029), each in accordance with the specified qualification method. The contractor shall invite the Government to witness all software qualification testing. The contractor shall document and deliver a Software Test Description (STD) IAW DI-IPSC-81439 for each release of a CSCI. The STD describes the test preparations, test cases, test procedures and method to be used to perform Software Qualification Testing (SQT) of each release of a CSCI or a software system or subsystem. The contractor shall conduct software qualification testing IAW the STD for each software release. All SQT, or other software test events shall be performed using tactical representative hardware and test tools, where available. The contractor shall provide evidence to the Government to substantiate test tools as a valid engineering representation of system behaviors. The contractor Software Quality Assurance (SQA) personnel shall witness or audit all SQT events. The contractor shall document and deliver a Software Test Report IAW DI-IPSC-81440 for each release of a CSCI. The Software Test Report is a record of the testing performed on a CSCI, a software system or subsystem or other software-related item. (CDRLs B035, B036 and B037).

#### **3.7.5 Software Version**

The contractor shall develop and maintain software documentation and code that will allow the contractor to replicate and modify the JLENS Software at each phase of the release process, utilizing a version control and tracking system in a Software Version Description (SVD) document for each release of a CSCI. The SVD shall be prepared IAW DI-IPSC-81442. The contractor shall document the exact version of each software release. The contractor shall include in the documentation the descriptions of the capabilities and limitations of each software version, the patches and fixes from previous versions and the completed and outstanding software problem reports. The contractor shall provide maintenance support for all software throughout the continuance of the contract. (CDRL B024)

#### **3.7.6 Software Installation**

The contractor shall develop, maintain and deliver a Software Installation Plan IAW DI-IPSC-81428 to include procedures for software installation, software update procedures, software operations,

002294

database initializations, prime item interfaces and other system specific information necessary to ensure the JLENS Orbit is operational. (CDRL B038)

**3.7.7 Software Reviews**

The contractor shall perform Software Requirements Review (SRR), Software Critical Design Review (SCDR) and Software Test Readiness Review (STRR) for the following software builds: FCR Builds 2 and 3, SuR Builds 2 and 3, CPG Builds 3 and 4 and platform final software build.

**3.7.7.1 Software Requirements Review**

The contractor shall host one or more SRRs IAW the program schedule to review the development activity and its output in the context of the overall system and platform requirements. The SRR shall provide a formal transition from the project requirements analysis and planning phase into development. The contractor shall assure the Government that all the affected requirements have been identified and the proposed development project has been sufficiently planned and documented to the Government's satisfaction. All software CSCIs shall be identified and WBS elements and metrics reporting for each software CSCI level shall be addressed. The first SRR for a prime item shall be conducted prior to or in conjunction with the prime item PDR. The contractor shall develop presentation material IAW DI-ADMN-81373 and meeting minutes and reports IAW DI-ADMN-81505. (CDRL B014 and B001)

**3.7.7.2 Software Critical Design Reviews**

The contractor shall host one or more software CDRs (SCDR) IAW the Program Software Release Schedule, to review the detailed design and operational and support documents to demonstrate to the Government's satisfaction that the detailed design satisfies the system, subsystem and unit level software requirements; the simulations and models accurately reflect the system, subsystem and unit level software performance parameters; the external ICDs and internal IDDs accurately reflect the system interfaces as dictated by the system and sub-system specifications; and the software interfaces and software engineering documentation accurately reflect and are in compliance with the ICDs hardware/software interface requirements. The contractor shall develop presentation material IAW DI-ADMN-81373 and meeting minutes and reports IAW DI-ADMN-81505. (CDRL B014 and B001)

**3.7.7.3 Software Test Readiness Reviews**

The contractor shall host one or more software TRRs (STRRs) IAW the program software release schedule in support of system and subsystem software qualification tests. The reviews shall address test objectives, schedules, safety, configuration, data requirements and suitability of the test hardware and/or software to support the test objectives IAW the STP. All test procedure steps shall be reviewed to ensure

002295

each software requirement has been demonstrated. The contractor shall provide adequate assurance that the SQT shall be performed using tactical representative hardware where available. Results of STRR must be reviewed and approved by the Government prior to proceeding to SQT. The contractor shall develop presentation material IAW DI-ADMN-81373 and meeting minutes and reports IAW DI-ADMN-81505. **(CDR B014 and B001)**

**3.7.8 Software Failure Reporting and Corrective Action**

The contractor shall develop and implement a closed-loop FRACAS for all failures occurring during system debugging, checkout, engineering tests and contractor maintenance. This system shall be used to resolve detected software problems once each prime item CDR has been conducted. The contractor shall document each detected software problem and corresponding corrective action once each prime item CDR has been conducted. This system shall incorporate company or commercial best practices and shall be of sufficient detail to meet the program requirements and ensure program success. **(CDRL B061)**

**3.7.9 Management Indicators**

The contractor shall collect, interpret, use and report software management indicators as described in the SDP. The contractor shall address software management indicators and corrective actions at the program reviews. The contractor shall develop presentation material IAW DI-ADMN-81373. **(CDRL B014)**

**3.7.10 Firmware**

The contractor shall identify all developed and / or modified firmware, its location within the JLENS system, its associated functionality and a safety analysis including rationale and traceability to any related hazard(s). Rationale shall be provided to exclude the software associated with these devices from the software category. The contractor shall develop software for programmable hardware identified as software IAW the SDP and shall identify these items IAW DI-IPSC-81435. Otherwise, the contractor shall develop the software for programmable devices identified as hardware IAW internal best practices. These best practices shall be presented to the Government for review. **(CDRL B033)**

**3.8 Interface Management and Integration**

The design shall be modular to the maximum extent possible and shall facilitate substitution of alternate payloads from a separate source. This requirement shall be satisfied by submission of the JLENS System Interface Control Document (ICD). The ICD outline will be such that the 'as designed' interface between the payload and platform can be separately delivered upon request. **(CDRL B010)**

002296

### **3.9 Support to Software IV&V and Other Efforts**

The contractor shall support the establishment of the Government Software Integration Lab (SIL), modeling and simulation efforts, as well as the government managed Orbit-level software assessments and SIV&V testing. This support will include support to the weekly status teleconferences, accepting and dispositioning trouble reports and providing assistance in software configuration and installation within the Government SIL. This software support will not exceed 1.5 full time equivalents through the end of the SDD contract..

### **3.10 Safety**

The contractor shall conduct system safety engineering and use the Government provided Hazard Tracking System (HTS) database in support of all design, development and test activities. The HTS database, including all data and records, shall be the property of the Government. The contractor shall conduct a System Safety Program (SSP) consistent with MIL-STD-882D, standard practice for system safety and as guidance the JLENS System Safety and Health Management Plan (SSHMP). Hazards shall be defined as outlined in MIL-STD-882D. The contractor shall prepare Safety Assessment Reports (SAR) IAW DI-SAFT-80102. The contractor shall prepare the System Safety Program Plan IAW DI-MGMT-80004. The contractor shall ensure that subcontractor's safety plans are in conformance with the contractor's safety plan. The safety design features of all electronic equipment shall be implemented using MIL-HDBK-454A as guidance. The aerostat shall meet appropriate safety requirements for airborne platforms as specified by the Federal Aviation Administration (FAA). The JLENS Orbit hardware and software, to include data displays, shall be designed to optimize the functionality and efficiency of operations for sustained periods of high activity in accordance with MIL-STD-1472F, as applicable. The contractor shall conduct a Human Factors Engineering (HFE) Program using MIL-HDBK-46855 as guidance. All hazards, to include single point failures, single point human errors and any combination of failures and human errors shall be eliminated through design, or mitigated to a Government acceptable risk level as defined in MIS-PRF-55628 paragraph 3.15.1 and MIL-STD-882D. Throughout the life cycle of the JLENS Orbit, the hardware and software shall mitigate all hazards that could cause personal injury, equipment damage or have an environmental impact. The Software Safety Program shall be implemented using MIL-STD-882. The Joint Software System Safety Committee (JSSSC) Software System Safety Handbook shall be used as guidance. (CDRL B012 and B045)

### **3.11 Modeling and Simulation**

The contractor shall develop models and simulations under the guiding tenets of Simulation and Modeling for Acquisition, Requirements and Training (SMART). The SMART is defined in Department of the Army Pamphlet 5-12, the "Planning Guidelines for SMART" and the "SMART Execution Plan."

002297

These documents are maintained by the Army Model and Simulation Office (<http://www.amso.army.mil/smart/documents/guidelines/>). The ultimate goal of SMART is to provide systems with greater utility at lower cost, minimizing risk and reducing operations and sustainment budgets. The contractor shall prepare a Simulation Support Plan IAW DI-MGMT-80004. (CDRL B046)

**3.11.1 Engineering Modeling and Simulations**

The contractor shall provide access to simulation tools that will be used by the contractor for requirements verification. The contractor shall provide simulation source code, executables and available documentation used for contractor verification and validation of the simulation IAW DI-IPSC-81441. The contractor shall make simulation results available for Government review IAW DI-MISC-80048. (CDRL B034 and B013)

**3.11.2 System Integration Laboratory (SIL)**

The contractor shall develop and maintain a SIL consisting of simulations, models, hardware and software. The SIL shall support the integration of hardware and software. The contractor shall develop and submit a SIL Validation Plan IAW DI-MGMT-80004 that describes how the contractor validates all SIL capabilities used in the verification of prime item hardware and software performance. (CDRL B053)

**3.12 Technical Reviews and Meetings**

**3.12.1 Design Reviews**

The contractor shall conduct SDD Program contract milestone reviews to include, but not limited to, the System Requirements Review (SRR), System Functional Review (SFR), Preliminary Design Reviews (PDRs) and Critical Design Reviews (CDRs) at the contractor's facilities. At each milestone review, the contractor shall address Orbit and system level design integration and shall summarize each prime item's role within the system. Contractor conducted Subsystem Readiness Reviews (i.e., Prime Item PDRs and CDRs) shall include Government participation. The contractor shall develop presentation material IAW DI-ADMN-81373 and meeting minutes and reports IAW DI-ADMN-81505. (CDRLs B014 and B001)

**3.12.2 Design Review Entrance Criteria**

To facilitate an event driven approach to design reviews, the contractor in collaboration with the Government shall define the process and timeline for developing entrance criteria for all planned reviews in the SEMP.

002298

**3.12.3 Design Review Exit Criteria**

To facilitate an event driven approach to design reviews, the contractor, in collaboration with the government, shall define the process and timeline for developing exit criteria for all planned reviews in the SEMP.

**3.13 INFORMATION & TECHNOLOGY ASSURANCE**

**3.13.1 General**

The JLENS Orbit will maintain an appropriate level of confidentiality, integrity, authentication, non-repudiation and availability that reflect a balance among the importance and sensitivity of the information; documented threats and vulnerabilities; the trustworthiness of users and interconnecting of other systems; and the impartment to connectivity and/or the impact of destruction or loss of the system.

**3.13.2** [Redacted]

(b)(3)  
(A)  
(i)&Title  
10 Sec

**3.13.3 Information Assurance (IA)**

The contractor shall support the Government managed IA Program IAW AR 25-1, Chapter 5 and AR 25-2. The contractor shall implement DoDI 8500.2 ensuring confidentiality, integrity and availability throughout the JLENS SDD Program. The contractor shall implement the JLENS IA Strategy dated 25 April 2005. The contractor shall appoint a primary and alternate POC. Each POC shall become familiar with applicable documents such as: DoD, Army Directives Pamphlets and regulations on IA and participate in JLENS sponsored IPTs. The contractor shall send IA appointment letters showing the POC names to the JLENS Product Office annually and certify that the individuals have conducted self study on applicable directives on IA (or within thirty (30) days of a POC change). The contractor shall ensure that all IA enabled products incorporated into JLENS SDD Program to perform security functions comply with the evaluation and validation requirements of the National Security Telecommunications and Information Systems Security Policy 11, in accordance with DoDD 8500.1. The contractor shall comply with paragraph 4.17 of DoDD 8500.1. IA enabled products that have IA functionality that is not used shall have that functionality disabled.

002299

**3.13.4 DoD Information Assurance Certification and Accreditation Process (DIACAP)**

The contractor shall comply with DIACAP in accordance with OSD/CIO Memo July 6, 2006 Subject: Interim Department of Defense Information Assurance Certification and Accreditation Process Guidance. The contractor shall assist the Government in all applicable phases of the Certification and Accreditation (C&A) process. The contractor shall be an active participant in the JLENS IA Working Group to provide technical assistance during the C&A process.

**3.13.5 DoD Core Architecture Data Models (CADM)**

The DoD Architecture Framework (DoDAF) defines a common approach for DoD architectures. The DoD CADM is the underlying set of products within DoDAF. The CADM incorporates the term integrated architectures and is comprised of a number of specific models, definitions and views as specified in the DoDAF documentation and are categorized into operational views, system views and technical views. The contractor shall support the Government managed development of the DoDAF documentation to further define and implement the system views and technical views models so that all data entities shall be fully attributed and ensure the use of DoD standard data elements. The contractor shall support the Government in further definition and specific analysis of information requirements essential to support development of essential architecture products contained in the JLENS Information Support Plan.

**3.13.6 Transient Emission of Pulse Surveillance Technology (TEMPEST)**

The JLENS System is a transportable system in a tactical environment. The contractor shall follow Government regulation NSTISSAM TEMPEST / 2-95, 2-95a, DoDD S-5200.19 and Memorandum Number 20063301, US Army TEMPEST Office CTTA, as guidance. Deviation from these regulations will require coordination through the Government to the cognizant CTTA. The US Army TEMPEST Office will fully address any additional technical guidance or interpretation of the JLENS TEMPEST design as requested by the contractor and approved through the JPO.

**3.14 DoD Information Technology Standards Registry (DISR)**

The contractor shall maintain the JLENS technical architecture profile in accordance with DISR. The contractor shall develop and deliver IAW DI-MISC-80508 an implementation strategy that details how and to what extent the JLENS development will comply with the provisions of the applicable portion(s) of the DISR. The contractor will provide inputs to the Government for the Government to include into the Government managed DISR database. Government approval is required prior to any deviations from the DISR requirements (DISR replaced the Joint Technical Architecture). **(CDRL B043)**

002300

**3.15 DoD Net-Centric Data Strategy**

The contractor shall support the implementation of the DoD Global Information Grid (GIG). The GIG is the globally interconnected, end-to-end set of information capabilities associated processes and personnel for collecting, processing, storing and disseminating information for the warfighter. The contractor shall use, develop or refine metadata in accordance with the Defense Information Systems Agency established DoD Metadata Registry and based on the International Organization of Standards 11179 Specification for metadata registries. The contractor shall maintain a JLENS Metadata Registry, which for DoD currently incorporates existing resources such as the DoD Extensible Markup Language (XML) Registry, the Defense Data Dictionary System and commonly used reference sets. The contractor shall integrate other resources such as messaging formats, symbology, ontologies and transformation services.

**3.16** [REDACTED]

The contractor shall provide a system design that meets the requirements of this SOW and MIS-PRF-55628 and is consistent [REDACTED]

[REDACTED] The contractor shall leverage capability developed for the [REDACTED] to meet fire control

and sensor command requirements in MIS-PRF-55628 within baseline schedule and cost constraints. The contractor shall [REDACTED] to develop requirements and mitigate program impacts of future capabilities, enhancements and including [REDACTED]

**4 RISK MANAGEMENT**

The contractor shall develop and implement a Risk Management Plan IAW DI-MGMT-80004 and processes that identifies and prioritizes risk area, and conduct mitigation effort in coordination with the Government to reduce and/or eliminate program risks. The Risk Management Plan should address, but not be limited to, requirements, technology, design and engineering, manufacturing, support, cost and schedule. (CDRL B058).

**5 TEST AND EVALUATION**

**5.1 General**

The contractor shall develop and conduct a contractor Test and Evaluation (T&E) Program, develop and participate in a combined Government/contractor developmental flight T&E Program and

002301

support Government only T&E programs. The contractor's T&E program shall demonstrate that the requirements contained in MIS-PRF-55628 have been verified. The contractor shall maintain traceability from MIS-PRF-55628 to the contractor generated orbit, system and subsystem requirements when defining or developing required tests. The contractor shall verify the hardware and software requirements included in the JLENS system and subsystem specifications. The contractor shall submit a final report IAW DI-NDTI-80809 for any requirement that has been verified by analysis. The contractor shall allow Government monitoring and/or participation in contractor and subcontractor tests and demonstrations. The contractor shall provide the Government electronic notification a minimum of ninety six (96) hours prior to initiation of conduct of contractor or subcontractor, subsystem and system, tests that have Government approved test plans. The contractor shall perform component and subsystem level testing to include prime item tests, integration tests and system tests and/or demonstrations. The contractor shall conduct Test Readiness Reviews (TRRs) prior to system ground tests, elevated tests and system flight tests. The contractor shall submit agendas IAW DI-ADMN-81373 and minutes IAW DI-ADMN-81505 for the TRRs. The contractor shall be capable of reducing and analyzing data recorded during Orbit and system testing within 48 hours or 24 hours if target telemetry data is made available by the Government within 8 hours of test completion, to expedite test schedule decision planning. The contractor will pre-plan and coordinate periods of use of the Government operated test ranges with the JLENS Product Office. The Government will accommodate 24/7 operations as needed to support requirements testing in accordance with range availability and limitations. (CDRLs B015, B016, B014, and B001)

## **5.2 Test Plans, Reports and Reviews**

The contractor shall prepare and submit test plans IAW DI-NDTI-80566 and test reports IAW DI-NDTI-80809 for Orbit, system, subsystems and components. The Master Test Plan shall address the entire test program including performance and integration testing and demonstrations at the contractor/subcontractor facilities and at Government field test sites. The contractor shall prepare and submit a test report for each test event for which a test plan is prepared. (CDRLs B015 and B016)

## **5.3 Stimulator Integration**

The contractor shall support the integration of the JLENS Stimulator with the JLENS Orbit. The contractor shall provide support in the Government performance evaluation of the JLENS Fire Control and Surveillance Systems using the JLENS Stimulator to conduct Simulation only and Simulation Over Live testing. The contractor shall support integration testing of the JLENS stimulator at the Surveillance and Fire Control SILs. Contractor support for these activities will not exceed 2.4 full time equivalents over the period October 2006 through September 2011. The contractor shall provide an

002302

Interface Control Document IAW DI-CMAN-81248 to define the integration of the stimulator into the JLENS Surveillance and Fire Control Systems. (CDRL B010)

**5.4 System Tests/Demonstrations**

If requested under the changes clause of this contract, the contractor shall support the planned Government events such as [REDACTED] to demonstrate incremental and full system capability.

(b)(3)(A)  
(i)&Title  
10 Sec 130  
(a)(b)

**5.5 Government Test Support**

The contractor shall support the Government in the conduct of JLENS Government tests IAW MTP. The contractor shall be responsible for providing and maintaining test articles (hardware and software) at the Government designated test sites. Contractor support in the case of Government E3 and Environmental Testing shall include review of test plans and test procedures, personnel, test fixtures, test equipment, the ability to determine functionality of the test item/s during and/or after each test event and a repair plan schedule consistent with the test schedule. The contractor shall support Government conducted TRRs. Government testing includes engineering tests and tests involving the use of soldiers. The contractor shall assist the Government with planning, collection, reduction, analysis and reporting of test data. These tests may be conducted concurrently with contractor tests.

