

**DEPARTMENT OF DEFENSE
FREEDOM OF INFORMATION DIVISION
1155 DEFENSE PENTAGON
WASHINGTON, DC 20301-1155**

JAN 23 2013

Ref: 14-L-1138

Ms. Ginger McCall
Electronic Privacy Information Center
1718 Connecticut Avenue, N.W.
Suite 200
Washington, D.C. 2009

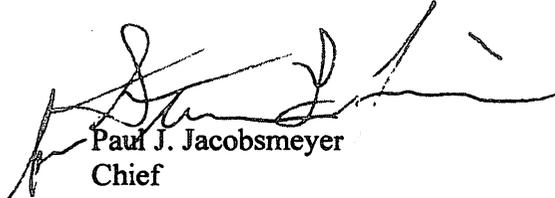

Dear Ms. McCall:

This is the Department of Defense Freedom of Information Division (FOID) response to your July 17, 2012, Freedom of Information Act (FOIA) request. Enclosed, please find 37 pages responsive to your request. Portions of these documents have been redacted because they are exempt from release pursuant to FOIA exemption (b)(5) and (b)(6), identified in the redacted areas. Additionally, 351 pages are being withheld in their entirety pursuant to FOIA exemption 5 U.S.C. § 552 (b)(5).

In this instance, Exemption (b)(5) applies to inter- and intra-agency memoranda which are deliberative in nature. The documents are deliberative and part of the decision making process and contain subjective evaluations, opinions and recommendations. Exemption (b)(6) applies to information, which if released, would constitute a clearly unwarranted invasion of the personal privacy of individuals.

Because the withheld information is a matter of litigation, your appeal rights are considered moot.

Sincerely,

Paul J. Jacobsmeyer
Chief

Enclosures:
As stated

BEIRNE, DAVID E CIV DODHRA FVAP (US)

Subject: Revised AFIT_Report.pdf
Attachments: AFIT_Report.pdf

David,

I am told that you mentioned on Wednesday that there were screen shots from the penetration test documents that showed the vendor names. I have overlain boxes over the AFIT generated screenshots and saved the images into a reduced file format to prevent anyone from being able to strip off the blocks.

Is there anything else you need?

Subject FW: FVAP's Risk Analysis Framework Briefing to NIST

All,
Can we do 10am instead of 10:30am due to Andy Regenscheid's conflict?

Thanks!

-Michael

Michael,

Andy just sent me word that his manager booked him for a 1:30 PM meeting in DC on 4/30/13, and therefore he needs to leave Gaithersburg by 11:30 AM. Do you think it would it be possible to move our meeting to 10:00 AM? I really want to have Andy there the entire meeting as he's been working on absentee voting for years. I didn't send this to everyone – I'm just checking your thoughts on the possibility.

Michael,

We're pleased to host the meeting.

The meeting will be held in Building 222, Room B343. I will need the name, citizenship, and organization of all attendees. All guests and visitors to the NIST campus must have the following items available before entering the Visitor's Center: Photo I.D. (State issued driver's license, Federal ID or passport) and vehicle registration card.

Please let me know if you have any questions.

Regards,

Joshua Franklin

Subject: Technical Brief on SA Tools

Mary/Brian,

I wanted to follow-up on our last briefing to you on the use of our software

assurance tools and schedule a more in-depth technical brief on the operation of the tools and their respective findings. Based on my recollection from our last meeting, I believe you wanted to see some of the actual operation of our tools along with the reports. If so, it looks like we will need to travel to the CALIBRE offices in Springfield.

The only alternative is that if you want to see just the technical reports themselves, we could host the meeting at our CSG meeting space.

Please advise as I want to make sure you get what you need and offer assistance in terms of what you would like to see included in our technical appendices.

I'm currently looking at Wed., 4/23 at 12:30 or 1 p.m.

David,
Sorry I did not get back to you before now. Thanks for the invitation. Unfortunately both the 23rd and 2nd are booked for us. We would love it if you all could share any notes from the meeting. I can also get with Mary afterwards at some point for a quick de-brief.
Thanks again.
Brian

Mary,
Thanks for the response. We can likely accommodate Wed., 4/23 as originally planned, but Jack Cobb will be in town on May 2nd so we would like to see if we could move our briefing to then. We anticipate a 10 a.m. start which should give you time to come down, attend, and get out of dodge before the crush of rush hour really begins.

Please let me know your preference/availability for 4/23 or 5/2 and how many NIST/EAC folks will be in attendance.

Mary/Brian,

I wanted to follow-up on our last briefing to you on the use of our software assurance tools and schedule a more in-depth technical brief on the

operation
of the tools and their respective findings. Based on my recollection from
our
last meeting, I believe you wanted to see some of the actual operation of
our
tools along with the reports. If so, it looks like we will need to travel
to
the CALIBRE offices in Springfield.

The only alternative is that if you want to see just the technical reports
themselves, we could host the meeting at our CSG meeting space.

Please advise as I want to make sure you get what you need and offer
assistance in terms of what you would like to see included in our technical
appendices.

I'm currently looking at Wed., 4/23 at 12:30 or 1 p.m.

Attached is the published report by NSA CAS.

Mary, this report answers some of your questions about classes of weaknesses that static tools find.

If you want more information, we requested and received the reports used to derive this report, but they are marked "For Official Use Only"(FOUO). I had some conversations with Josh, Andy, and Michael when we were researching and I think Josh may have requested them also.

Ms. Brady,

Greetings. It was a pleasure to talk with you at the 2014 Eighth Annual Voting and Elections Summit during conference social.

Per our discussion (b)(5)

(b)(5)

David Beirne has asked CALIBRE to host a discussion with members of the EAC on our methodologies, objectives, and the type of information we will provide FVAP in our final report. In coordination with Davie Beirne I would like to ask if you would consider sending a NIST representative to this meeting. The meeting is planned for February 26 from 10:00 to 2:00 and will potentially be held at the Hall of States (444 North Capitol St NW #237). I will let you know the exact location once that has been determined.

Because I am taking a few days off beginning on Monday, I respectfully request that you correspond with Mike Teribury (CC line) for any meeting details you may need.

Thanks for any consideration you are able to provide this and I hope to see someone from NIST at the meeting.
