After all division approvals, forward signed hard copy plus electronic copy to FBI OGC/PCLU (JEH 7350). (The FBI Privacy and Civil Liberties Officer's determinations, conditions, and/or final approval will be recorded on the following page.)
FINAL FBI APPROVAL / DETERMINATIONS / CONDITIONS:

_____ PIA is required by the E-Government Act.

_____ PIA is to be completed as a matter of FBI/DOJ discretion.

Is PIA to be published on FBI.GOV (after any RMD FOIA redactions)?  ____ Yes.  ____ No

____PIA is not required for the following reason(s):

____ System does not collect, maintain, or disseminate PII.

____ System is grandfathered (in existence before 4/17/2003; no later changes posing significant privacy risks).

____ Information in the system relates to internal government operations.

____ System has been previously assessed under an evaluation similar to a PIA.

____ No significant privacy issues (or privacy issues are unchanged).

The only PII maintained is the user ID; maintained only within audit logs to which access is limited.

____ Other

Applicable SORN(s):  FBI-002 (Central Records System) and DOJ-002 (DOJ Computer Systems Activity & Access Records)

Notify FBI RMD/RIDS per MIoG 190.2.3?  ____ No  ____ Yes -- See sample EC on PCLU intranet website here: http://home/DO/OGC/L1B/PCLU/PrivacyCivil%20Liberties%20Library/form_for_miog190-2-3_ec.wpd

SORN/SORN revision(s) required?  ____ No  ____ Yes

Prepare/revise/add Privacy Act (e)(3) statements for related forms?  ____ No  ____ Yes

RECORDS. The program should consult with RMD to identify/resolve any Federal records/electronic records issues. The system may contain Federal records whether or not it contains Privacy Act requests and, in any event, a records schedule approved by the National Archives and Records Administration is necessary. RMD can provide advice on this as well as on compliance with requirements for Electronic Recordkeeping Certification and any necessary updates.

Other:

________________________  ____________________________  ____________________________
Elizabeth Withnell, Acting Deputy General Counsel  Signature:  Date Signed:  6/13/11
Acting FBI Privacy and Civil Liberties Officer
1. INFORMATION ABOUT THE SYSTEM / PROJECT

1. Provide a general description of the system or project that includes: (a) name of the system/project, including associated acronyms; (b) structure of the system/project, including interconnections with other projects or systems; (c) purpose of the system/project; (d) nature of the information in the system/project and how it will be used; (e) who will have access to the information in the system/project; (f) and the manner of transmission to all users.

The FBI operates the Consolidated Asset Tracking System (CATS) with the FBI's secure internal network, FBI-Net, with the Department of Justice Data Center in Rockville, MD.

FBI-Net is the FBI's secure internal network, accredited to operate at the SECRET classification level. The CATS permits FBI personnel to access information from the DOJ Consolidated Asset Forfeiture System (CATS). CATS contains information about assets that have been confiscated from individuals participating in criminal activity.

such as the one utilized by CATS

2. Does the system/project collect, maintain, or disseminate any information about individuals (i.e., a human being or natural person, regardless of nationality)?

_____ NO

_____ YES
Users must sign-in to the CATS using a user ID and password. The only information maintained by CATS is user ID, date/time of access, and access to the audit logs is limited to personnel with a need-to-know.

3. Please indicate if any of the following characteristics apply to the information in the system about individuals: Bear in mind that log-on information may identify or be linkable to an individual. (Check all that apply.)

_____ The information directly identifies specific individuals.

_____ The information is intended to be used, in conjunction with other data elements, to indirectly identify specific individuals.

X The information can be used to distinguish or trace an individual’s identity (i.e., it is linked or linkable to specific individuals).

If you marked any of the above, proceed to Question 4.

_____ None of the above. If none of the above, describe why the information does not identify specific individuals either directly or indirectly.

4. Does the system/project pertain only to government employees, contractors, or consultants?

_____ NO  ___X___ YES

5. Is information about United States citizens or lawfully admitted permanent resident aliens retrieved from the system/project by name or other personal identifier?

_____ NO. [If no, skip to question 7.]

X YES. [If yes, proceed to the next question.]

CATS audit logs may be queried via personal identifier (in this case, an individual’s user ID). As noted above, access to the audit logs is limited to personnel with a need-to-know.

6. Does the system/project collect any information directly from the person who is the subject of the information?

_____ NO  [If no, proceed to question 7.]
X YES Individual users enter their unique user ID into CATS where the information is maintained as part of its audit log.

a. Does the system/project support criminal, CT, or FCI investigations or assessments?

X NO

YES [If yes, proceed to question 7.]

b. Are subjects of information from whom the information is directly collected provided a written Privacy Act (e)(3) statement (either on the collection form or via a separate notice)?