**5.6 Models and Simulations Verification, Validation and Accreditation (VV&A) Support**

The contractor shall support Government managed VV&A.

**5.7 Interoperability Test Program**

The contractor shall provide level of effort support to the Government conducted Interoperability Testing Program 1 full time equivalent (FTE) person for the period through end of SDD contract.

**6 SPECIALTY ENGINEERING**

**6.1 Logistics**

**6.1.1 Logistics Program**

The contractor shall continue to develop, update and maintain the JLENS Logistics Program in accordance with Army Regulation 700-127. The contractor's logistics program shall use these iterative processes that provide for early and continued logistics influence on design to enhance supportability: Identify and verify requirements and associated documentation for support of testing, minimize future operations maintenance costs; identify and resolve logistics issues early in the program to include

002303

Manpower Personnel Integration (MANPRINT) and training issues, document pre and post-fielding support requirements; support fielding and deployment; and implement performance-based support.

#### **6.1.2 Logistics Engineering**

As an integral part of the systems engineering process, the contractor shall conduct logistics engineering to satisfy the requirements of MIS-PRF-55628 and to minimize the total Operation and Support (O&S) costs of the JLENS SDD Program plus all of its associated Government Furnished Property (GFP) requirements. Logistics engineering shall include all the elements of Integrated Logistics Support (ILS). Within the JLENS support structure, the contractor shall emphasize maintainability, availability and transportability engineering. The contractor shall develop a two-level support system (field and sustainment) for JLENS peculiar items. For GFP, the contractor shall consider the implications of the compatibility of existing logistics support structures (i.e. 3-level support systems) in the over-all context of engineering the JLENS support system.

#### **6.1.3 Supportability Analysis**

The contractor shall establish and conduct a Supportability Analysis (SA) Program in accordance with MIL-HDBK-502 that integrates and optimizes ILS/MANPRINT requirements within system performance requirements (including GFP) for the life-cycle of the system. The SA Program shall be used to generate source data for the development of ILS/MANPRINT requirements, evaluation of the effect of design alternatives on support costs and operational readiness, assessment of logistics risks, translation of hardware design due to logistics support requirements, determination of logistics design constraints/impacts, determination of the most efficient and effective logistics resources for operation and support the JLENS Orbit and development of the data for logistics products (training, spares, support equipment, technical manuals, etc.).

#### **6.1.4 Level of Repair Analysis**

The contractor shall conduct a Level of Repair Analysis (LORA) in accordance with MIL-HDBK-502 to define optimal maintenance planning and engineering in accordance with MIL-HDBK-470A. The contractor shall record the results of LORA in the Logistics Management Information (LMI) IAW DI-MISC-80508. (CDRL B050)

#### **6.1.5 Trade-Off Analysis**

The contractor shall perform Trade-Off Analysis (TOA) of alternatives to reduce the total logistics footprint of the JLENS Orbit (plus GFP) and the size/scope of the total GFP required to operate, support, transport and deploy the system. The contractor will deliver the TOA IAW DI-MISC-80508. (CDRL B051)

002304

**6.1.6 Logistics Management Information**

The contractor shall continue to develop and maintain the LMI Program per MIL-PRF-49506 which documents the output of all supportability analyses in the Logistic Management Information (LMI) Data Products IAW DI-ALSS-81529 and the LMI Summaries IAW DI-ALSS-81530. The contractor shall provide on-line access, to include ad hoc query capability, to the LMI database. The contractor shall provide all supportability data in formats compatible with national standard databases and the LMI performance specification. The contractor shall provide LMI database training to those individuals identified by the JLENS Supportability IPT. (CDRLs B054, and B055)

**6.1.7 Integrated Product Team**

The contractor shall participate in Government, contractor and Government/ contractor integrated product teams and sub-product teams to identify and disseminate issues to the logistics community.

**6.1.8 Logistics Database**

The contractor shall establish and maintain current, web-based and on-line logistics database functionality to document maintenance and/or supply actions, training tasks and action(s) taken as appropriate during government tests and demonstrations, tests utilizing Government resources, exercises and during preparation for fielding. The contractor shall provide the Government on-line access to this database.

**6.1.9 Integrated Support Plan**

The contractor shall develop, update, deliver and implement the Integrated Support Plan (ISP) IAW DI-MGMT-80004, to reflect the JLENS System Development and Demonstration Program and schedule. The contractor shall use the Department of the Army Pamphlet 700-56 and the JLENS Supportability Strategy as the foundation for the ISP. The ISP shall include logistics events and schedules and the following sub-plans. (CDRL B017)

**6.1.9.1 Maintenance Plan**

The contractor shall develop, update and submit the maintenance plan IAW DI-MGMT-80004 as a sub-plan to the ISP. The maintenance plan shall include specific information and schedules on built-in-test/built-in-test equipment, failure analysis/diagnostic/prognostics, on-line-diagnostics, on-site resolution of software anomalies, levels of maintenance, personnel, parts/provisioning, tools facilities, military occupational specialties/skills, technical documentation (such as interactive electronic technical manuals, or logistics data bases) and reliability, availability and maintainability characteristics. (CDRL B017)

002305

#### **6.1.9.2 Supply Plan**

The contractor shall update and submit the supply plan IAW DI-MGMT-80004 as a sub-plan to the ISP. The supply plan shall be developed to support JLENS Orbit during testing and in the field. (CDRL B017)

#### **6.1.9.3 Equipment Plan**

The contractor shall develop, update, and submit the equipment plan IAW DI-MGMT-80004 as a sub-plan to the ISP. In addition to the requirements of DA PAM 700-56, the equipment plan shall include specific information on costs, descriptions, quantities and delivery dates for all Commercial Off-The-Shelf (COTS) and Government Off-The-Shelf (GOTS) equipment. (CDRL B017)

#### **6.1.9.4 Manpower Personnel Integration Management Plan**

The contractor shall develop, update and submit the MANPRINT Management Plan IAW DI-MGMT-80004 as a sub-plan to the ISP. The plan shall include specific MANPRINT requirements to deploy, transport, operate and support the JLENS Orbit plus its GFP and specific information concerning the analysis and handling of MANPRINT issues and meet the requirements of Army Regulation 602-2. (CDRL B017)

#### **6.1.9.5 Training Plan**

The contractor shall use Training and Doctrine Command Regulation 350-70 to develop, update and submit a Training Plan IAW DI-MGMT-80004 as a sub-plan to the ISP. The training plan shall include, as a minimum, costs, length of classes, places of training, time of training, material / hardware / device requirements, security, personnel, facilities and prerequisites to develop training documentation for taught classes and to train testers and users for tests and fielding. The contractor shall conduct all training required for system test(s) and fielding and will employ interleaved test/FDE training. This includes, but is not limited to, instructor and key personnel (tester/instructor), Maintainer, Operator, Flight Director and Staff Planner's course(s). The contractor shall deliver the majority of training materials in electronic format employing standard software formats as listed in the contract, to minimize printing costs and storage requirements. The Government will supply computers and computer software to read the electronic training material. In the event the contractor delivers training materials utilizing non-standard software format, the contractor will provide the Government with any non-standard software required for review of the training material. (CDRL B017)

002306

**6.1.9.6 Deployment Plan**

The contractor shall develop, update and submit a deployment plan IAW DI-MGMT-80004 as a sub-plan to the ISP. The deployment plan shall include specific information concerning resources to deploy system(s) and include a load plan for planned modes of transit. (CDRL B017)

**6.2 Product Assurance**

The contractor shall implement a quality system that meets the requirements of the applicable International Organization for Standardization 9000 series. The contractor shall develop, document, submit and implement a product assurance plan IAW DI-MGMT-80004. The product assurance plan shall address the functional areas of software quality assurance and hardware quality assurance (including corrosion prevention and control), reliability, maintainability and parts control. (CDRL B028)

**6.2.1 Corrosion Prevention and Control (CPC)**

The contractor shall develop and implement a corrosion prevention and control plan IAW DI-MGMT-80004 that is in compliance with the JLENS Government Corrosion Prevention Plan. (CDRL B028)

**6.2.2 Environmental Kits**

The contractor shall minimize the use of environmental kits when satisfying the temperature requirements of the JLENS Orbit. The contractor shall obtain Government approval in advance of planned use for all kits. The contractor drawings shall document environmental kits and list additional authorized item(s) in the appropriate technical manuals.

**6.2.3 Plastic Encapsulated Microcircuits (PEM)**

The contractor shall develop and implement a PEM Plan that includes the generation of a list of PEM devices used on contractor manufactured JLENS parts and the generation of a list of PEM devices used on JLENS COTS parts for all COTS assemblies where the contractor is granted access to the COTS assemblies' parts list. The contractor shall provide status reporting at JLENS Quarterly Program Reviews.

**6.2.4 Software Quality Assurance (SQA)**

The contractor shall conduct an SQA Program for JLENS software development in accordance with ISO 9000. The contractor shall include the SQA Program in the JLENS Product Assurance Plan by identifying SQA tasks as well as a narrative regarding the approach of those tasks. The contractor SQA Program shall provide for traceability of system/subsystem/software requirements to and from all test processes and procedures.

002307

### **6.3 Environmental Management**

The contractor shall comply with all applicable federal, state and local laws, regulations and guidelines. The contractor shall develop, document, provide and implement a Hazardous Materials Management Program (HMMP) Plan IAW DI-MGMT-81398. The contractor shall implement the HMMP in accordance with the Government HMMP Plan and National Aerospace Standard (NAS 411). The contractor shall request approval to use substances identified in the Environmental Protection Agency 17 list (available at <http://www.epa.gov/opptintr/3350/33finb1.htm>) only if there is no other viable material. The contractor shall not use any Class I Ozone Depleting Chemical/Ozone Depleting Substance (ODC/ODS) (identified at <http://www.epa.gov/ozone/ods.html>) in the manufacture of items required by this SOW unless a waiver is obtained from the government. The contractor shall provide immediate notification of any proposed hazardous material mitigation/elimination efforts that may adversely impact schedules and/or cost performance. The contractor shall notify the contracting officer immediately upon failure to comply with any regulatory requirements. The contractor shall provide a HMMP Report IAW DI-MISC-81397. (CDRLs B018 and B022)

### **6.4 Configuration Management (CM)**

The contractor shall prepare and submit a CM Plan IAW DI-MGMT-80004 that provides a single coordinated Configuration/Data Management (CDM) process and compatible CDM tools to manage the configurations produced under this contract. The contractor shall implement a CDM System that shall control the configuration of all components and interfaces of the JLENS Orbit to include prime items/components produced by subcontractors. The contractor's CDM Systems shall ensure that each deliverable specification prepared is IAW MIL-STD-961E. The contractor's CDM System shall address the following elements: Administration, configuration identification and control, configuration status accounting, configuration audits, management of digital data and subcontractor CM. The contractor shall prepare an Engineering Change Proposal (ECP) IAW DI-CMAN-80639, Engineering Release Record (ERR) IAW DI-CMAN-80463 and Notice Of Revision (NOR) IAW DI-CMAN-80642 for proposed changes to contractor furnished documents that are under Government configuration control. The CDM process shall include a configuration control board for approving ECPs. The Government shall be a member of the contractor's ECP Configuration Control Board (CCB). The contractor shall utilize the Request for Deviation (RFD) process IAW DI-CMAN-80640. (CDRLs B047, B039, B060, B040, and B059)

002308

#### **6.4.1 Configuration Management Audits**

The contractor shall support Government/contractor functional configuration audit to verify that the design meets or exceeds all system performance requirements, including requirements contained within MIS-PRF-55628 and physical requirements.

#### **6.4.2 Subcontractor Configuration Management Audits**

The contractor shall support and conduct periodic audits of processes and procedures in-house and at subcontractor facilities to ensure that requirements are flowed accurately and in a timely manner to manufacturing operations and that the deliverable product as-built definition is accurately reported.

### **7 OPERATIONS SECURITY (OPSEC)**

The contractor shall update, provide and implement the OPSEC Plan IAW DI-MGMT-80934. The contractor shall update the OPSEC Plan in accordance with specific instructions of the Contracting Officer/Contracting Officer Representative for Security and AR 530-1. The contractor shall adhere to the approved OPSEC Plan and the security requirements of the DD Form 254 of this contract. **(CDRL B019)**

# 1 INTRODUCTION

## 1.1 Objectives

The primary objective of the JLENS System Development and Demonstration (SDD) Program is to provide an [REDACTED]

(b)(3)(A)  
(i)&Title 10  
Sec 130 (a)  
(b)

[REDACTED] The JLENS SDD Program is for the design, development, procurement, fabrication, integration, testing and delivery of two JLENS Orbits.

## 1.2 System Description

The JLENS Orbit is a dual aerostat-based surveillance and fire control sensor system. The surveillance system and the fire control system together make up an Orbit, although each are capable of operating as part of the Orbit or autonomously. The surveillance system consists of the surveillance radar, Communication and Processing Group (CPG) and platform. The fire control system consists of the fire control radar, CPG and platform. The Surveillance Radar (SuR) performs long-range 360 degree detection and tracking, while the [REDACTED]

(b)(3)(A)  
(i)&Title  
10 Sec 130  
(a)(b)

[REDACTED] The CPG serves as the JLENS data and signal processing, communications and aerostat flight control center. The platform consists of an aerostat, Mobile Mooring Station (MMS), ground support equipment (power conversion module, cable storage module and weather equipment) and tether. The aerostat carries the radar payloads to altitude. The MMS anchors, launches and recovers the aerostat. The powered, fiber-optic tether connects the MMS to the aerostat, furnishes power to the payloads and is used to pass data between the processing station and the aerostat. The communication subsystem (part of the CPG) is the means for movement of internal and external data. [REDACTED]

(b)(3)(A)  
(i)&Title  
10 Sec 130  
(a)(b)

[REDACTED] In addition, JLENS will contribute [REDACTED]

[REDACTED]

## 1.3 Scope

This Statement of Work (SOW) defines the requirements for the JLENS SDD Program. Technical requirements are contained in the JLENS System Performance Specification (MIS-PRF-55628). The contractor shall design, develop, procure, fabricate, integrate, test and deliver two JLENS Orbits that meet the requirements of this SOW and MIS-PRF-55628. Only one Orbit will be deployable at the end of the SDD Program. A second set of full spares & refurbishment of the second Orbit after climatic, E3 and transport testing is not required.

002338

#### **1.4 Integrated Product Teams (IPTs)**

The JLENS Orbit shall be developed using a partnership between the Government and industry. The IPTs shall be the basis of that partnership. The contractor shall implement IPTs as an integral part of the JLENS SDD Program. The IPT structure developed shall follow the Contract Work Breakdown Structure (CWBS). The contractor shall be an integral member of Government IPTs and the Government will be an integral member of contractor IPTs. All contractor IPT documents shall be made available to the Government IPT members. The contractor shall develop an IPT plan to include charters for all contractor IPTs and sub-IPTs, membership of each IPT and sub-IPT, methodology for Government interaction, communication plan, schedule of meetings and make the plan available electronically to all IPT Government/contractor members. All IPT charters shall be approved by the Government as part of the Program Management Plan. The IPT or sub-IPT charters shall detail the roles, responsibilities and authority of its respective IPT or sub-IPT members, both contractor and Government.

## **2 INTEGRATED PROGRAM MANAGEMENT**

#### **2.1 Integrated Cost, Schedule, and Technical Performance Management**

The contractor shall utilize their internal performance management system to plan, schedule, budget, monitor, manage and report cost, schedule and technical status applicable to the contract. The contractor's internal performance management system shall serve as the single, formal, integrated system that meets both the contractor's internal management requirements and the requirements of the Government for timely, reliable and auditable performance information. The contractor's system shall satisfy the industry standards delineated in ANSI/EIA-748-1998. The contractor's system shall meet the guidelines and be maintained in accordance with the requirements of the revised Department of Defense (DoD) Earned Value Management (EVM) Policy issued by the DoD Under Secretary of Defense, Acquisition, Technology and Logistics. The contractor shall flow down EVM and reporting requirements to major subcontractors and Intra-Organizational Transfers (IOT) that, based on risk, schedule criticality and dollar value, have the potential to impact the successful completion of the program. The contractor shall relate technical accomplishment with cost and schedule accomplishment in contract performance reports and at IPT meetings/integrated program reviews. The contractor shall develop a Program Management Plan In Accordance With (IAW) DI-MGMT-80004. **(Contract Data Requirements List (CDRL) B052)**

#### **2.2 Meetings and Reviews - Contractor Internal**

The contractor shall identify, conduct, support, attend, document reviews and make assessments by which the degree of completion of technical and programmatic efforts related to major schedule

002339

milestones can be made. The contractor shall notify and invite the Government to all such contractor and subcontractor reviews in a timely manner.

### **2.3 Meetings and Reviews - Contractor/Government**

The contractor shall conduct quarterly program reviews. The program reviews shall address technical performance, risk and risk management, cost, software indicators and corrective actions, technical and schedule progress, program status, staffing and issues that could affect program execution. The contractor shall relate technical accomplishment to cost and schedule using earned value and the Integrated Master Schedule during program reviews. The contractor shall conduct program management level reviews at the request of the JLENS Product Manager. The contractor shall develop presentation material IAW DI-ADMN-81373 and meeting minutes and reports IAW DI-ADMN-81505.

**(CDRLs B014 and B001)**

#### **2.3.1 Integrated Baseline Review (IBR)**

The contractor shall develop and maintain a comprehensive performance measurement baseline and support a Government led IBR. The contractor shall maintain baseline integrity and risk identification. The IBR will be conducted within ninety (90) days after definitization of the contract, exercise of options and major modifications as directed by the Government. The contractor shall flow-down the IBR requirement to those subcontractors that exceed the EVMS threshold (\$50M) on cost-type subcontracts. The contractor shall lead the subcontractor and IOT IBRs with active participation from the Government. **(CDRL B014 and B001)**

### **2.4 Integrated Master Plan (IMP) / Integrated Master Schedule (IMS)**

The contractor shall develop and maintain an IMP / IMS IAW DI-MGMT-81650 that reflects key events/milestones, critical path, current status and completion forecasts. The contractor shall ensure that all activities are defined, resourced, controlled, scheduled, updated, monitored, reported and managed consistent with and supportive of the requirements set forth in this SOW. The contractor shall depict the overall structure of the program including the key processes, program events/milestones, significant accomplishments and activities as well as defining accomplishment criteria for each event in the IMP for the SDD Program. The IMP will serve as the basis for development of the IMS. The contractor shall develop a detailed IMS for the SDD Program consistent with the IMP, EVM, CWBS and CWBS Dictionary. The contractor shall logically link schedule tasks to reflect the manner in which the work is to be performed (including subcontractor/inter-organization transfer activities) resulting in the ability to analyze a critical path. **(CDRL B002)**

002340

## **2.5 Contract Work Breakdown Structure**

The contractor shall develop, implement and maintain a CWBS and CWBS Dictionary IAW DI-MGMT-81334 to the lowest level at which work is performed. The contractor shall use the CWBS as the primary framework for planning, monitoring, budgeting, controlling and reporting the status of program cost, schedules and technical performance. The contractor shall update the CWBS during the execution of the contract. The contractor shall submit justifications for proposed changes to CWBS. (CDRL B025)

## **2.6 Cost Reporting**

### **2.6.1 Integrated Program Management Reporting**

The contractor shall report EVM data. The contractor shall report to applicable CWBS elements. The contractor shall prepare a Contract Performance Report (CPR) IAW DI-MGMT-81466 and a Contract Funds Status Report (CFSR) IAW DI-MGMT-81468. The contractor shall reconcile the cost/schedule data elements in the CFSR with the CPR. The contractor shall provide a reconciliation of the CFSR and CPR as an addendum to the CPR. To maintain necessary visibility, the contractor shall report data separately on the CPR via the CWBS structure. (CDRLs B004 and B003)

### **2.6.2 Cost and Software Data Reporting**

The contractor shall prepare Contractor Cost Data Reports (CCDRs) and Software Resources Data Reports (SRDRs) in accordance with the JLENS Cost and Software Data Reporting Plan (CSDR) (Appendix C). These reports include Contract Data Summary Reports (DD Form 1921) IAW DI-FNCL-81565, Functional Cost Hour and Progress Report (DD Form 1921-1) IAW DI-FNCL-81566 and SRDR (DD Forms 2630-2,3) IAW DI-MISC-80508. The contractor may customize or tailor the DD Forms 2630-2,3 to be consistent with data it normally collects. The contractor shall propose the software measurement data within a Software Resources Data Collection Plan as part of the Software Development Plan. The contractor is responsible for flowing down the requirements of this paragraph to all subcontractors. (CCDR and CSDR Manuals are available from the Defense Cost and Resource Center (DCARC) website <http://dcarc.pae.osd.mil>.) (CDRL B026, B027, B048, B049)

### **2.6.3 Program Cost Estimate**

A Rough Order of Magnitude Cost for SDD program procurement, operations and sustainment of the JLENS Orbit, pertaining to the contractor portion only, shall be developed IAW DI-FNCL-80448. The estimate will contain the costs for the fire control radar, surveillance radar, processing station, communications, platform, system engineering, program management and system test and evaluation costs by fiscal year and with each component cost shown separately. The estimate shall contain the

002341

assumptions used in developing the estimate and shall not be requested more than twice a fiscal year. A maximum of 12 estimates may be required. (CDRL B005)

## 2.7 Data Management

The contractor shall establish and implement a data management process that shall reproduce, catalog, store and deliver data items. The contractor shall make available all technical and programmatic data as requested by the Government. The contractor shall maintain a data repository for classified storage and an efficient means to accomplish fast and accurate classified data retrieval until the contractor is notified by the contracting officer that the Government classified repository is available for use. The contractor shall use the Government unclassified Management Information System (MIS) Portal for delivery of unclassified data. The contractor shall notify the Government Point of Contact (POC) designated on the corresponding CDRL via email when data is posted to the classified repository and the unclassified MIS Portal. The contractor shall include the filename and path to the posted data in the email. The Government POC designated on the corresponding CDRL will provide notification of CDRL receipt to the contractor via email. The contractor shall deliver data that is usable on personal computers using Microsoft Windows Operating System and Microsoft Office Application Programs. [REDACTED]

(b)(3)(A)  
(i)&Title 10  
Sec 130 (a)(b)

[REDACTED] The contractor shall ensure all electronic deliveries are free from viruses. The contractor shall support and provide input IAW DI-MGMT-81453 to the Government development of acquisition documentation. (B006)

## 3 SYSTEM ENGINEERING

### 3.1 General

The contractor shall conduct systems engineering and provide a system design that meets the requirements of this SOW and MIS-PRF-55628. The contractor shall be responsible for total system integration and performance to include supporting the Government in assessing and optimizing total system reliability. The configurations of the system and the prime items shall be documented in the Orbit, System and Subsystem Design Description, as described in the Design Notebook IAW DI-IPSC-81432. The contractor shall translate the analysis and allocation of requirements from MIS-PRF-55628 and prepare the requirements, functional, allocated and product baseline design in preparation for program milestones. This engineering effort shall be based on and shall incorporate the contractor's systems engineering process that includes requirements analysis, functional analysis/allocation and design synthesis. Systems engineering shall include Orbit, system and subsystem engineering requirements allocation, specification production and configuration management, system analyses, tactical hardware,

002342

tactical software, tactical ground support equipment, risk management, radio frequency management, test requirements/plans, interface management and integration, safety, modeling and simulations, Cost as an Independent Variable (CAIV) and technical reviews and meetings. The contractor shall develop and submit a Systems Engineering Management Plan (SEMP) IAW DI-MGMT-81024 that clearly defines the JLENS systems engineering process. (CDRLs B008 and B044)

### **3.2 Systems Engineering Process**

The contractor shall apply the principles of systems engineering and implement the requirements of MIS-PRF-55628 during the design work. The systems engineering process shall include all aspects of the design to include: external interfaces, supportability, logistics feasibility, environmental requirements, manpower and personnel, human factors, safety, supply support, support and test equipment, technical documentation, computer resources support, packaging, handling, storage and transportability, hazardous material handling and disposition, facilities, Reliability, Availability and Maintainability and Training (RAM-T).

### **3.3 System Engineering Requirements Allocation**

The contractor shall develop a Specification Tree IAW DI-MISC-80508 for the JLENS Orbit to the equivalent of the Orbit, system and subsystem level. The contractor shall flow down the requirements from the MIS PRF 55628 to the equivalent of the Orbit, system and subsystem level. The Specification Tree shall be a top down diagrammatic representation of the breakdown of specification from the top specification (system performance specification) to lower level specifications (e.g. Prime Item Development Specification, Interface Control Document, Critical Item Development Specification, Software Requirements Specification, Source Control Document). The Specification Tree shall show the interdependency of specifications and form a convenient medium for the cataloging of applicable specifications. The contractor shall define and document the requirements in hardware IAW DI-SDMP-81465 and software IAW DI-IPSC-81433 specifications. The contractor shall develop Interface Control Documents for internal and external interfaces IAW DI-CMAN-81248. The contractor shall develop and maintain design documentation that will allow the contractor to replicate the JLENS hardware and software. The contractor shall document the design that meets the requirements and supporting analyses in a Design Notebook, such as the Engineering Design Notebook, and supporting documents such as a System Subsystem Design Document (SSDD), and with software design documents as identified in the Software Development Plan. The Design Notebook shall contain the key analyses and tradeoff studies conducted to support performance requirements, design and design tradeoffs. The Design Notebook shall include key parameters and assumptions used to determine hardware/software specification requirements. The Design Notebook shall contain a description of the system architecture that is being developed and

002343

fabricated. This description shall be provided in terms of visual descriptions, performance estimates and physical description. The Government shall have access, for use at Government facilities, to all requirements traceability database files, to include current and previous baselines. (CDRLs B007, B009, B029 and B010)

### 3.4 System Analyses

The contractor shall conduct performance analyses to support the system designs in accordance with the requirements of MIS-PRF-55628. [REDACTED]

[REDACTED] The contractor shall conduct analyses that establish the [REDACTED] Performance analyses and trade studies shall be completed and system design shall be updated prior to design reviews to reflect the results of the trade studies. All trade studies shall include CAIV. All analyses and trade studies generated under this section shall be included in the Design Notebook. (CDRL B008)

(b)(3)(A)  
(i)&Title 10  
Sec 130 (a)(b)

### 3.5 Producibility and Manufacturing

The contractor shall implement a producibility and manufacturing program that incorporates producibility and manufacturing into the design. This program shall include design strategies to address obsolescence, production readiness reviews, producibility planning and manufacturing technology insertion, associated with manufacturing and production. The contractor shall prepare Producibility Analysis Reports IAW DI-MGMT-80797. (CDRL B020)

#### 3.5.1 Production Engineering and Transition Planning

The contractor shall develop and implement a manufacturing strategy IAW DI-MGMT-80790 that facilitates a smooth and orderly transition from development to low rate production. (CDRL B041)

#### 3.5.2 Producibility

The contractor shall consider producibility in design decisions. Efforts to make the design more producible shall be directed toward achievement of cost goals and ensure manufacturing capabilities support the design. The contractor shall establish and maintain a system for measuring and reporting manufacturing costs.

#### 3.5.3 Manufacturing Plan

The contractor shall prepare a manufacturing plan IAW DI-MGMT-80004 for the most economical set-up based on anticipated Low Rate Initial Production (LRIP) and Full Rate Production (FRP) delivery rates. Manufacturing planning and tooling is based upon a planned LRIP rate of one system per year (FY12 and FY13), a planned FRP rate of one system per year (FY14 and FY15) and a

002344

FRP rate of two systems per year (FY16, FY17, FY18, FY19, FY20). The contractor will identify critical JLENS hardware in the manufacturing plan. The manufacturing plan shall describe and document the manufacturing processes for critical JLENS hardware and the plan to transition this hardware to LRIP. The term “critical hardware”, as used throughout section 3.5 of this SOW, is defined as hardware that fits one or more of the following criteria:

- a. utilizes manufacturing processes for which a facility or supplier does not have a proven history of continuous production at a volume similar to that planned for JLENS.
- b. utilizes manufacturing tests which are unique to JLENS.
- c. utilizes manufacturing processes such that conformance to requirements cannot be verified by inspection or test and if deviated from could affect product performance or safety. (CDRL B062)

#### **3.5.4 Production Qualification**

The contractor shall prove-out production representative manufacturing processes, test and inspection equipment, test procedures, work instructions and tooling for the JLENS critical hardware.

#### **3.5.5 Production Pilot Lines**

Pilot production lines shall be established for critical hardware items, as early as design maturity allows during the SDD Program. Pilot lines shall be validated prior to LRIP Production Readiness Review (PRR) and shall be used to manufacture hardware used for operational test. The Production / Process Verification (PPV) shall be performed on specified critical items to verify production processes are in accordance with the design, manufacturing, inspection and test documentation.

#### **3.5.6 Production Readiness Review (PRR)**

The contractor shall conduct PRRs, with Government participation, for all prime items and their associated critical hardware as defined in paragraph 3.5.3. The PRRs are a formal assessment of the contractor's ability to produce hardware and are the basis of a Government Production Readiness Assessment. The contractor shall develop presentation material IAW DI-ADMN-81373 and meeting minutes and reports IAW DI-ADMN-81505. (CDRL B014, B001) Accepted as Modified.

#### **3.5.7 Special Tooling (ST), Special Test Equipment (STE), Special Inspection Equipment (SIE) and Peculiar Support Equipment (PSE)**

The ST, STE, SIE and PSE designs shall represent production configuration and meet production rates as individual equipment or by duplication. During the design of the STE, SIE and PSE, consideration shall be given to standardization of common components to reduce spare parts required to support production. When ST/STE is used as a medium of inspection, the calibration, verification and re-verification procedures of the ST/STE shall be included in the quality program planning.

002345

### **3.5.8 Facilitization Plan**

The contractor shall develop and document IAW DI-MGMT-80004 the initial, and any follow-on, production facilitization requirements to support planned production rates. This includes all facilities, production equipment, test equipment and special equipment required to produce the JLENS Orbit. (CDRL B056)

### **3.6 Hardware Development**

The contractor shall design, develop, fabricate, assemble, integrate, test, evaluate, document, deliver and support all JLENS hardware. The contractor has the responsibility for ensuring that hardware designs and deliverables meet the requirements of the MIS-PRF-55628 and this SOW. The contractor shall complete and document the conceptual and developmental design drawings/models IAW MIL-DTL-31000 of all JLENS hardware IAW DI-DRPR-80651. The contractor shall ensure compatibility of all functional and physical interfaces. The contractor shall conduct trade studies and analyses as required to accomplish a design that is cost effective and reliable. The contractor is encouraged to use commercial products, processes and practices that will reduce development, production and operational support costs. The contractor shall develop an Acceptance Test Plan (ATP) for hardware critical items IAW DI-QCIC-80553. The contractor shall provide and maintain sufficient hardware to meet the requirements of this contract. The contractor shall be responsible for total support of the hardware, including all maintenance and provision of spare/repair parts. Beginning with each Prime Item CDR, the contractor shall develop and implement a closed-loop Failure Reporting, Analysis and Corrective Action System (FRACAS) for hardware failures IAW DI-RELI-81315. This system shall be used to resolve detected hardware problems. The contractor shall document each detected hardware problem and corresponding corrective action. This system shall include/incorporate company or commercial best practices and shall be of sufficient detail to meet the program requirements and ensure program success. (CDRLs B057, B042, and B061)

### **3.7 Software**

#### **3.7.1 Software Reuse**

The contractor shall report reuse metrics including but not limited to size, breakage factor by SI, identification of changes required and proposed validation of change in regular Government/contractor IPT meetings and Technical Interchange Meetings and as identified in the Software Development Plan (SDP).

002346

**3.7.2 Software Engineering Environment (SEE)**

The contractor shall establish, control and maintain configuration of a SEE. The SEE shall provide the facilities, hardware, software, firmware, procedures and documentation needed to perform software development and software testing at each development facility. Elements may include, but are not limited to, Computer Aided Software Engineering (CASE) tools, software development library, software development files, compilers, assemblers, linkers, loaders, operating systems, debuggers, simulators, emulators, documentation tools, database management systems, code analyzers, test case generators and path analyzers. Government shall have access, on a non-interfering and read-only basis, to all the elements of the SEE to support System Software Engineering, QA, CM and Independent Verification & Validation (IV&V) efforts.

**3.7.3 Software Development**

The contractor shall develop, document, submit and implement a SDP which includes a description of the SEE IAW DI-IPSC-81427. The contractor shall develop, document and deliver an Interface Requirement Specification IAW DI-IPSC-81434. The contractor shall document the requirements traceability for each software item in a Software Requirements Specification IAW DI-IPSC-81433. The contractor shall design, develop, integrate and deliver software that meets the requirements of the Software Requirements Specifications and Interface Requirements Specifications. The contractor shall deliver software including, but not limited to, all executable software, source files, build and make files and software support information developed under the JLENS Contract IAW DI-MCCR-80700. These deliveries shall include formal and interim software builds. Except as provided in the Limited/Restricted Rights Assertion Section of the contract, software source code developed under this contract will be in accordance with the Software Source Code License, Number JLENS-WSLA-01 (DFARS Clause 252.227-7014(b)(4)). Submission of any proprietary source code will be for JLENS Product Office analysis and IV&V purposes only, on an as required basis, in accordance with a mutually agreed upon no fee license. If the JLENS Product Office analysis and IV&V is performed by a non-Government entity, then a Non-Disclosure Agreement with that entity, specifically protecting the proprietary source code software will be put in place prior to submission of any source code material. The software binaries and source code shall be delivered with checksums to verify data integrity. The contractor shall develop and document the interface design in an Interface Design Description (IDD) for each Computer Software Configuration Item (CSCI) IAW DI-IPSC-81436. The contractor shall document the design decisions, algorithm descriptions and the architectural designs in a Software Design Description (SDD) Document for each CSCI IAW DI-IPS-81435. (CDRLs B011, B032, B029, B023, B021 and B033)

002347

#### **3.7.4 Software Testing**

The contractor shall develop, document and implement a software test plan IAW DI-IPSC-81438 for software testing. The contractor shall conduct unit testing for all new and modified software units. The contractor shall conduct unit or Software Item (SI) level testing for all safety critical and safety related software. The contractor shall conduct unit integration testing for all software units. The contractor shall document the specific unit and unit integration test cases and related test procedures. The contractor shall verify all of the requirements in the Software Requirements Specifications (B029), each in accordance with the specified qualification method. The contractor shall invite the Government to witness all software qualification testing. The contractor shall document and deliver a Software Test Description (STD) IAW DI-IPSC-81439 for each release of a CSCI. The STD describes the test preparations, test cases, test procedures and method to be used to perform Software Qualification Testing (SQT) of each release of a CSCI or a software system or subsystem. The contractor shall conduct software qualification testing IAW the STD for each software release. All SQT, or other software test events shall be performed using tactical representative hardware and test tools, where available. The contractor shall provide evidence to the Government to substantiate test tools as a valid engineering representation of system behaviors. The contractor Software Quality Assurance (SQA) personnel shall witness or audit all SQT events. The contractor shall document and deliver a Software Test Report IAW DI-IPSC-81440 for each release of a CSCI. The Software Test Report is a record of the testing performed on a CSCI, a software system or subsystem or other software-related item. (CDRLs B035, B036 and B037).

#### **3.7.5 Software Version**

The contractor shall develop and maintain software documentation and code that will allow the contractor to replicate and modify the JLENS Software at each phase of the release process, utilizing a version control and tracking system in a Software Version Description (SVD) document for each release of a CSCI. The SVD shall be prepared IAW DI-IPSC-81442. The contractor shall document the exact version of each software release. The contractor shall include in the documentation the descriptions of the capabilities and limitations of each software version, the patches and fixes from previous versions and the completed and outstanding software problem reports. The contractor shall provide maintenance support for all software throughout the continuance of the contract. (CDRL B024)

#### **3.7.6 Software Installation**

The contractor shall develop, maintain and deliver a Software Installation Plan IAW DI-IPSC-81428 to include procedures for software installation, software update procedures, software operations,

002348

database initializations, prime item interfaces and other system specific information necessary to ensure the JLENS Orbit is operational. (CDRL B038)

### **3.7.7 Software Reviews**

The contractor shall perform Software Requirements Review (SRR), Software Critical Design Review (SCDR) and Software Test Readiness Review (STRR) for the following software builds: FCR Builds 2 and 3, SuR Builds 2 and 3, CPG Builds 3 and 4 and platform final software build.