X NO

A Privacy Act (e)(3) statement is unnecessary since the user ID in CATS does not convey information about an individual.

YES Identify any forms, paper or electronic, used to request such information from the information subject:

7. Are Social Security Numbers (SSNs) collected, maintained or disseminated from the system/project? Full SSNs should only be used as identifiers in limited instances.

X NO YES If yes, check all that apply:

SSNs are necessary to establish/confirm the identity of subjects, victims, witnesses or sources in this law enforcement or intelligence activity.

SSNs are necessary to identify FBI personnel in this internal administrative system.

SSNs are important for other reasons. Describe:

The system/project provides special protection to SSNs (e.g., SSNs are encrypted, hidden from all users via a look-up table, or only available to certain users). Describe:

It is not feasible for the system/project to provide special protection to SSNs. Explain:
8. Is the system operated by a contractor?
   
   X No.
   
   _____ Yes. Information systems operated by contractors for the FBI may be considered Privacy Act systems of records. The Federal Acquisition Regulation contains standard contract clauses that must be included in the event the system collects, maintains or disseminates PII and additional requirements may be imposed as a matter of Department of Justice policy. Consultations with the Office of the General Counsel may be required if a contractor is operating the system for the FBI.

9. Has the system undergone Certification & Accreditation (C&A) by the FBI Security Division (SecD)?
   
   _____ NO If no, indicate reason; if C&A is pending, provide anticipated completion date:
   
   X YES If yes, please indicate the following, if known:
   
   Provide date of last C&A certification/re-certification: The last certification for CATS was dated November 29, 2010.
   
   Confidentiality: Low Moderate X High Undefined
   
   Integrity: _Low _Moderate X High _Undefined
   
   Availability: _Low X Moderate High _Undefined
   
   _____ Not applicable -- this system is only paper-based.

10. Is this system/project the subject of an OMB-300 budget submission?

    X No

    _____ YES If yes, please provide the date and name or title of the OMB submission:

    X No

    _____ YES If yes, please describe the data mining function:

12. Is this a national security system (as determined by the SecD)?
X__ NO     ______ YES

13. Status of System/ Project:

_____ This is a new system/ project in development.

II. EXISTING SYSTEMS / PROJECTS

1. When was the system/project developed? January 2006

2. Has the system/project undergone any significant changes since April 17, 2003?

X__ NO [If no, proceed to next question (II.3).]

_____ YES If yes, indicate which of the following changes were involved (mark all changes that apply, and provide brief explanation for each marked change):

_____ A conversion from paper-based records to an electronic system.

_____ A change from information in a format that is anonymous or non-identifiable to a format that is identifiable to particular individuals.

_____ A new use of an IT system/project, including application of a new technology, that changes how information in identifiable form is managed. (For example, a change that would create a more open environment and/or avenue for exposure of data that previously did not exist.)

_____ A change that results in information in identifiable form being merged, centralized, or matched with other databases.

_____ A new method of authenticating the use of and access to information in identifiable form by members of the public.

_____ A systematic incorporation of databases of information in identifiable form purchased or obtained from commercial or public sources.

_____ A new interagency use or shared agency function that results in new uses or exchanges of information in identifiable form.

_____ A change that results in a new use or disclosure of information in identifiable form.

_____ A change that results in new items of information in identifiable form being added into the system/project.
Changes do not involve a change in the type of records maintained, the individuals on whom records are maintained, or the use or dissemination of information from the system/project.

Other [Provide brief explanation]:

3. Does a PIA for this system/project already exist?

   X NO    YES

If yes:

   a. Provide date/title of the PIA:

   b. Has the system/project undergone any significant changes since the PIA?

   NO    YES

7. Are Social Security Numbers (SSNs) collected, maintained or disseminated from the system/project? Full SSNs should only be used as identifiers in limited instances.

NO YES If yes, check all that apply:

YES SSNs are necessary to establish/confirm the identity of subjects, victims, witnesses or sources in this law enforcement or intelligence activity.

YES SSNs are necessary to identify FBI personnel in this internal administrative system.

YES SSNs are important for other reasons. Describe:

YES The system/project provides special protection to SSNs (e.g., SSNs are encrypted, hidden from all users via a look-up table, or only available to certain users). Describe: The tool masks the first five digits of an individual’s SSN. However, any individual may view the entire SSN by

It is not feasible for the system/project to provide special protection to SSNs. Explain:
8. Is the system operated by a contractor?

  ___ No.
  ___ Yes. Information systems operated by contractors for the FBI may be considered Privacy Act systems of records. The Federal Acquisition Regulation contains standard contract clauses that must be included in the event the system collects, maintains or disseminates PII and additional requirements may be imposed as a matter of Department of Justice policy. Consultations with the Office of the General Counsel may be required if a contractor is operating the system for the FBI.