#### **3.7.7.1 Software Requirements Review**

The contractor shall host one or more SRRs IAW the program schedule to review the development activity and its output in the context of the overall system and platform requirements. The SRR shall provide a formal transition from the project requirements analysis and planning phase into development. The contractor shall assure the Government that all the affected requirements have been identified and the proposed development project has been sufficiently planned and documented to the Government's satisfaction. All software CSCIs shall be identified and WBS elements and metrics reporting for each software CSCI level shall be addressed. The first SRR for a prime item shall be conducted prior to or in conjunction with the prime item PDR. The contractor shall develop presentation material IAW DI-ADMN-81373 and meeting minutes and reports IAW DI-ADMN-81505. (CDRL B014 and B001)

#### **3.7.7.2 Software Critical Design Reviews**

The contractor shall host one or more software CDRs (SCDR) IAW the Program Software Release Schedule, to review the detailed design and operational and support documents to demonstrate to the Government's satisfaction that the detailed design satisfies the system, subsystem and unit level software requirements; the simulations and models accurately reflect the system, subsystem and unit level software performance parameters; the external ICDs and internal IDDs accurately reflect the system interfaces as dictated by the system and sub-system specifications; and the software interfaces and software engineering documentation accurately reflect and are in compliance with the ICDs hardware/software interface requirements. The contractor shall develop presentation material IAW DI-ADMN-81373 and meeting minutes and reports IAW DI-ADMN-81505. (CDRL B014 and B001)

#### **3.7.7.3 Software Test Readiness Reviews**

The contractor shall host one or more software TRRs (STRRs) IAW the program software release schedule in support of system and subsystem software qualification tests. The reviews shall address test objectives, schedules, safety, configuration, data requirements and suitability of the test hardware and/or software to support the test objectives IAW the STP. All test procedure steps shall be reviewed to ensure

002349

each software requirement has been demonstrated. The contractor shall provide adequate assurance that the SQT shall be performed using tactical representative hardware where available. Results of STRR must be reviewed and approved by the Government prior to proceeding to SQT. The contractor shall develop presentation material IAW DI-ADMN-81373 and meeting minutes and reports IAW DI-ADMN-81505. (CDR B014 and B001)

### **3.7.8 Software Failure Reporting and Corrective Action**

The contractor shall develop and implement a closed-loop FRACAS for all failures occurring during system debugging, checkout, engineering tests and contractor maintenance. This system shall be used to resolve detected software problems once each prime item CDR has been conducted. The contractor shall document each detected software problem and corresponding corrective action once each prime item CDR has been conducted. This system shall incorporate company or commercial best practices and shall be of sufficient detail to meet the program requirements and ensure program success. (CDRL B061)

### **3.7.9 Management Indicators**

The contractor shall collect, interpret, use and report software management indicators as described in the SDP. The contractor shall address software management indicators and corrective actions at the program reviews. The contractor shall develop presentation material IAW DI-ADMN-81373. (CDRL B014)

### **3.7.10 Firmware**

The contractor shall identify all developed and / or modified firmware, its location within the JLENS system, its associated functionality and a safety analysis including rationale and traceability to any related hazard(s). Rationale shall be provided to exclude the software associated with these devices from the software category. The contractor shall develop software for programmable hardware identified as software IAW the SDP and shall identify these items IAW DI-IPSC-81435. Otherwise, the contractor shall develop the software for programmable devices identified as hardware IAW internal best practices. These best practices shall be presented to the Government for review. (CDRL B033)

### **3.8 Interface Management and Integration**

The design shall be modular to the maximum extent possible and shall facilitate substitution of alternate payloads from a separate source. This requirement shall be satisfied by submission of the JLENS System Interface Control Document (ICD). The ICD outline will be such that the 'as designed' interface between the payload and platform can be separately delivered upon request. (CDRL B010)

002350

### 3.9 Support to Software IV&V and Other Efforts

The contractor shall support the establishment of the Government Software Integration Lab (SIL), modeling and simulation efforts, as well as the government managed Orbit-level software assessments and SIV&V testing. This support will include support to the weekly status teleconferences, accepting and dispositioning trouble reports and providing assistance in software configuration and installation within the Government SIL. This software support will not exceed 1.5 full time equivalents through the end of the SDD contract..

### 3.10 Safety

The contractor shall conduct system safety engineering and use the Government provided Hazard Tracking System (HTS) database in support of all design, development and test activities. The HTS database, including all data and records, shall be the property of the Government. The contractor shall conduct a System Safety Program (SSP) consistent with MIL-STD-882D, standard practice for system safety and as guidance the JLENS System Safety and Health Management Plan (SSHMP). Hazards shall be defined as outlined in MIL-STD-882D. The contractor shall prepare Safety Assessment Reports (SAR) IAW DI-SAFT-80102. The contractor shall prepare the System Safety Program Plan IAW DI-MGMT-80004. The contractor shall ensure that subcontractor's safety plans are in conformance with the contractor's safety plan. The safety design features of all electronic equipment shall be implemented using MIL-HDBK-454A as guidance. The aerostat shall meet appropriate safety requirements for airborne platforms as specified by the Federal Aviation Administration (FAA). The JLENS Orbit hardware and software, to include data displays, shall be designed to optimize the functionality and efficiency of operations for sustained periods of high activity in accordance with MIL-STD-1472F, as applicable. The contractor shall conduct a Human Factors Engineering (HFE) Program using MIL-HDBK-46855 as guidance. All hazards, to include single point failures, single point human errors and any combination of failures and human errors shall be eliminated through design, or mitigated to a Government acceptable risk level as defined in MIS-PRF-55628 paragraph 3.15.1 and MIL-STD-882D. Throughout the life cycle of the JLENS Orbit, the hardware and software shall mitigate all hazards that could cause personal injury, equipment damage or have an environmental impact. The Software Safety Program shall be implemented using MIL-STD-882. The Joint Software System Safety Committee (JSSSC) Software System Safety Handbook shall be used as guidance. (CDRL B012 and B045)

### 3.11 Modeling and Simulation

The contractor shall develop models and simulations under the guiding tenets of Simulation and Modeling for Acquisition, Requirements and Training (SMART). The SMART is defined in Department of the Army Pamphlet 5-12, the "Planning Guidelines for SMART" and the "SMART Execution Plan."

002351

These documents are maintained by the Army Model and Simulation Office (<http://www.amso.army.mil/smart/documents/guidelines/>). The ultimate goal of SMART is to provide systems with greater utility at lower cost, minimizing risk and reducing operations and sustainment budgets. The contractor shall prepare a Simulation Support Plan IAW DI-MGMT-80004. (CDRL B046)

### **3.11.1 Engineering Modeling and Simulations**

The contractor shall provide access to simulation tools that will be used by the contractor for requirements verification. The contractor shall provide simulation source code, executables and available documentation used for contractor verification and validation of the simulation IAW DI-IPSC-81441. The contractor shall make simulation results available for Government review IAW DI-MISC-80048. (CDRL B034 and B013)

### **3.11.2 System Integration Laboratory (SIL)**

The contractor shall develop and maintain a SIL consisting of simulations, models, hardware and software. The SIL shall support the integration of hardware and software. The contractor shall develop and submit a SIL Validation Plan IAW DI-MGMT-80004 that describes how the contractor validates all SIL capabilities used in the verification of prime item hardware and software performance. (CDRL B053)

## **3.12 Technical Reviews and Meetings**

### **3.12.1 Design Reviews**

The contractor shall conduct SDD Program contract milestone reviews to include, but not limited to, the System Requirements Review (SRR), System Functional Review (SFR), Preliminary Design Reviews (PDRs) and Critical Design Reviews (CDRs) at the contractor's facilities. At each milestone review, the contractor shall address Orbit and system level design integration and shall summarize each prime item's role within the system. Contractor conducted Subsystem Readiness Reviews (i.e., Prime Item PDRs and CDRs) shall include Government participation. The contractor shall develop presentation material IAW DI-ADMN-81373 and meeting minutes and reports IAW DI-ADMN-81505. (CDRLs B014 and B001)

### **3.12.2 Design Review Entrance Criteria**

To facilitate an event driven approach to design reviews, the contractor in collaboration with the Government shall define the process and timeline for developing entrance criteria for all planned reviews in the SEMP.

002352

**3.12.3 Design Review Exit Criteria**

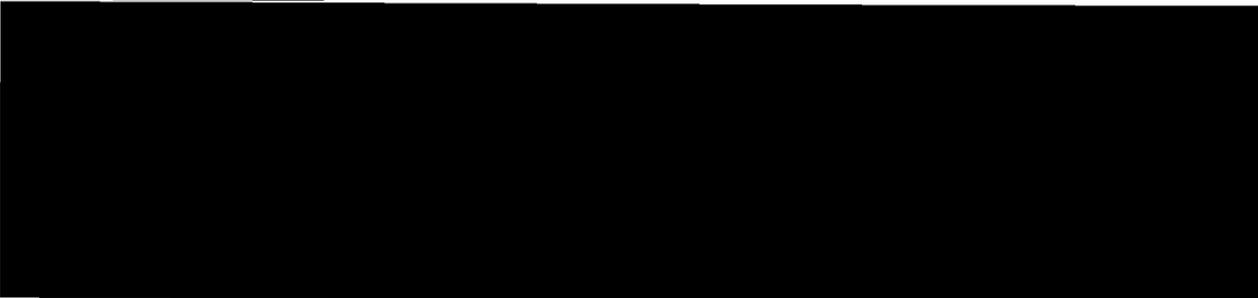

To facilitate an event driven approach to design reviews, the contractor, in collaboration with the government, shall define the process and timeline for developing exit criteria for all planned reviews in the SEMP.

**3.13 INFORMATION & TECHNOLOGY ASSURANCE**

**3.13.1 General**

The JLENS Orbit will maintain an appropriate level of confidentiality, integrity, authentication, non-repudiation and availability that reflect a balance among the importance and sensitivity of the information; documented threats and vulnerabilities; the trustworthiness of users and interconnecting of other systems; and the impartment to connectivity and/or the impact of destruction or loss of the system.

**3.13.3 Information Assurance (IA)**

The contractor shall support the Government managed IA Program IAW AR 25-1, Chapter 5 and AR 25-2. The contractor shall implement DoDI 8500.2 ensuring confidentiality, integrity and availability throughout the JLENS SDD Program. The contractor shall implement the JLENS IA Strategy dated 25 April 2005. The contractor shall appoint a primary and alternate POC. Each POC shall become familiar with applicable documents such as: DoD, Army Directives Pamphlets and regulations on IA and participate in JLENS sponsored IPTs. The contractor shall send IA appointment letters showing the POC names to the JLENS Product Office annually and certify that the individuals have conducted self study on applicable directives on IA (or within thirty (30) days of a POC change). The contractor shall ensure that all IA enabled products incorporated into JLENS SDD Program to perform security functions comply with the evaluation and validation requirements of the National Security Telecommunications and Information Systems Security Policy 11, in accordance with DoDD 8500.1. The contractor shall comply with paragraph 4.17 of DoDD 8500.1. IA enabled products that have IA functionality that is not used shall have that functionality disabled.

002353

**3.13.4 DoD Information Assurance Certification and Accreditation Process (DIACAP)**

The contractor shall comply with DIACAP in accordance with OSD/CIO Memo July 6, 2006 Subject: Interim Department of Defense Information Assurance Certification and Accreditation Process Guidance. The contractor shall assist the Government in all applicable phases of the Certification and Accreditation (C&A) process. The contractor shall be an active participant in the JLENS IA Working Group to provide technical assistance during the C&A process.

**3.13.5 DoD Core Architecture Data Models (CADM)**

The DoD Architecture Framework (DoDAF) defines a common approach for DoD architectures. The DoD CADM is the underlying set of products within DoDAF. The CADM incorporates the term integrated architectures and is comprised of a number of specific models, definitions and views as specified in the DoDAF documentation and are categorized into operational views, system views and technical views. The contractor shall support the Government managed development of the DoDAF documentation to further define and implement the system views and technical views models so that all data entities shall be fully attributed and ensure the use of DoD standard data elements. The contractor shall support the Government in further definition and specific analysis of information requirements essential to support development of essential architecture products contained in the JLENS Information Support Plan.

**3.13.6 Transient Emission of Pulse Surveillance Technology (TEMPEST)**

The JLENS System is a transportable system in a tactical environment. The contractor shall follow Government regulation NSTISSAM TEMPEST / 2-95, 2-95a, DoDD S-5200.19 and Memorandum Number 20063301, US Army TEMPEST Office CTTA, as guidance. Deviation from these regulations will require coordination through the Government to the cognizant CTTA. The US Army TEMPEST Office will fully address any additional technical guidance or interpretation of the JLENS TEMPEST design as requested by the contractor and approved through the JPO.

**3.14 DoD Information Technology Standards Registry (DISR)**

The contractor shall maintain the JLENS technical architecture profile in accordance with DISR. The contractor shall develop and deliver IAW DI-MISC-80508 an implementation strategy that details how and to what extent the JLENS development will comply with the provisions of the applicable portion(s) of the DISR. The contractor will provide inputs to the Government for the Government to include into the Government managed DISR database. Government approval is required prior to any deviations from the DISR requirements (DISR replaced the Joint Technical Architecture). (CDRL B043)

002354

**3.15 DoD Net-Centric Data Strategy**

The contractor shall support the implementation of the DoD Global Information Grid (GIG). The GIG is the globally interconnected, end-to-end set of information capabilities associated processes and personnel for collecting, processing, storing and disseminating information for the warfighter. The contractor shall use, develop or refine metadata in accordance with the Defense Information Systems Agency established DoD Metadata Registry and based on the International Organization of Standards 11179 Specification for metadata registries. The contractor shall maintain a JLENS Metadata Registry, which for DoD currently incorporates existing resources such as the DoD Extensible Markup Language (XML) Registry, the Defense Data Dictionary System and commonly used reference sets. The contractor shall integrate other resources such as messaging formats, symbology, ontologies and transformation services.

**3.16**

The contractor shall provide a system design that meets the requirements of this SOW and MIS-PRF-55628 and is consistent

**4 RISK MANAGEMENT**

The contractor shall develop and implement a Risk Management Plan IAW DI-MGMT-80004 and processes that identifies and prioritizes risk area, and conduct mitigation effort in coordination with the Government to reduce and/or eliminate program risks. The Risk Management Plan should address, but not be limited to, requirements, technology, design and engineering, manufacturing, support, cost and schedule. (CDRL B058).

**5 TEST AND EVALUATION**

**5.1 General**

The contractor shall develop and conduct a contractor Test and Evaluation (T&E) Program, develop and participate in a combined Government/contractor developmental flight T&E Program and

0023 55

support Government only T&E programs. The contractor's T&E program shall demonstrate that the requirements contained in MIS-PRF-55628 have been verified. The contractor shall maintain traceability from MIS-PRF-55628 to the contractor generated orbit, system and subsystem requirements when defining or developing required tests. The contractor shall verify the hardware and software requirements included in the JLENS system and subsystem specifications. The contractor shall submit a final report IAW DI-NDTI-80809 for any requirement that has been verified by analysis. The contractor shall allow Government monitoring and/or participation in contractor and subcontractor tests and demonstrations. The contractor shall provide the Government electronic notification a minimum of ninety six (96) hours prior to initiation of conduct of contractor or subcontractor, subsystem and system, tests that have Government approved test plans. The contractor shall perform component and subsystem level testing to include prime item tests, integration tests and system tests and/or demonstrations. The contractor shall conduct Test Readiness Reviews (TRRs) prior to system ground tests, elevated tests and system flight tests. The contractor shall submit agendas IAW DI-ADMN-81373 and minutes IAW DI-ADMN-81505 for the TRRs. The contractor shall be capable of reducing and analyzing data recorded during Orbit and system testing within 48 hours or 24 hours if target telemetry data is made available by the Government within 8 hours of test completion, to expedite test schedule decision planning. The contractor will pre-plan and coordinate periods of use of the Government operated test ranges with the JLENS Product Office. The Government will accommodate 24/7 operations as needed to support requirements testing in accordance with range availability and limitations. (CDRLs B015, B016, B014, and B001)

### **5.2 Test Plans, Reports and Reviews**

The contractor shall prepare and submit test plans IAW DI-NDTI-80566 and test reports IAW DI-NDTI-80809 for Orbit, system, subsystems and components. The Master Test Plan shall address the entire test program including performance and integration testing and demonstrations at the contractor/subcontractor facilities and at Government field test sites. The contractor shall prepare and submit a test report for each test event for which a test plan is prepared. (CDRLs B015 and B016)

### **5.3 Stimulator Integration**

The contractor shall support the integration of the JLENS Stimulator with the JLENS Orbit. The contractor shall provide support in the Government performance evaluation of the JLENS Fire Control and Surveillance Systems using the JLENS Stimulator to conduct Simulation only and Simulation Over Live testing. The contractor shall support integration testing of the JLENS stimulator at the Surveillance and Fire Control SILs. Contractor support for these activities will not exceed 2.4 full time equivalents. The contractor shall provide an Interface Control Document IAW DI-CMAN-81248 to

002356

define the integration of the stimulator into the JLENS Surveillance and Fire Control Systems. (CDRL B010)

#### 5.4 System Tests/Demonstrations

If requested under the changes clause of this contract, the contractor shall support the planned Government events such as [REDACTED] to demonstrate incremental and full system capability.

(b)(3)(A)  
(i)&Title 10  
Sec 130 (a)(b)

#### 5.5 Government Test Support

The contractor shall support the Government in the conduct of JLENS Government tests IAW MTP. The contractor shall be responsible for providing and maintaining test articles (hardware and software) at the Government designated test sites. Contractor support in the case of Government E3 and Environmental Testing shall include review of test plans and test procedures, personnel, test fixtures, test equipment, the ability to determine functionality of the test item/s during and/or after each test event and a repair plan schedule consistent with the test schedule. The contractor shall support Government conducted TRRs. Government testing includes engineering tests and tests involving the use of soldiers. The contractor shall assist the Government with planning, collection, reduction, analysis and reporting of test data. These tests may be conducted concurrently with contractor tests.

#### 5.6 Models and Simulations Verification, Validation and Accreditation (VV&A) Support

The contractor shall support Government managed VV&A.

#### 5.7 Interoperability Test Program

The contractor shall provide level of effort support to the Government conducted Interoperability Testing Program 1 full time equivalent (FTE) person for the period through end of SDD contract.

## 6 SPECIALTY ENGINEERING

### 6.1 Logistics

#### 6.1.1 Logistics Program

The contractor shall continue to develop, update and maintain the JLENS Logistics Program in accordance with Army Regulation 700-127. The contractor's logistics program shall use these iterative processes that provide for early and continued logistics influence on design to enhance supportability: Identify and verify requirements and associated documentation for support of testing, minimize future operations maintenance costs; identify and resolve logistics issues early in the program to include

002357

Manpower Personnel Integration (MANPRINT) and training issues, document pre and post-fielding support requirements; support fielding and deployment; and implement performance-based support.

#### **6.1.2 Logistics Engineering**

As an integral part of the systems engineering process, the contractor shall conduct logistics engineering to satisfy the requirements of MIS-PRF-55628 and to minimize the total Operation and Support (O&S) costs of the JLENS SDD Program plus all of its associated Government Furnished Property (GFP) requirements. Logistics engineering shall include all the elements of Integrated Logistics Support (ILS). Within the JLENS support structure, the contractor shall emphasize maintainability, availability and transportability engineering. The contractor shall develop a two-level support system (field and sustainment) for JLENS peculiar items. For GFP, the contractor shall consider the implications of the compatibility of existing logistics support structures (i.e. 3-level support systems) in the over-all context of engineering the JLENS support system.

#### **6.1.3 Supportability Analysis**

The contractor shall establish and conduct a Supportability Analysis (SA) Program in accordance with MIL-HDBK-502 that integrates and optimizes ILS/MANPRINT requirements within system performance requirements (including GFP) for the life-cycle of the system. The SA Program shall be used to generate source data for the development of ILS/MANPRINT requirements, evaluation of the effect of design alternatives on support costs and operational readiness, assessment of logistics risks, translation of hardware design due to logistics support requirements, determination of logistics design constraints/impacts, determination of the most efficient and effective logistics resources for operation and support the JLENS Orbit and development of the data for logistics products (training, spares, support equipment, technical manuals, etc.).

#### **6.1.4 Level of Repair Analysis**

The contractor shall conduct a Level of Repair Analysis (LORA) in accordance with MIL-HDBK-502 to define optimal maintenance planning and engineering in accordance with MIL-HDBK-470A. The contractor shall record the results of LORA in the Logistics Management Information (LMI) IAW DI-MISC-80508. (CDRL B050)

#### **6.1.5 Trade-Off Analysis**

The contractor shall perform Trade-Off Analysis (TOA) of alternatives to reduce the total logistics footprint of the JLENS Orbit (plus GFP) and the size/scope of the total GFP required to operate, support, transport and deploy the system. The contractor will deliver the TOA IAW DI-MISC-80508. (CDRL B051)

002358

**6.1.6 Logistics Management Information**

The contractor shall continue to develop and maintain the LMI Program per MIL-PRF-49506 which documents the output of all supportability analyses in the Logistic Management Information (LMI) Data Products IAW DI-ALSS-81529 and the LMI Summaries IAW DI-ALSS-81530. The contractor shall provide on-line access, to include ad hoc query capability, to the LMI database. The contractor shall provide all supportability data in formats compatible with national standard databases and the LMI performance specification. The contractor shall provide LMI database training to those individuals identified by the JLENS Supportability IPT. (CDRLs B054, and B055)

**6.1.7 Integrated Product Team**

The contractor shall participate in Government, contractor and Government/ contractor integrated product teams and sub-product teams to identify and disseminate issues to the logistics community.

**6.1.8 Logistics Database**

The contractor shall establish and maintain current, web-based and on-line logistics database functionality to document maintenance and/or supply actions, training tasks and action(s) taken as appropriate during government tests and demonstrations, tests utilizing Government resources, exercises and during preparation for fielding. The contractor shall provide the Government on-line access to this database.

**6.1.9 Integrated Support Plan**

The contractor shall develop, update, deliver and implement the Integrated Support Plan (ISP) IAW DI-MGMT-80004, to reflect the JLENS System Development and Demonstration Program and schedule. The contractor shall use the Department of the Army Pamphlet 700-56 and the JLENS Supportability Strategy as the foundation for the ISP. The ISP shall include logistics events and schedules and the following sub-plans. (CDRL B017)

**6.1.9.1 Maintenance Plan**

The contractor shall develop, update and submit the maintenance plan IAW DI-MGMT-80004 as a sub-plan to the ISP. The maintenance plan shall include specific information and schedules on built-in-test/built-in-test equipment, failure analysis/diagnostic/prognostics, on-line-diagnostics, on-site resolution of software anomalies, levels of maintenance, personnel, parts/provisioning, tools facilities, military occupational specialties/skills, technical documentation (such as interactive electronic technical manuals, or logistics data bases) and reliability, availability and maintainability characteristics. (CDRL B017)

002359

#### **6.1.9.2 Supply Plan**

The contractor shall update and submit the supply plan IAW DI-MGMT-80004 as a sub-plan to the ISP. The supply plan shall be developed to support JLENS Orbit during testing and in the field.

**(CDRL B017)**

#### **6.1.9.3 Equipment Plan**

The contractor shall develop, update, and submit the equipment plan IAW DI-MGMT-80004 as a sub-plan to the ISP. In addition to the requirements of DA PAM 700-56, the equipment plan shall include specific information on costs, descriptions, quantities and delivery dates for all Commercial Off-The-Shelf (COTS) and Government Off-The-Shelf (GOTS) equipment. **(CDRL B017)**

#### **6.1.9.4 Manpower Personnel Integration Management Plan**

The contractor shall develop, update and submit the MANPRINT Management Plan IAW DI-MGMT-80004 as a sub-plan to the ISP. The plan shall include specific MANPRINT requirements to deploy, transport, operate and support the JLENS Orbit plus its GFP and specific information concerning the analysis and handling of MANPRINT issues and meet the requirements of Army Regulation 602-2.

**(CDRL B017)**

#### **6.1.9.5 Training Plan**

The contractor shall use Training and Doctrine Command Regulation 350-70 to develop, update and submit a Training Plan IAW DI-MGMT-80004 as a sub-plan to the ISP. The training plan shall include, as a minimum, costs, length of classes, places of training, time of training, material / hardware / device requirements, security, personnel, facilities and prerequisites to develop training documentation for taught classes and to train testers and users for tests and fielding. The contractor shall conduct all training required for system test(s) and fielding and will employ interleaved test/FDE training. This includes, but is not limited to, instructor and key personnel (tester/instructor), Maintainer, Operator, Flight Director and Staff Planner's course(s). The contractor shall deliver the majority of training materials in electronic format employing standard software formats as listed in the contract, to minimize printing costs and storage requirements. The Government will supply computers and computer software to read the electronic training material. In the event the contractor delivers training materials utilizing non-standard software format, the contractor will provide the Government with any non-standard software required for review of the training material. **(CDRL B017)**

002360

#### **6.1.9.6 Deployment Plan**

The contractor shall develop, update and submit a deployment plan IAW DI-MGMT-80004 as a sub-plan to the ISP. The deployment plan shall include specific information concerning resources to deploy system(s) and include a load plan for planned modes of transit. (CDRL B017)

#### **6.2 Product Assurance**

The contractor shall implement a quality system that meets the requirements of the applicable International Organization for Standardization 9000 series. The contractor shall develop, document, submit and implement a product assurance plan IAW DI-MGMT-80004. The product assurance plan shall address the functional areas of software quality assurance and hardware quality assurance (including corrosion prevention and control), reliability, maintainability and parts control. (CDRL B028)

##### **6.2.1 Corrosion Prevention and Control (CPC)**

The contractor shall develop and implement a corrosion prevention and control plan IAW DI-MGMT-80004 that is in compliance with the JLENS Government Corrosion Prevention Plan. (CDRL B028)

##### **6.2.2 Environmental Kits**

The contractor shall minimize the use of environmental kits when satisfying the temperature requirements of the JLENS Orbit. The contractor shall obtain Government approval in advance of planned use for all kits. The contractor drawings shall document environmental kits and list additional authorized item(s) in the appropriate technical manuals.

##### **6.2.3 Plastic Encapsulated Microcircuits (PEM)**

The contractor shall develop and implement a PEM Plan that includes the generation of a list of PEM devices used on contractor manufactured JLENS parts and the generation of a list of PEM devices used on JLENS COTS parts for all COTS assemblies where the contractor is granted access to the COTS assemblies' parts list. The contractor shall provide status reporting at JLENS Quarterly Program Reviews.

##### **6.2.4 Software Quality Assurance (SQA)**

The contractor shall conduct an SQA Program for JLENS software development in accordance with ISO 9000. The contractor shall include the SQA Program in the JLENS Product Assurance Plan by identifying SQA tasks as well as a narrative regarding the approach of those tasks. The contractor SQA Program shall provide for traceability of system/subsystem/software requirements to and from all test processes and procedures.

002361

### 6.3 Environmental Management

The contractor shall comply with all applicable federal, state and local laws, regulations and guidelines. The contractor shall develop, document, provide and implement a Hazardous Materials Management Program (HMMP) Plan IAW DI-MGMT-81398. The contractor shall implement the HMMP in accordance with the Government HMMP Plan and National Aerospace Standard (NAS 411). The contractor shall request approval to use substances identified in the Environmental Protection Agency 17 list (available at <http://www.epa.gov/opptintr/3350/33finb1.htm>) only if there is no other viable material. The contractor shall not use any Class I Ozone Depleting Chemical/Ozone Depleting Substance (ODC/ODS) (identified at <http://www.epa.gov/ozone/ods.html>) in the manufacture of items required by this SOW unless a waiver is obtained from the government. The contractor shall provide immediate notification of any proposed hazardous material mitigation/elimination efforts that may adversely impact schedules and/or cost performance. The contractor shall notify the contracting officer immediately upon failure to comply with any regulatory requirements. The contractor shall provide a HMMP Report IAW DI-MISC-81397. (CDRLs B018 and B022)

### 6.4 Configuration Management (CM)

The contractor shall prepare and submit a CM Plan IAW DI-MGMT-80004 that provides a single coordinated Configuration/Data Management (CDM) process and compatible CDM tools to manage the configurations produced under this contract. The contractor shall implement a CDM System that shall control the configuration of all components and interfaces of the JLENS Orbit to include prime items/components produced by subcontractors. The contractor's CDM Systems shall ensure that each deliverable specification prepared is IAW MIL-STD-961E. The contractor's CDM System shall address the following elements: Administration, configuration identification and control, configuration status accounting, configuration audits, management of digital data and subcontractor CM. The contractor shall prepare an Engineering Change Proposal (ECP) IAW DI-CMAN-80639, Engineering Release Record (ERR) IAW DI-CMAN-80463 and Notice Of Revision (NOR) IAW DI-CMAN-80642 for proposed changes to contractor furnished documents that are under Government configuration control. The CDM process shall include a configuration control board for approving ECPs. The Government shall be a member of the contractor's ECP Configuration Control Board (CCB). The contractor shall utilize the Request for Deviation (RFD) process IAW DI-CMAN-80640. (CDRLs B047, B039, B060, B040, and B059)

002362

**6.4.1 Configuration Management Audits**

The contractor shall support Government/contractor functional configuration audit to verify that the design meets or exceeds all system performance requirements, including requirements contained within MIS-PRF-55628 and physical requirements.

**6.4.2 Subcontractor Configuration Management Audits**

The contractor shall support and conduct periodic audits of processes and procedures in-house and at subcontractor facilities to ensure that requirements are flowed accurately and in a timely manner to manufacturing operations and that the deliverable product as-built definition is accurately reported.

**7 OPERATIONS SECURITY (OPSEC)**

The contractor shall update, provide and implement the OPSEC Plan IAW DI-MGMT-80934. The contractor shall update the OPSEC Plan in accordance with specific instructions of the Contracting Officer/Contracting Officer Representative for Security and AR 530-1. The contractor shall adhere to the approved OPSEC Plan and the security requirements of the DD Form 254 of this contract. **(CDRL B019)**

SUMMARY OF CHANGES

1. SECTION H – SPECIAL CONTRACT REQUIREMENTS is revised as follows:

Paragraph H-19, INCENTIVE FEE STRUCTURE AND PAYMENT FOR CLIN 0017, SYSTEM DEVELOPMENT AND DEMONSTRATION (SDD), subparagraph c., is revised as follows:

a. General.

SubCLIN 0017AA, System Development and Demonstration (SDD), is a cost-plus-incentive-fee (CPIF) Line Item with cost and schedule incentives as described below. Paragraph H-19(b) applies only to the Cost Incentive and Paragraph H-19(c) applies only to the Schedule Incentive. The contract price amount of \$1,575,994,992 includes a target cost of \$ [REDACTED] of cost and [REDACTED] of facilities capital cost of money) and a target incentive fee of [REDACTED] which is [REDACTED] of target cost less facilities capital cost of money. (b)(4)

b. Cost Incentive.

(1) The target fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED] an amount equal to [REDACTED] (b)(4)

(2) The maximum fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED] an amount equal to [REDACTED]

(3) The minimum fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED] an amount equal to [REDACTED]

(4) Fee will be adjusted for actual cost that is less than or more than the target cost stated above using a share ratio [REDACTED] Government [REDACTED] Contractor for actual costs less than the target cost, and a ratio of [REDACTED] Government / [REDACTED] Contractor for actual costs greater than the target cost range applied according to Paragraph H-19(c)(1). (b)(4)

(5) Nothing stated in this clause shall take precedence over the clause 52.216-10 - Incentive Fee contained in this contract.

c. Schedule and Performance Incentive.

(1) A maximum [REDACTED] "flat zone" will be established at the target cost value of [REDACTED] with the conduct of milestones below. The "flat zone" over which the contractor will earn target fee is for eligible costs from [REDACTED] to [REDACTED] once the program milestones set forth below are conducted. (b)(4)

(a) [REDACTED] of the maximum benefit of the "flat zone", earned by the conduct of the SDD System Functional Review NLT 2nd Quarter, Fiscal Year 2007. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned the "Flat Zone" schedule incentive of [REDACTED]). Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the conclusion of the contract. Reference letter [REDACTED] (b)(4)

(b) [REDACTED] of the maximum benefit of the "flat zone", earned by the conduct of SDD Orbit Critical Design review NLT 2nd Quarter, Fiscal Year 2009. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned the "Flat Zone" schedule incentive of [REDACTED]). Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the conclusion of the contract. Reference letter, [REDACTED] (b)(4)

002386

(c) [REDACTED] of the maximum benefit of the "flat zone", earned by the conduct of the Developmental Test 1 (DT-1) in accordance with the criteria set forth in Section J attachment entitled Flat Zone Performance Criteria for JLENS SDD Contract, Section H-19(c), dated 11/1/11. (b)(4)

(d) [REDACTED] of the maximum benefit of the "flat zone", earned by the conduct of the Electromagnetic Environmental Effects (E3) Testing in accordance with the criteria set forth in Section J attachment entitled Flat Zone Performance Criteria for JLENS SDD Contract, Section H-19(c), dated 11/1/11. (b)(4)

(e) [REDACTED] of the maximum benefit of the "flat zone", earned by the conduct of the Integrated Fire Control Event in accordance with the criteria set forth in Section J attachment entitled Flat Zone Performance Criteria for JLENS SDD Contract, Section H-19(c), dated 11/1/11. (b)(4)

(f) [REDACTED] of the maximum benefit of the "flat zone", earned by the conduct of the Functional Configuration Audit (FCA) #1 in accordance with the criteria set forth in Section J attachment entitled Flat Zone Performance Criteria for JLENS SDD Contract, Section H-19(c), dated 11/1/11. (b)(4)

(3) For Earned Value and cost reporting purposes, the target cost value of [REDACTED] will be used. (b)(4)

d. Changes issued under FAR 52.243-2, Changes - Cost Reimbursement

In the event of a change issued under FAR 52.243-2, Changes - Cost Reimbursement, it is agreed that changes to the performance and schedule incentive may be considered a part of the equitable adjustment. In the event that any Options to CLIN 0017 are added and exercised, the incentive fee for cost and schedule/performance applicable to the Option will be incorporated in accordance with the incentive fee structure of this provision.

**SUMMARY OF CHANGES**

1. SECTION B - SUPPLIES OR SERVICES AND PRICES

CLIN 0030

The total cost of this line item has increased by \$5,747.00 from \$53,693,415.00 to \$53,699,162.00. \*

\* As stated in Modification P00251, CLIN 0030 has been established for the sole purpose of obligating GFEBs funding for performance of SubCLIN 0017AA. The value of CLIN 0030 equates to the amount of GFEBs funding obligated for performance of SubCLIN 0017AA and should not be considered additional contract value. Informational SubCLINs under CLIN 0030 will be established each time additional GFEBs funding is obligated. CLIN 0030 and its SubCLINs will not be segregated from SubCLIN 0017AA, identified, accounted for, invoiced, analyzed, or reported separately from SubCLIN 0017, including EVMS. All scope remains under SubCLIN 0017AA with associated incentive events and flat zones.

SUBCLIN 003003 is added as follows:

ITEM NO	SUPPLIES/SERVICES	QUANTITY	UNIT	UNIT PRICE	AMOUNT
003003	GFEBs Funding for SubCLIN 0017 CPIF FOB: Destination				
	ACRN MX CIN: GFEBs001017438400030				\$5,747.00

1. SECTION B - SUPPLIES OR SERVICES AND PRICES

CLIN 0030

The total cost of this line item has increased by \$16,000,000.00 from \$53,699,162.00 to \$69,699,162.00.\*

\* As stated in Modification P00251, CLIN 0030 has been established for the sole purpose of obligating GFEBs funding for performance of SubCLIN 0017AA. The value of CLIN 0030 equates to the amount of GFEBs funding obligated for performance of SubCLIN 0017AA and should not be considered additional contract value. Informational SubCLINs under CLIN 0030 will be established each time additional GFEBs funding is obligated. CLIN 0030 and its SubCLINs will not be segregated from SubCLIN 0017AA, identified, accounted for, invoiced, analyzed, or reported separately from SubCLIN 0017, including EVMS. All scope remains under SubCLIN 0017AA with associated incentive events and flat zones.

SUBCLIN 003004 is added as follows:

1. SECTION B - SUPPLIES OR SERVICES AND PRICES

CLIN 0030

The total cost of this line item has increased by \$16,000,000.00 from \$69,699,162.00 to \$85,699,162.00.\*

\* As stated in Modification P00251, CLIN 0030 has been established for the sole purpose of obligating GFEBs funding for performance of SubCLIN 0017AA. The value of CLIN 0030 equates to the amount of GFEBs funding obligated for performance of SubCLIN 0017AA and should not be considered additional contract value. Informational SubCLINs under CLIN 0030 will be established each time additional GFEBs funding is obligated. CLIN 0030 and its SubCLINs will not be segregated from SubCLIN 0017AA, identified, accounted for, invoiced, analyzed, or reported separately from SubCLIN 0017, including EVMS. All scope remains under SubCLIN 0017AA with associated incentive events and flat zones.

SUBCLIN 003005 is added as follows:

 Bk 9: Distribution F. Further dissemination only as directed by the Cruise Missile Defense Systems Project Office, SFAE-MSLS-CMDS-PE-CM, Redstone Arsenal, AL 35896-5000, 24 March 2000.  
 Bk 12 and 13: Initial submission shall be 20 calendar days after the close of the first full accounting month after SDD (change order reference paragraph 7.4). Subsequent submission shall be 20 calendar days after the close of each accounting month through the period of performance.  
 All five formats are required and shall be submitted electronically in an XML transfer file which is compatible with winright. Formats three and four shall include identical forecast periods. These periods shall be monthly for at least six months, quarterly for at least two quarters, and then quarterly, semi-annual, or annually to completion. To maintain necessary visibility the CPR shall report via the WBS structure as follows:  
 WBS 1 - level 2, WBS 5 - level 2, WBS 9 - Level 3  
 WBS 2 - level 2, WBS 6 - level 4, WBS A - Level 3  
 WBS 3 - level 2, WBS 7 - level 3,  
 WBS 4 - level 2, WBS 8 - level 3.  
 Lower level reporting shall be accomplished as required  
 The contractor shall include "Best Case", "Worst Case", and "Most Likely" Estimate At Completion (EACs) at total contract level. At a minimum, variance analysis should be provided for current cost and schedule variances that are +/-10% and greater than or equal to \$150K, and cumulative cost and schedule variances that are +/-10% and greater than or equal to \$500K.  
 The contractor shall also provide variance analysis for WBS elements experiencing a +/-5% and greater than or equal to \$2,000K variance at completion. Notwithstanding the foregoing, the total number of variances to be reported on each month shall not exceed a maximum of 15 WBS elements. Where greater than 15 reportable variances exist from the variance pool, the contractor shall select the top three variance in each category, based on dollar value of reportable WBS's, that exceeds the established thresholds for current schedule (3) and cost (3); cumulative schedule (3) and cost (3); and at complete (3), as applicable. The variance analysis shall include a detailed explanation of the problem, corrective action, program impact, and expected recovery. Schedule variance narratives shall identify significant missed milestones and impact to major milestones.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

1. SECTION A - SOLICITATION/CONTRACT FORM

The total cost of this contract was increased by \$34,309,700.00 from \$1,920,928,309.00 to \$1,955,238,009.00.

2. SECTION B - SUPPLIES OR SERVICES AND PRICES

SUBCLIN 0017AA

The estimated cost has increased by [REDACTED] from [REDACTED] to [REDACTED]

The estimated fee has decreased by [REDACTED] from [REDACTED]

The total estimated cost plus fee of this line item has increased by \$34,309,700.00 from \$1,683,179,862.00 to \$1,717,489,562.00.

(b)(4)  
(b)(4)

This includes an increase in estimated cost of [REDACTED] 000 consisting of a [REDACTED] increase in cost and [REDACTED] increase in facilities capital cost of money, and a decrease in estimated fee of [REDACTED]. These estimated values incorporate the Integrated Fire Control (IFC) incentive recognized in Modification P00257.

(b)(4)  
(b)(4)

The target cost and target fee set forth in the table below reflects the negotiated Section B values prior to any adjustments made resulting from estimated cost overruns and share ratio impacts to the fee. Any differences between the Estimated Cost values provided above in Section B and the Target Cost values shown on the table below are as a result of estimated cost overruns. Any differences between the Estimated Fee values provided above in Section B and the Target Fee values shown on the table below are a result of reductions based on current share ratio impacts to the Target Fee and do not include any allocation for yet to be earned incentives as set forth in Section H-19. As of the date of this modification, the target cost and target fee are as follows:

The Target Cost is [REDACTED] consisting of [REDACTED] in cost and [REDACTED] in facilities capital cost of money.

(b)(4)

The Target Fee is [REDACTED]

Total Target Cost plus Fee is [REDACTED]

(b)(4)  
(b)(4)

Pursuant to FAR 16.405-1, the target cost and target fee will be finally determined and adjusted after contract performance.

The table below provides a summary of the target cost , target fee, and total:

4. SECTION H – SPECIAL CONTRACT REQUIREMENTS is revised as follows:

Paragraph H-19, INCENTIVE FEE STRUCTURE AND PAYMENT FOR CLIN 0017, SYSTEM DEVELOPMENT AND DEMONSTRATION (SDD), subparagraphs a., b., and c., are revised as follows:

a. General.

SubCLIN 0017AA, System Development and Demonstration (SDD), is a cost-plus-incentive-fee (CPIF) Line Item with cost and schedule incentives as described below. Paragraph H-19(b) applies only to the Cost Incentive and Paragraph H-19(c) applies only to the Schedule Incentive. The target contract price amount of **\$1,595,005,395** includes a target cost of ██████████ (which includes ██████████ cost and ██████████ of facilities capital cost of money) and a target incentive fee of ██████████ which is ██████████ of estimated cost less facilities capital cost of money.

(b)(4)  
(b)(4)

b. Cost Incentive.

- (1) The target fee payable under SubCLIN 0017AA is ██████████ of the estimated cost less facilities capital cost of money ██████████, an amount equal to ██████████
- (2) The maximum fee payable under SubCLIN 0017AA is ██████████ of the estimated cost less facilities capital cost of money ██████████, amount equal to ██████████
- (3) The minimum fee payable under SubCLIN 0017AA is ██████████ of the estimated cost less facilities capital cost of money ██████████, an amount equal to ██████████
- (4) Fee will be adjusted for actual cost that is less than or more than the estimated cost stated above using a share ratio of ██████████ Government ██████████ Contractor for actual costs less than the estimated cost, and a ratio of ██████████ Government ██████████ Contractor for actual costs greater than the estimated cost range applied according to Paragraph H-19(c)(1):
- (5) Nothing stated in this clause shall take precedence over the clause 52.216-10 - Incentive Fee contained in this contract.

(b)(4)  
(b)(4)  
(b)(4)  
(b)(4)  
(b)(4)  
(b)(4)

c. Schedule and Performance Incentive.

- (1) A maximum ██████████ "flat zone" will be established at the estimated cost value of ██████████ with the conduct of milestones below. The "flat zone" over which the contractor will earn target fee is for eligible costs from

(b)(4)

002562

██████████ to ██████████ once the program milestones set forth below are conducted. (Note: As of the effective date of Modification P00257, only ██████████ of the maximum ██████████ "flat zone" has been acknowledged as earned.)

(b)(4)  
(b)(4)

(a) ██████████ of the maximum benefit of the "flat zone", earned by the conduct of the SDD System Functional Review NLT 2nd Quarter, Fiscal Year 2007. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned the "Flat Zone" schedule incentive of ██████████. Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the conclusion of the contract. Reference letter, dated 5 March 2007 from ██████████

(b)(4)  
(b)(6)  
(b)(6)

(b) ██████████ of the maximum benefit of the "flat zone", earned by the conduct of SDD Orbit Critical Design review NLT 2nd Quarter, Fiscal Year 2009. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned the "Flat Zone" schedule incentive of \$██████████. Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the conclusion of the contract. Reference letter, dated 12 January 2009, from ██████████

(b)(4)  
(b)(4)  
(b)(6)  
(b)(6)

(c) ██████████ of the maximum benefit of the "flat zone", earned by the conduct of the Developmental Test 1 (DT-1) in accordance with the criteria set forth in Section J attachment entitled Flat Zone Performance Criteria for JLENS SDD Contract, Section H-19(c), dated 08/10/12. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned a "Flat Zone" schedule incentive of ██████████ or ██████████ of the available ██████████. Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the conclusion of the contract.)

The total cost of this contract was increased by \$378,299.00 from \$1,955,238,009.00 to \$1,955,616,308.00.

2. SECTION B - SUPPLIES OR SERVICES AND PRICES

SUBCLIN 0017AA

The target cost has increased by [REDACTED] from [REDACTED] to [REDACTED]

(b)(4)  
(b)(4)

The target fee has increased by [REDACTED] from [REDACTED] to [REDACTED]

The total target cost plus fee of this line item has increased by \$378,299.00 from \$1,595,005,395.00 to \$1,595,383,694.00.

This includes an increase in target cost of [REDACTED] consisting of a [REDACTED] increase in cost and [REDACTED] increase in facilities capital cost of money, and an increase in target fee of [REDACTED]

(b)(4)  
(b)(4)

The target cost and target fee set forth above and in the table below reflects the negotiated Section B values prior to any adjustments made resulting from estimated cost overruns and share ratio impacts to the fee. Any differences between the Estimated Cost values provided below and the Target Cost values provided above and shown on the table below are as a result of estimated cost overruns. Any differences between the Estimated Fee values provided below and the Target Fee values provided above and shown on the table below are a result of reductions based on current share ratio impacts to the Target Fee and do not include any allocation for yet to be earned incentives as set forth in Section H-19. As of the date of this modification, the estimated cost and estimated fee are as follows:

The Estimated Cost is [REDACTED] consisting of \$ [REDACTED] in cost and [REDACTED] in facilities capital cost of money.

(b)(4)

The Estimated Fee is [REDACTED]

(b)(4)

Total Estimated Cost plus Fee is \$1,717,867,861.

Pursuant to FAR 16.405-1, the target cost and target fee will be finally determined and adjusted after contract performance.

The table below provides a summary of the target cost , target fee, and total:

	ACRN MX CIN: GFEBs001021201300030				\$1,096,196.00

\* As stated in Modification P00251, CLIN 0030 has been established for the sole purpose of obligating GFEBs funding for performance of SubCLIN 0017AA. The value of CLIN 0030 equates to the amount of GFEBs funding obligated for performance of SubCLIN 0017AA and should not be considered additional contract value. Informational SubCLINs under CLIN 0030 will be established each time additional GFEBs funding is obligated. CLIN 0030 and its SubCLINs will not be segregated from SubCLIN 0017AA, identified, accounted for, analyzed, or reported separately from SubCLIN0017, including EVMS. All scope remains under SubCLIN 0017AA with associated incentive events and flat zones.

B-17. INCENTIVE FEE FOR SUBCLIN 0017AA/CLIN 0018 (SEE H-19):

In accordance with FAR 52.216-10, entitled "Incentive Fee", the total amount originally negotiated, adjusted in accordance with paragraph d. of this clause, for target cost and target fee for performance under SubCLIN 0017AA/CLIN 0018 are set forth below:

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

The purpose of this modification is to:

1. Issue Change Order Modification P00260 for JLENS based on restructure letter JLENS-2012-031 dated 20 September, 2011. Ceiling of contract will increase by a total of \$59,034,271.
2. This Change Order Modification will also incrementally fund this increase by \$16,145,226.39.

SUMMARY OF CHANGES

1. SECTION A - SOLICITATION/CONTRACT FORM

The total cost of this contract was increased by \$59,034,271 from \$1,955,616,308.00 to \$2,014,650,579.00.

2. SECTION B - SUPPLIES OR SERVICES AND PRICES

SUBCLIN 0017AA

The target cost has increased by [REDACTED] from [REDACTED] to [REDACTED] <sup>ACP?</sup>

(b)(4)

The target fee has increased by [REDACTED] from [REDACTED] to [REDACTED]

(b)(4)

The total target cost plus fee of this line item has increased by \$59,034,271 from \$1,595,383,694 to \$1,654,417,965.

This includes an increase in target cost of [REDACTED] consisting of a [REDACTED] increase in cost and a [REDACTED] increase in facilities capital cost of money, and an increase in target fee [REDACTED]

(b)(4)  
(b)(4)

The target cost and target fee set forth above and in the table below reflects the negotiated Section B values prior to any adjustments made resulting from estimated cost overruns and share ratio impacts to the fee. Any differences between the Estimated Cost values provided below and the Target Cost values provided above and shown on the table below are as a result of estimated cost overruns. Any differences between the Estimated Fee values provided below and the Target Fee values provided above and shown on the table below are a result of reductions based on current share ratio impacts to the Target Fee and do not include any allocation for yet to be earned incentives as set forth in Section H-19. As of the date of this modification, the estimated cost and estimated fee are as follows:

The Estimated Cost is \$ [REDACTED] consisting of [REDACTED] cost and [REDACTED] facilities capital cost of money.

(b)(4)

The Estimated Fee is [REDACTED]

Total Estimated Cost plus Fee is \$1,776,902,132.

(b)(4)

Pursuant to FAR 16.405-1, the target cost and target fee will be finally determined and adjusted after contract performance.

The table below provides a summary of the target cost, target fee, and total:

	ACRN MX CIN: GFEBs001024670000001				\$16,000,000.00

\* As stated in Modification P00251, CLIN 0030 has been established for the sole purpose of obligating GFEBs funding for performance of SubCLIN 0017AA. The value of CLIN 0030 equates to the amount of GFEBs funding obligated for performance of SubCLIN 0017AA and should not be considered additional contract value. Informational SubCLINs under CLIN 0030 will be established each time additional GFEBs funding is obligated. CLIN 0030 and its SubCLINs will not be segregated from SubCLIN 0017AA, identified, accounted for, analyzed, or reported separately from SubCLIN0017, including EVMS. All scope remains under SubCLIN 0017AA with associated incentive events and flat zones.

B-17. INCENTIVE FEE FOR SUBCLIN 0017AA/CLIN 0018 (SEE H-19):

In accordance with FAR 52.216-10, entitled "Incentive Fee", the total amount originally negotiated, adjusted in accordance with paragraph d. of this clause, for target cost and target fee for performance under SubCLIN 0017AA/CLIN 0018 are set forth below:

SUMMARY OF CHANGES

1. SECTION B - SUPPLIES OR SERVICES AND PRICES

CLIN 0030

The total cost of this line item has decreased by \$2,000,000.00 from \$140,795,358.00 to \$138,795,358.00.

\*

\* As stated in Modification P00251, CLIN 0030 has been established for the sole purpose of obligating GFEBs funding for performance of SubCLIN 0017AA. The value of CLIN 0030 equates to the amount of GFEBs funding obligated for performance of SubCLIN 0017AA and should not be considered additional contract value. Informational SubCLINs under CLIN 0030 will be established each time additional GFEBs funding is obligated. CLIN 0030 and its SubCLINs will not be segregated from SubCLIN 0017AA, identified, accounted for, analyzed, or reported separately from SubCLIN0017, including EVMS. All scope remains under SubCLIN 0017AA with associated incentive events and flat zones.

2. SECTION G - CONTRACT ADMINISTRATION DATA

SUMMARY OF CHANGES

SECTION A - SOLICITATION/CONTRACT FORM

The following have been added by full text:

PURPOSE

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

The purpose of this modification is to:

1. Correct administrative errors to Modification P00260.
2. Summary of Changes for Modification P00260 should have read as follows:
3. All corrections are shown in **bold red**.

SUMMARY OF CHANGES

1. SECTION A - SOLICITATION/CONTRACT FORM

Change Order Modification P00260 for JLENS based on restructure letter JLENS-2012-031 dated 27 September, 2012. Ceiling of contract will increase by a total of \$59,034,271.

The total cost of this contract was increased by \$59,034,271 from \$1,955,616,308.00 to \$2,014,650,579.00.

2. SECTION B - SUPPLIES OR SERVICES AND PRICES

SUBCLIN 0017AA

The target cost has increased by [REDACTED] from [REDACTED] 00 to [REDACTED]

The target fee has increased by [REDACTED] from [REDACTED] 4 to [REDACTED]

The total target cost plus fee of this line item has increased by \$59,034,271 from \$1,595,383,694 to \$1,654,417,965.

This includes an increase in target cost of [REDACTED], consisting of a \$[REDACTED] increase in cost and a [REDACTED] increase in facilities capital cost of money, and an increase in target fee of [REDACTED]

The target cost and target fee set forth above and in the table below reflects the negotiated Section B values prior to any adjustments made resulting from estimated cost overruns and share ratio impacts to the fee. Any differences between the Estimated Cost values provided below and the Target Cost values provided above and shown on the table below are as a result of estimated cost overruns. Any differences between the Estimated Fee

(b)(4)  
(b)(4)

(b)(4)  
(b)(4)

002633

values provided below and the Target Fee values provided above and shown on the table below are a result of reductions based on current share ratio impacts to the Target Fee and do not include any allocation for yet to be earned incentives as set forth in Section EI-19. As of the date of this modification, the estimated cost and estimated fee are as follows:

The Estimated Cost is [REDACTED] consisting of \$1 [REDACTED] in cost and [REDACTED] in facilities capital cost of money. (b)(4)

The Estimated Fee is \$ [REDACTED] (b)(4)

Total Estimated Cost plus Fee is \$1,776,902,132.

Pursuant to FAR 16.405-1, the target cost and target fee will be finally determined and adjusted after contract performance.

The table below provides a summary of the target cost, target fee, and total:

\* As stated in Modification P00251, CLIN 0030 has been established for the sole purpose of obligating GFEBS funding for performance of SubCLIN 0017AA. The value of CLIN 0030 equates to the amount of GFEBS funding obligated for performance of SubCLIN 0017AA and should not be considered additional contract value. Informational SubCLINs under CLIN 0030 will be established each time additional GFEBS funding is obligated. CLIN 0030 and its SubCLINs will not be segregated from SubCLIN 0017AA, identified, accounted for, analyzed, or reported separately from SubCLIN 0017, including EVMS. All scope remains under SubCLIN 0017AA with associated incentive events and flat zones.

**The following items are applicable to this modification:**

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

**SUMMARY OF CHANGES**

SECTION A - SOLICITATION/CONTRACT FORM

The following have been added by full text:

**PURPOSE**

**The purpose of this modification is:**

1. **Settlement of P00260 Change Order Modification per the USD, AT&L Nunn-McCurdy directed restructure of JLENS contract DASG60-98-C-0001 submitted in letter JLENS-2012-031.**

**The target cost, target fee, and total contract value will not be adjusted from Change Order modification P00260 and subsequent modifications that make corrections or add incremental funding through modification P00263.**

2. **It is understood that P00260 Change Order amount of \$59,034,271 shall not change from \$59,034,271.00.**
3. **Attach GFE list dated 01/24/2013 in section J of the contract.**
4. **Attach Contractor Furnished Property (CFP) list dated 01/24/2013 which includes Cooperative Engagement Capability (CEC) Hardware, and Revised additional test spares in section J of the contract. Note: Engineering units are acceptable for delivery so long as all components are form, fit and function equivalent.**
5. **Attach revised DD250 Plan dated 02-11-2013 in section J of the contract.**
6. **Attach revised Functional Configuration Audit (FCA) Plan dated 02/14/2013 in section J of the contract.**
7. **Attach revised Master Test Plan dated 02/04/2013 to section J of the contract.**

#### 10. Aerostat Accident Recoup Direction

The Aerostat Accident shall be considered settled within this restructure settlement with no further intent by the Government to take further action in this matter. In consideration for this accident Raytheon shall provide (2) JLENS compliant Tethers in the amount of \$2,316,819.00, as well as the Governments cost avoidance and other consideration. Agreement by Raytheon to this settlement relinquishes all claims for equitable adjustment by Raytheon, and the Government denies the increase to the Contract Budget Baseline (CBB) as requested by Raytheon. In consideration of the foregoing, the Government hereby releases Raytheon from any and all liability under the contract for further claims or liability attributable to the Aerostat Accident.

11. Upon execution of this contract modification, Raytheon will commence re-baselining the work to go including the FY'13 restructure as part of the SDD (CLIN 0017AA). Raytheon will incorporate the changes for the restructured baseline in accordance with its documented process guidelines and procedures.

## **1. Overview and Scope**

The purpose of this plan is to document the agreements associated with the acceptance and delivery, via DD250, one each for Orbit 1 and Orbit 2, of JLENS System Development and Demonstration (SDD) Prime Items (tactical equipment) under SLIN 0017AA. The Prime Contracting Officer (PCO) or their delegate has the authority to sign DD250(s) for the government. A list of ancillary equipment including spares will accompany the DD250.

The execution of these DD250s will not relieve Raytheon of its obligation to meet the JLENS System Key Performance Parameters (KPPs) per Table 1. Ongoing testing, verification documentation, configuration management, change control, and Failure Reporting and Corrective Action (FRACA) efforts for tactical hardware, software, and support equipment for both orbits will continue until completion of the SDD contract. If there is a conflict between this plan and any contractual agreement / requirement (performance specification, statement of work, Federal Acquisition Regulation (FAR)), the contractual agreement / requirement will supersede this plan. Mutually agreed to "Non-conformances, waivers, and deviations to be accepted by the JPO shall be included in the supporting documentation attached to the DD250(s). Non-conformances, waivers, and deviations must be dispositioned by Raytheon and approved by the JPO prior to the signing of the DD250(s)."

Raytheon shall present Item Unique Identification (IUID) information from the IUID data base prior to the signing of the DD250(s).

It is understood that the SDD hardware has been in use in the field and is not in factory floor condition. Normal wear and tear for the amount of time the hardware has been in use will be taken into consideration during physical inspections and dispositions to accomplish the signing of the DD250(s). The condition of the hardware will be documented and dispositioned accordingly. A 100% inventory will be performed on a mutually agreed to inventory list of items to be inspected which will be developed by Raytheon and will serve as the depth to which the used system will be inspected. The extent of the inspection will be to the MEI level only to the extent to what can be inspected without disassembly.

## **2. Readiness for DD250**

Readiness for DD250 will be determined based on the following:

Functionality: JLENS Orbits will be functional and capable of meeting JLENS KPPs.

Functional Condition: An FCA will be performed prior to DD250 which will verify requirements that have sufficient supporting data at that time. At the time of presentation of the Orbits by Raytheon to JPO for DD250, all critical non-conformances will be closed and mutually agreed to major non-conformances will have a resolution, be in a corrective cycle, or closed prior to the signing of the DD250.

Configuration: JLENS Orbit will be compliant to the TDP, incorporating jointly (Raytheon and JPO) agreed non-conformances and waivers.

Physical Condition: A joint (Raytheon and JPO) walkthrough inspection of each Orbit or its Major End Items will be performed prior to DD250. Non-conformances will be documented and jointly dispositioned as either Critical, Major, or minor as defined below.

Nonconformance Type:

Minor Nonconformance - A nonconformance that is not likely to materially reduce the usability of the supplies or services for their intended purpose, or is a departure from established standard having little bearing on the effective use or operation of the supplies or services.

Major Nonconformance ~ A nonconformance, other than critical, that is likely to result in failure of the supplies or services, or to materially reduce the usability of the supplies or services for their intended purpose.

Critical Nonconformance –A nonconformance that is likely to result in hazardous or unsafe conditions for individuals using, maintaining or depending upon the supplies or services or is likely to prevent performance of a vital agency mission.

At the time of presentation of the tactical equipment to JPO by Raytheon for DD250, documented critical non-conformances will have been corrected by Raytheon. Other non-conformances will be categorized and dispositioned as either Major or Minor non-conformances. Dispositions requiring repair, rework, reconditioning or other such efforts will have been performed by Raytheon only as directed by JPO, and with mutually agreed cost and schedule considerations. For repairs Standard Repair Procedures (SRP) approved for JLENS and approved through an MRB for use at the locations where rework will be performed, by Raytheon approved personnel, will be used to correct non-conformances. Non-conformances which are dispositioned “use as is” will have a deviation or waiver allowing such condition.

Major non-conformances with agreed to paths forward or minor non-conformances will not serve as reason for either Raytheon or the government to not execute the signing of the DD250(s).

### 3. Orbit Configuration

The DD250 of Orbit #1 and Orbit #2 will consist of a Surveillance System (SuS) and a Fire Control System (FCS) for both Orbits.. The Orbit hardware will ship in place at the location that the hardware resides at the time of DD250.

#### 3.1 Orbit 2 Tactical Equipment

JLENS Orbit 2 tactical equipment is currently distributed in multiple locations to address the needs of the SDD Test Program. To support DD250 acceptance of this tactical equipment, a limited functional baseline check of selected items will take place. Particular emphasis is placed

on verifying the tactical equipment that has undergone T&M testing at APG is functional and contains no critical non-conformances.

Note that the limited functional baseline check applies to selected ground items only. The functional baseline check on Orbit 2 will be performed on a mutually agreed to list of items which will be developed by Raytheon and will serve as the list of tactical equipment which will undergo inspection.

It is recognized the tactical equipment comprising Orbit 2 may physically be located in various locations at the time of DD250. Specifically, some Orbit 2 equipment may be being actively utilized in support of SDD program schedule objectives, while some Orbit 2 equipment may be idle or in storage. However, it is expected that DD250 of Orbit #2 does not require the complete orbit to be physically present or assembled at a single specific location.

**SUMMARY OF CHANGES**

1. SECTION B - SUPPLIES OR SERVICES AND PRICES

CLIN 0030

The total cost of this line item has increased by \$22,034,271.00 from \$159,795,358.00 to \$181,829,629.00.\*

\* As stated in Modification P00251, CLIN 0030 has been established for the sole purpose of obligating GFEBs funding for performance of SubCLIN 0017AA. The value of CLIN 0030 equates to the amount of GFEBs funding obligated for performance of SubCLIN 0017AA and should not be considered additional contract value. Informational SubCLINs under CLIN 0030 will be established each time additional GFEBs funding is obligated. CLIN 0030 and its SubCLINs will not be segregated from SubCLIN 0017AA, identified, accounted for, invoiced, analyzed, or reported separately from SubCLIN 0017, including EVMS. All scope remains under SubCLIN 0017AA with associated incentive events and flat zones.

SUBCLIN 003010 is added as follows:

\* CLIN 0030 has been established for the sole purpose of obligating GFEBS funding for performance of SubCLIN 0017AA. Informational SubCLINs under CLIN 0030 will be established each time additional GFEBS funding is obligated. For purposes of this funding update, funding obligated under CLIN 0030 will also be reflected under SubCLIN 0017AA and should not be counted twice with regards to the total contract funding obligated.

The following items are applicable to this modification:

SUMMARY OF CHANGES

SECTION A - SOLICITATION/CONTRACT FORM

The following have been added by full text:

PURPOSE

MOD00266 SECTION SF 30 BLOCK 14 CONTINUATION PAGE

NOTE:

- A. This modification deobligates \$1,568,085.00 from CLIN 0028, NIFC-CA. This in no way closes out this CLIN which will be done at contract close-out after final audit of all actuals will then determine whether this CLIN is in an under-run or over-run situation. If an under-run situation is determined by audit of actuals the fee will be adjusted at contract close out.
- B. This modification also provides administrative change of Contracting officer and Administrative Contracting officer as indicated in section G of this modification.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

The following items are applicable to this modification:

SUMMARY OF CHANGES

1. SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

PURPOSE

The purpose of this modification is to:

- Incrementally fund SUBCLIN 0017AA via CLIN 0030 in the amount of \$ 3,851,327.34
- Realign funds in the amount of [REDACTED] under SubCLIN 0017AA from fee to cost to reflect the final estimated cost and fee amounts stated in Modification P00262 and to correct the overfunding of fee
- Acknowledge that Raytheon has completed the requirement for the Developmental Test 2 (DT-2) flat zone and earned a flat zone incentive of [REDACTED]
- Acknowledge that Raytheon has completed the requirement for Functional Configuration Audit (FCA) #1 and earned a flat zone incentive [REDACTED]
- Acknowledge that Raytheon has completed the requirement for Electromagnetic Environmental Effects (E3) Testing and earned a flat zone incentive [REDACTED]
- Increase the estimated fee and total contract value in the amount of [REDACTED] account for the flat zone incentives earned and additional flat zone incentive opportunities remaining (If necessary, the estimated fee and total contract value will be further adjusted if the remaining two flat spot incentives are not awarded at full value)
- Incrementally fund SUBCLIN 0017AA via CLIN 0030 in the amount of \$9,469,171

(b)(4)

(b)(4) (b)(4)

(b)(4) (b)(4)

(b)(4)

(b)(4)

2. SECTION A, SOLICITATION/CONTRACT FORM

The total cost of this contract was increased by \$9,669,171.00 from \$2,014,650,579.00 to \$2,024,319,750.

3. SECTION B - SUPPLIES OR SERVICES AND PRICES

SUBCLIN 0017AA

The target profit/fee has increased by [REDACTED] to [REDACTED]

The total cost of this line item has increased by [REDACTED] from [REDACTED] to [REDACTED]

(b)(4)

(b)(4)

(b)(4)

(b)(4)

CLIN 0030 :

The total cost of this line item has increased by [REDACTED] from [REDACTED] to [REDACTED]

(b)(4)

SUBCLIN 003011 is added as follows:

002797

<u>ITEM NO</u>	<u>SUPPLIES/SERVICES</u>	<u>QUANTITY</u>	<u>UNIT</u>	<u>UNIT PRICE</u>	<u>AMOUNT</u>
003011	GFEBs Funding for SubCLIN 0017AA CPIF FOB: Destination PURCHASE REQUEST NUMBER: 0010246700-0001				
	ACRN MX CIN: GFEBs001024670000001				\$3,851,327.34

SUBCLIN 003012 is added as follows:

<u>ITEM NO</u>	<u>SUPPLIES/SERVICES</u>	<u>QUANTITY</u>	<u>UNIT</u>	<u>UNIT PRICE</u>	<u>AMOUNT</u>
003012	GFEBs Funding for SubCLIN 0017AA CPIF FOB: Destination PURCHASE REQUEST NUMBER: 0010369722				
	ACRN MZ CIN: GFEBs001036972200001				\$9,469,171.00

As stated in Modification P00251, CLIN 0030 has been established for the sole purpose of obligating GFEBs funding for performance of SubCLIN 0017AA. The value of CLIN 0030 equates to the amount of GFEBs funding obligated for performance of SubCLIN 0017AA and should not be considered additional contract value. Informational SubCLINs under CLIN 0030 will be established each time additional GFEBs funding is obligated. CLIN 0030 and its SubCLINs will not be segregated from SubCLIN 0017AA, identified, accounted for, analyzed, or reported separately from SubCLIN0017, including EVMS. All scope remains under SubCLIN 0017AA with associated incentive events and flat zones.

4. SECTION G - CONTRACT ADMINISTRATION DATA

Accounting and Appropriation

Summary for the Payment Office

As a result of this modification, the total funded amount for this document was increased by \$13,320,498.34 from \$2,004,685,410.02 to \$2,018,005,908.36.

SUBCLIN 003011:

\* CLIN 0030 has been established for the sole purpose of obligating GFEBs funding for performance of SubCLIN 0017AA. Informational SubCLINs under CLIN 0030 will be established each time additional GFEBs funding is obligated. For purposes of this funding update, funding obligated under CLIN 0030 will also be reflected under SubCLIN 0017AA and should not be counted twice with regards to the total contract funding obligated.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

The following items are applicable to this modification:

SUMMARY OF CHANGES

1. SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

PURPOSE

The purpose of this modification is to:

- Incorporate Request for Deviation/Waiver - [REDACTED] CDRL B059-013a, dated 21 Jun 13 (b)(3)(A)  
(i)&Title 10  
Sec 130 (a)
- Incorporate Engineering Change Proposals (ECP) MI-P97774, CDRL B039-013, dated 4 Jun 13, and MI-N3898, CDRL 039-011, dated 16 May 12 (b)
- Due to government delays and higher level program directives, extend the period of performance for SubCLIN 0017AA by three (3) months from 30 September 2013 to 31 December 2013
- Due to higher level program directives, issue the following clarifications regarding the effort to be completed during the three (3) month extension:
  - The contractor shall complete the [REDACTED] (b)(3)(A)  
[REDACTED] (i)&Title 10  
Sec 130 (a)  
[REDACTED] Data will be gathered as part of the integration testing and the [REDACTED] to allow the Government to request system level certification. (b)
  - The contractor shall demonstrate contract compliance for [REDACTED] (b)(3)(A)  
[REDACTED] (i)&Title 10  
Sec 130 (a)(b)
  - The contractor shall complete delivery of all Verification Status Reports (VSRs) for Government review and approval. For any VSR that is rejected by the Government or cannot be met, the contractor will submit a request for waiver or request an Engineering Change Proposal to the requirement in the VSR.
  - The contractor shall complete the [REDACTED] integration. The completion of th [REDACTED] (b)(3)(A)  
[REDACTED] The first event will demonstrate the test objectives [REDACTED] (i)&Title 10  
Sec 130 (a)  
[REDACTED] The second event, Formal Mission Flight Event 3, will demonstrate system compliance and serve as the final data collection test for system certification. (b)
  - The contractor shall correct the software trouble reports (STRs) and Test Incident Reports (TIRs) identified by the Government prior to delivery of a final software drop at the end of the period of performance.

002810

- o The contractor shall complete the Functional Configuration Audit (FCA) and ensure that coordination and tasks have been completed prior to turnover of the JLENS system by DD Form 250. These tasks shall be completed by 01 December 2013.

(b)(3)(A)  
(i)&Title  
10 Sec 130  
(a)(b)

- o The contractor shall continue inventory and packing of Orbit 2, less the items at [REDACTED] needed for training. Those assets at [REDACTED] shall remain there to support the Training Engineering Services Memorandum. The contractor shall ship Orbit 2 to [REDACTED] and coordinate and perform the inspection and acceptance of Orbit 2 and the signing of the DD 250 with the Contracting Officer's Representative [REDACTED]

(b)(6)

- o The contractor shall deliver all spares in accordance with the terms and conditions of the contract with the exception of the ten (10) make buy parts listed in the table below. The contractor shall deliver only the material on the items listed below. It is anticipated that the cost of labor previously proposed to build these items shall be credited to the Government as such builds will no longer occur during the period of performance of this contract.

(b)(3)(A)  
(i)&Title  
10 Sec 130  
(a)(b)

- o The contractor shall inventory and pack the Surveillance Radar at [REDACTED] and ship in place as currently stated in the DD 250 Plan. The Fire Control Radar at [REDACTED] shall remain operational to support training at the [REDACTED]. It is anticipated that the training to be conducted as well as maintenance of the operational site will be covered under Contract W31P4Q-10-C-0003.

(b)(3)  
(A)  
(i)&Tit  
lc 10  
Sec 130  
(a)(b)

- Descope the following logistics courses/events:

- o Common Course
- o System Administration Course
- o MO/MS Course
- o CPG Shelter Maintenance Course
- o Aerostat Electrical and Mechanical Course
- o Logistics Demonstration

This descopes only includes the conducting of the course event, not the final preparation of the training material or Interactive Technical Publication (IETP). The preparation required to conduct the courses still includes, as a minimum, the resolution of all open category 1/2/3 STRs, ITRs, completion and demonstration of FD/FI and redlines to existing IETPs and training documentation that have been generated from developmental testing, Early User Testing, government reviews, and other training activities. The final training documentation shall be delivered under CDRL B017 no later than 30 September 2013.

002811

Should the above clarifications result in increased/decreased costs, a cost impact, broken down by the elements outlined in this modification, shall be provided within seven (7) from the date of this modification.

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

The following items are applicable to this modification:

SUMMARY OF CHANGES

1. SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

PURPOSE

Based on the clarifications addressed in Change Order Modification P00269 and the associated three (3) month period of performance extension to 31 December 2013, the contractor has submitted a \$14.3M cost impact. The cost impact amount is subject to downward negotiation only following the contractor's submission of data to support their figure and agreement between the parties regarding a final settlement. Also, should final settlement necessitate additional terms and conditions and/or changes to contract language to address contractor assumptions, such changes will be made in a subsequent modification to be issued within forty-five (45) days of this modification. The increase below to target cost, estimated cost, and incremental funding reflects funding availability for this effort:

- The total target contract value is increased in the amount of [REDACTED] (b)(4)
- The total estimated contract value is increased in the amount of \$12,100,000
- Incremental funding for SUBCLIN 0017AA is increased in the amount of \$12,100,000

2. SECTION A - SOLICITATION/CONTRACT FORM

The total cost of this contract was increased by \$12,100,000 from \$2,024,319,750.00 to \$2,036,419,750.

3. SECTION B - SUPPLIES OR SERVICES AND PRICES

SUBCLIN 0017AA:

The target cost has increased by [REDACTED] from [REDACTED] to [REDACTED] (b)(4) (b)(4)

The target fee has increased by [REDACTED] from [REDACTED] to \$1 [REDACTED] (b)(4) (b)(4)

The total target cost plus fee of this line item has increased by [REDACTED] from [REDACTED] to (b)(4) (b)(4)  
\$1,666,517,965.00.

This includes an increase in target cost of [REDACTED] consisting of a [REDACTED] increase in cost and [REDACTED] (b)(4) (b)(4)  
increase in facilities capital cost of money, and an increase in target fee of [REDACTED] (b)(4)

The target cost and target fee set forth above and in the table below reflects the negotiated Section B values prior to any adjustments made resulting from estimated cost overruns and share ratio impacts to the fee. Any differences between the Estimated Cost values provided below and the Target Cost values provided above are as a result of estimated cost overruns. Any differences between the Estimated Fee values provided below and the Target Fee values provided above are a result of reductions based on current share ratio impacts to the Target Fee and do not include any allocation for yet to be earned incentives as set forth in Section H-19. As of the date of this modification, the estimated cost and estimated fee are as follows:

002845

The Estimated Cost is [REDACTED] consisting of [REDACTED] in cost and [REDACTED] in facilities capital cost of money.

(b)(4)

The Estimated Fee is [REDACTED]

(b)(4)

Total Estimated Cost plus Fee is [REDACTED]

(b)(4)

Pursuant to FAR 16.405-1, the target cost and target fee will be finally determined and adjusted after contract performance.

CLIN 0030 :

The total cost of this line item has increased by [REDACTED] from [REDACTED] to [REDACTED]

(b)(4) (b)(4)

**SUBCLIN 003015 is added as follows:**

<u>ITEM NO</u>	<u>SUPPLIES/SERVICES</u>	<u>QUANTITY</u>	<u>UNIT</u>	<u>UNIT PRICE</u>	<u>AMOUNT</u>

	<b>ACRN NA</b> <b>CIN: GFEBs001040242900001</b>				<b>\$12,100,000.00</b>

As stated in Modification P00251, CLIN 0030 has been established for the sole purpose of obligating GFEBs funding for performance of SubCLIN 0017AA. The value of CLIN 0030 equates to the amount of GFEBs funding obligated for performance of SubCLIN 0017AA and should not be considered additional contract value. Informational SubCLINs under CLIN 0030 will be established each time additional GFEBs funding is obligated. CLIN 0030 and its SubCLINs will not be segregated from SubCLIN 0017AA, identified, accounted for, analyzed, or reported separately from SubCLIN0017, including EVMS. All scope remains under SubCLIN 0017AA with associated incentive events and flat zones.

**B-17. INCENTIVE FEE FOR SUBCLIN 0017AA/CLIN 0018 (SEE H-19):**

In accordance with FAR 52.216-10, entitled "Incentive Fee", the total amount originally negotiated, adjusted in accordance with paragraph d. of this clause, for target cost and target fee for performance under SubCLIN 0017AA/CLIN 0018 are set forth below:

5. SECTION H – SPECIAL CONTRACT REQUIREMENTS is revised as follows:

Paragraph H-19, INCENTIVE FEE STRUCTURE AND PAYMENT FOR CLIN 0017, SYSTEM DEVELOPMENT AND DEMONSTRATION (SDD), subparagraph a., b., and c., are revised as follows:

a. General.

SubCLIN 0017AA, System Development and Demonstration (SDD), is a cost-plus-incentive-fee (CPIF) Line Item with cost and schedule incentives as described below. Paragraph H-19(b) applies only to the Cost Incentive and Paragraph H-19(c) applies only to the Schedule Incentive. The target contract price amount of \$1,666,517,965 includes a target cost of [REDACTED] (which includes \$ [REDACTED] of cost and \$ [REDACTED] of facilities capital cost of money) and a target incentive fee of [REDACTED] which is [REDACTED] target cost less facilities capital cost of money.

(b)(4)  
(b)(4)

b. Cost Incentive.

(1) The target fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED], an amount equal to [REDACTED]

(b)(4)  
(b)(4)

(2) The maximum fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED], an amount equal to [REDACTED]

(b)(4)  
(b)(4)

(3) The minimum fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED], an amount equal to [REDACTED]

(b)(4)  
(b)(4)

(4) Fee will be adjusted for actual cost that is less than or more than the target cost stated above using a share ratio of [REDACTED] Government / [REDACTED] Contractor for actual costs less than the target cost, and a ratio of [REDACTED] Government / [REDACTED] Contractor for actual costs greater than the target cost range applied according to Paragraph H-19(c)(1).

(b)(4) (b)(4)  
(b)(4)

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

The following items are applicable to this modification:

SUMMARY OF CHANGES

1. SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

PURPOSE

1) To acknowledge that Raytheon has completed the requirement for the Early User Test (EUT) #2 flat zone and earned a flat zone incentive of [REDACTED] (The estimated fee and total contract value were increased in Modification P00273 based on the assumption that [REDACTED] or [REDACTED] of this flat zone incentive opportunity would be awarded; however, since only [REDACTED] or [REDACTED] % was actually awarded, the estimated fee and total contract value will be decreased to account for the difference.)

(b)(4)  
(b)(4)  
(b)(4)

2) To correct Modification P00273 to reflect an earned flat zone incentive of [REDACTED] for the Electromagnetic Environmental Effects (E3) Testing

(b)(4)

3) To revise CLIN 0028 to realign funds in the amount of \$455,757.02 from cost to fee to account for an under run of the CLIN. No additional funds have been obligated.

2. SECTION A - SOLICITATION/CONTRACT FORM

The total cost of this contract was decreased by [REDACTED] from [REDACTED] to \$2,036,228,000.00.

(b)(4)

3. SECTION B - SUPPLIES OR SERVICES AND PRICES

SUBCLIN 0017AA:

The estimated fee has decreased by \$ [REDACTED] from \$ [REDACTED] to \$ [REDACTED]

(b)(4)

The total estimated cost plus fee of this line item has decreased by \$ [REDACTED] from \$ [REDACTED] to \$ [REDACTED]

(b)(4)

The target cost and target fee set forth below reflects the negotiated Section B values prior to any adjustments made resulting from estimated cost overruns and share ratio impacts to the fee. Any differences between the Estimated Cost values provided above and below and the Target Cost values provided below are as a result of estimated cost overruns. Any differences between the Estimated Fee values provided above and below and the Target Fee values provided below are a result of reductions based on current share ratio impacts to the estimated fee and do not include any allocation for yet to be earned incentives as set forth in Section H-19. As of the date of this modification, the estimated cost and estimated fee are as follows:

The Estimated Cost is [REDACTED] consisting of [REDACTED] in cost and [REDACTED] in facilities capital cost of money.

(b)(4)

The Estimated Fee is [REDACTED]

(b)(4)

Total Estimated Cost plus Fee is [REDACTED]

(b)(4) (b)(4)  
(b)(4)

002863

Pursuant to FAR 16.405-1, the target cost and target fee will be finally determined and adjusted after contract performance.

B-17. INCENTIVE FEE FOR SUBCLIN 0017AA/CLIN 0018 (SEE H-19):

In accordance with FAR 52.216-10, entitled "Incentive Fee", the total amount originally negotiated, adjusted in accordance with paragraph d. of this clause, for target cost and target fee for performance under SubCLIN 0017AA/CLIN 0018 are set forth below:

Target Cost	[REDACTED]	(b)(4)
Target Fee	\$ [REDACTED]	(b)(4)
Incentive Arrangement: Maximum Fee:	[REDACTED]	(b)(4)
Minimum Fee:	[REDACTED]	(b)(4)

(Share Ratio: Government/Contractor)

Underrun: [REDACTED] for the amount by which the total allowable cost is less than the target cost until maximum fee is attained. (b)(4)

Overrun: [REDACTED] for the amount by which the total allowable cost exceeds the target cost until minimum fee is attained. (b)(4)

FAR 52.216-10, INCENTIVE, paragraph (e)(1), is stated as follows:

(e) Fee Payable.

(1) The fee payable under this contract shall be the target fee increased by [REDACTED] that the total allowable cost is less than the target cost or decreased by [REDACTED] that the total allowable cost exceeds the target cost. In no event shall the fee be greater than [REDACTED] (Maximum fee) or less than [REDACTED] (Minimum fee) of the estimated cost. (b)(4)

4. SECTION G - CONTRACT ADMINISTRATION DATA

IMPLEMENTATION OF AND EXPLANATION OF THE RELATIONSHIP OF THE LIMITATION OF FUNDS (LOF) CLAUSE TO FEE OBLIGATIONS, subparagraph c., is revised to read as follows:

5. SECTION H – SPECIAL CONTRACT REQUIREMENTS is revised as follows:

Paragraph H-19, INCENTIVE FEE STRUCTURE AND PAYMENT FOR CLIN 0017, SYSTEM DEVELOPMENT AND DEMONSTRATION (SDD), subparagraph a., b., and c., are revised as follows:

a. General.

SubCLIN 0017AA, System Development and Demonstration (SDD), is a cost-plus-incentive-fee (CPIF) Line Item with cost and schedule incentives as described below. Paragraph H-19(b) applies only to the Cost Incentive and Paragraph H-19(c) applies only to the Schedule Incentive. The target contract price amount of [REDACTED] includes a target cost of [REDACTED] (which includes \$ [REDACTED] of cost and [REDACTED] of facilities capital cost of money) and a target incentive fee of [REDACTED] which is [REDACTED] of target cost less facilities capital cost of money.

(b)(4)  
(b)(4)  
(b)(4)

b. Cost Incentive.

(1) The target fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED], an amount equal to [REDACTED]

(b)(4)  
(b)(4)

(2) The maximum fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED], an amount equal to [REDACTED]

(b)(4)  
(b)(4)

(3) The minimum fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED], an amount equal to [REDACTED]

(b)(4)  
(b)(4)

(4) Fee will be adjusted for actual cost that is less than or more than the target cost stated above using a share ratio of [REDACTED] Government / [REDACTED] Contractor for actual costs less than the target cost, and a ratio of [REDACTED] Government / [REDACTED] Contractor for actual costs greater than the target cost range applied according to Paragraph H-19(c)(1).

(b)(4)  
(b)(4)

(5) Nothing stated in this clause shall take precedence over the clause 52.216-10 - Incentive Fee contained in this contract.

002865

c. Schedule and Performance Incentive.

(1) A maximum [redacted] "flat zone" will be established at the target cost value of [redacted] with the conduct of milestones below. The "flat zone" over which the contractor will earn target fee is for eligible costs from [redacted] to [redacted] once the program milestones set forth below are conducted. (Note: As of the effective date of Modification P00272, only [redacted] of the maximum [redacted] "flat zone" has been acknowledged as earned. The two flat spot incentive opportunities remaining have been projected to be earned at full value; however, if necessary, the estimated fee and total contract value will be adjusted should the remaining two flat spot incentives not be awarded at full value.)

(b)(4)  
(b)(4)  
(b)(4)

(a) [redacted] of the maximum benefit of the "flat zone", earned by the conduct of the SDD System Functional Review NLT 2nd Quarter, Fiscal Year 2007. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned the "Flat Zone" schedule incentive of [redacted]. Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the conclusion of the contract. Reference letter, dated 5 March 2007 from [redacted].

(b)(4)  
(b)(4)  
(b)(6)

[redacted] of the maximum benefit of the "flat zone", earned by the conduct of SDD Orbit Critical Design review NLT 2nd Quarter, Fiscal Year 2009. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned the "Flat Zone" schedule incentive of [redacted]. Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the conclusion of the contract. Reference letter, dated 12 January 2009, [redacted].

(b)(4)(4)  
(b)(4)(4)  
(b)(6)

(c) [redacted] % of the maximum benefit of the "flat zone", earned by the conduct of the Developmental Test 1 (DT-1) in accordance with the criteria set forth in Section J attachment entitled Flat Zone Performance Criteria for JLENS SDD Contract, Section H-19(c), dated 08/10/12. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned a "Flat Zone" schedule incentive of [redacted] or [redacted] % of the available \$ [redacted]. Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the conclusion of the contract.)

(b)(4)  
(b)(4)

(d) \$ [redacted] of the maximum benefit of the "flat zone", earned by the conduct of the Electromagnetic Environmental Effects (E3) Testing in accordance with the criteria set forth in Section J attachment entitled Flat Zone Performance Criteria for JLENS SDD Contract, Section H-19(c), dated 08/10/12. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned a "Flat Zone" schedule incentive of [redacted] or [redacted] % of the available [redacted]. Final determination of incentive fee payment utilizing the "Flat Zone" amount will be made at the conclusion of the contract.)

(b)(4)  
(b)(4)

(e) [redacted] % of the maximum benefit of the "flat zone", earned by the conduct of the Integrated Fire Control Event in accordance with the criteria set forth in Section J attachment entitled Flat Zone Performance Criteria for JLENS SDD Contract, Section H-19(c), dated 08/10/12. (It is hereby acknowledged by the government that Raytheon completed the requirement for this flat zone and earned a "Flat Zone" schedule incentive of [redacted] or [redacted] % of the available [redacted]. SECTION SF 30 BLOCK 14 CONTINUATION PAGE

The following items are applicable to this modification:

SUMMARY OF CHANGES

1. SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

PURPOSE

The purpose of this modification is:

To annotate final settlement of \$12,100,000 for Change Order Modification P00269, the associated three (3) month period of performance extension to 31 December 2013, with scope as provided in the contractor's letter, dated 3 December 2013, which confirmed (1) descope of [redacted] as well as packing of Orbit 1 SuS and 2 support for revised [redacted] System Test, and [redacted] support to cover SuS flyable storage through 31 December 2013. Target and estimated cost and fee values previously increased in Modification P00273 are hereby increased/decreased to reflect the final settlement.

(b)(3)(A)  
(i)&Title 10  
Sec 130 (a)  
(b)

To acknowledge that major equipment items comprising the two (2) orbits to be delivered under this contract will be accepted via DD250 on 19 December 2013 and subsequently provided as Government Furnished Property (GFP) and maintained under Contract W31P4Q-10-C-0003, JLENS Engineering Services. Accordingly, the contractor is hereby authorized rent-free, non-interference use of the JLENS orbits from the date of the DD250 through contract completion on 31 December 2013.

2. SECTION B - SUPPLIES OR SERVICES AND PRICES

SUBCLIN 0017AA:

The target cost has decreased by [redacted] from [redacted] to \$1,529,959,574.00 (which includes [redacted] of cost and [redacted] of facilities capital cost of money).

(b)(4)

The target fee has increased by \$ [redacted] from [redacted] to \$ [redacted]

(b)(4)

The total target cost plus fee of this line item \$1,666,517,965.00.

The target cost and target fee set forth above reflects the negotiated Section B values prior to any adjustments made resulting from estimated cost overruns and share ratio impacts to the fee. Any differences between the Estimated Cost values provided below and the Target Cost values provided above are as a result of estimated cost overruns. Any differences between the Estimated Fee values provided below and the Target Fee values provided above are a result of reductions based on current share ratio impacts to the Target Fee and do not include any allocation for yet to be earned incentives as set forth in Section H-19. As of the date of this modification, the estimated cost and estimated fee are as follows:

The Estimated Cost is [redacted] consisting of \$ [redacted] in cost and [redacted] in facilities capital cost of money.

(b)(4)

The Estimated Fee is [redacted]

Total Estimated Cost plus Fee is [redacted]

(b)(4)

(b)(4)

002873

Pursuant to FAR 16.405-1, the target cost and target fee will be finally determined and adjusted after contract performance.

**B-17. INCENTIVE FEE FOR SUBCLIN 0017AA/CLIN 0018 (SEE H-19):**

In accordance with FAR 52.216-10, entitled "Incentive Fee", the total amount originally negotiated, adjusted in accordance with paragraph d. of this clause, for target cost and target fee for performance under SubCLIN 0017AA/CLIN 0018 are set forth below:

**3. SECTION H – SPECIAL CONTRACT REQUIREMENTS is revised as follows:**

Paragraph H-19, INCENTIVE FEE STRUCTURE AND PAYMENT FOR CLIN 0017, SYSTEM DEVELOPMENT AND DEMONSTRATION (SDD), subparagraph a., b., and c., are revised as follows:

002874

a. General.

SubCLIN 0017AA, System Development and Demonstration (SDD), is a cost-plus-incentive-fee (CPIF) Line Item with cost and schedule incentives as described below. Paragraph H-19(b) applies only to the Cost Incentive and Paragraph H-19(c) applies only to the Schedule Incentive. The target contract price amount of \$1,666,517,965 includes a target cost [REDACTED] (which includes [REDACTED] of cost and [REDACTED] of facilities capital cost of money) and a target incentive fee of [REDACTED] which is [REDACTED] of target cost less facilities capital cost of money.

(b)(4)  
(b)(4)

b. Cost Incentive.

(1) The target fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED], an amount equal to [REDACTED]

(b)(4)  
(b)(4)

(2) The maximum fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED], an amount equal to [REDACTED]

(b)(4)

(3) The minimum fee payable under SubCLIN 0017AA is [REDACTED] of the target cost less facilities capital cost of money [REDACTED], an amount equal to [REDACTED]

(b)(4)

(4) Fee will be adjusted for actual cost that is less than or more than the target cost stated above using a share ratio of [REDACTED] Government / [REDACTED] Contractor for actual costs less than the target cost, and a ratio of [REDACTED] Government / [REDACTED] Contractor for actual costs greater than the target cost range applied according to Paragraph H-19(c)(1).

(b)(4)

(5) Nothing stated in this clause shall take precedence over the clause 52.216-10 - Incentive Fee contained in this contract.

c. Schedule and Performance Incentive.

(1) A [REDACTED] "flat zone" will be established at the target cost value [REDACTED] with the conduct of milestones below. The "flat zone" over which the contractor will earn target fee is for eligible costs from [REDACTED] to [REDACTED] once the program milestones set forth below are conducted. (Note: As of the effective date of Modification P00274, only [REDACTED] of the maximum [REDACTED] "flat zone" has been acknowledged as earned. The two flat spot incentive opportunities remaining have been projected to be earned at full value; however, if necessary, the estimated fee and total contract value will be adjusted should the remaining two flat spot incentives not be awarded at full value.)

SECTION SF 30 BLOCK 14 CONTINUATION PAGE

The following items are applicable to this modification:

SUMMARY OF CHANGES

1. SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

PURPOSE

The purpose of this modification is to increase the estimated contract value of SubCLIN 0017AA by \$5,384,750.00 due to a cost overrun and to provide incremental funding in the amount of \$5,384,750.00.

- The total estimated contract value is increased in the amount of \$5,384,750.00
- Incremental funding for SUBCLIN 0017AA is increased in the amount of \$5,384,750.00

2. SECTION A - SOLICITATION/CONTRACT FORM

The total cost of this contract was increased by \$5,384,750.00 from \$2,036,228,000.00 to \$2,041,612,750.00.

3. SECTION B - SUPPLIES OR SERVICES AND PRICES

SUBCLIN 0017AA:

The estimated cost has increased by [REDACTED] from [REDACTED] to [REDACTED] (b)(4)

The estimated fee has decreased by [REDACTED] from [REDACTED] to \$ [REDACTED] (b)(4)

The total estimated cost plus fee of this line item has increased by \$5,384,750.00 from \$1,798,479,553.00 to \$1,803,864,303.00.

This includes an increase in estimated cost of [REDACTED] consisting of a [REDACTED] increase in cost and a [REDACTED] increase in facilities capital cost of money, and a decrease in estimated fee of [REDACTED] (b)(4)

The target cost and target fee set forth below reflects the negotiated Section B values prior to any adjustments made resulting from estimated cost overruns and share ratio impacts to the fee. Any differences between the Estimated Cost values provided above and the Target Cost values provided below are as a result of estimated cost overruns. Any differences between the Estimated Fee values provided above and the Target Fee values provided below are a result of reductions based on current share ratio impacts to the Target Fee and only reflect to date earned incentives as set forth in Section H-19. As of the date of this modification, the target cost and target fee are as follows:

The target cost is [REDACTED]

The target fee is [REDACTED] (b)(4)

Total target cost plus fee is \$1,666,517,965.00. (b)(4)

002886

Pursuant to FAR 16.405-1, the target cost and target fee will be finally determined and adjusted after contract performance.

CLIN 0030 :

The total cost of this line item has increased by [REDACTED] from [REDACTED] to \$212,634,877.34. (b)(4)

**SUBCLIN 003016 is added as follows:**

<u>ITEM NO</u>	<u>SUPPLIES/SERVICES</u>	<u>QUANTITY</u>	<u>UNIT</u>	<u>UNIT PRICE</u>	<u>AMOUNT</u>
003016	<b>GFEBs Funding for SubCLIN 0017AA</b> <b>CPIF</b> <b>FOB: Destination</b> <b>PURCHASE REQUEST NUMBER: 0010480915</b>				
	<b>ACRN NB</b> <b>CIN: GFEBs001048091500001</b>				<b>\$5,384,750</b>

As stated in Modification P00251, CLIN 0030 has been established for the sole purpose of obligating GFEBs funding for performance of SubCLIN 0017AA. The value of CLIN 0030 equates to the amount of GFEBs funding obligated for performance of SubCLIN 0017AA and should not be considered additional contract value. Informational SubCLINs under CLIN 0030 will be established each time additional GFEBs funding is obligated. CLIN 0030 and its SubCLINs will not be segregated from SubCLIN 0017AA, identified, accounted for, analyzed, or reported separately from SubCLIN0017, including EVMS. All scope remains under SubCLIN 0017AA with associated incentive events and flat zones.

**B-17. INCENTIVE FEE FOR SUBCLIN 0017AA/CLIN 0018 (SEE H-19):**

In accordance with FAR 52.216-10, entitled "Incentive Fee", the total amount originally negotiated, adjusted in accordance with paragraph d. of this clause, for target cost and target fee for performance under SubCLIN 0017AA/CLIN 0018 are set forth below:

\* CLIN 0030 has been established for the sole purpose of obligating GFEBs funding for performance of SubCLIN 0017AA. Informational SubCLINs under CLIN 0030 will be established each time additional GFEBs funding is obligated. For purposes of this funding update, funding obligated under CLIN 0030 will also be reflected under SubCLIN 0017AA and should not be counted twice with regards to the total contract funding obligated.

7. In consideration of the modification agreed to herein as complete equitable adjustment for the contract overrun identified by the contractor on 13 February 2014 in the document titled JLENS Funding Supporting Documentation, the contractor hereby releases the government from any and all liability under this contract for further equitable adjustments attributable to such facts or circumstances giving rise to the request for adjustment.