9. Has the system undergone Certification & Accreditation (C&A) by the FBI Security Division (SecD)?

  ___ NO  If no, indicate reason; if C&A is pending, provide anticipated completion date: Security Division has determined that C&A is not required for the use of this tool.

  ___ YES  If yes, please indicate the following, if known:

  Provide date of last C&A certification/re-certification:

  Confidentiality: ___ Low ___ Moderate ___ High ___ Undefined
  Integrity:     ___ Low ___ Moderate ___ High ___ Undefined
  Availability: ___ Low ___ Moderate ___ High ___ Undefined

  ___ Not applicable – this system is only paper-based.

    ___ NO

    ___ YES  If yes, please describe the data mining function:

11. Is this a national security system (as determined by the SecD)?

    ___ NO  ___ YES

12. Status of System/ Project:

    ___ This is a new system/ project in development.
II. EXISTING SYSTEMS / PROJECTS

1. When was the system/project developed?

2. Has the system/project undergone any significant changes since April 17, 2003?

   NO  [If no, proceed to next question (II.3.).]

   YES  If yes, indicate which of the following changes were involved (mark all changes that apply, and provide brief explanation for each marked change):

   A conversion from paper-based records to an electronic system.

   A change from information in a format that is anonymous or non-identifiable to a format that is identifiable to particular individuals.

   A new use of an IT system/project, including application of a new technology, that changes how information in identifiable form is managed. (For example, a change that would create a more open environment and/or avenue for exposure of data that previously did not exist.)

   A change that results in information in identifiable form being merged, centralized, or matched with other databases.

   A new method of authenticating the use of and access to information in identifiable form by members of the public.

   A systematic incorporation of databases of information in identifiable form purchased or obtained from commercial or public sources.

   A new interagency use or shared agency function that results in new uses or exchanges of information in identifiable form.

   A change that results in a new use or disclosure of information in identifiable form.

   A change that results in new items of information in identifiable form being added into the system/project.

   Changes do not involve a change in the type of records maintained, the individuals on whom records are maintained, or the use or dissemination of information from the system/project.
UNCLASSIFIED//FOUO

UNCLASSIFIED//FOR OFFICIAL USE ONLY

FBI PTA: Continuity Management System (CMS)

FINAL FBI APPROVAL / DETERMINATIONS / CONDITIONS:

___ PIA is required by the E-Government Act.

___ PIA is to be completed as a matter of FBI/DOJ discretion.

Is PIA to be published on FBI.gov (after any RMD FGIA redactions)? ___ Yes ___ No (indicate reason):

___ PIA is not required for the following reason(s):
   ___ System does not collect, maintain, or disseminate PII.
   ___ System is grandfathered (in existence before 4/17/2003; no later changes posing significant privacy risks).
   ___ Information in the system relates to internal government operations.
   ___ System has been previously assessed under an evaluation similar to a PIA.
   ___ No significant privacy issues (or privacy issues are unchanged).
   ___ Other (describe):

Applicable SORN(s): N/A

FBI COOP plans are maintained by the Security Division within case category 319Q-HQ-A1487664, Emergency Plans.

Notify FBI RMD/IDS per MIOG 190.2.3? ___ No ___ Yes—See sample EC on PCLU intranet website here:
   http://home/DO/OGC/QTB/PCLU/PrivacyCivil%20Liberties%20Library/form_for_mio190-2-3_ec.wpd

SORN/SORN revision(s) required? ___ No ___ Yes (indicate revisions needed):

Prepare/revise/add Privacy Act (e)(3) statements for related forms? ___ No ___ Yes (indicate forms affected):

RECORDS: The program should consult with RMD to identify/resolve any Federal records/electronic records issues. The system may contain Federal records whether or not it contains Privacy Act requests and, in any event, a records schedule approved by the National Archives and Records Administration is necessary. RMD can provide advice on this as well as on compliance with requirements for Electronic Recordkeeping Certification and any necessary updates.

UNCLASSIFIED//FOR OFFICIAL USE ONLY
FBI PTA: Continuity Management System (CMS)

I. INFORMATION ABOUT THE SYSTEM / PROJECT

1. Provide a general description of the system or project that includes: (a) name of the system/project, including associated acronyms; (b) structure of the system/project, including interconnections with other projects or systems; (c) purpose of the system/project; (d) nature of the information in the system/project and how it will be used; (e) who will have access to the information in the system/project; (f) and the manner of transmission to all users.

Continuity of operations plans (COOPs) are federally-mandated plans to ensure that the United States government continues to provide mission essential services to the American public during any type of emergency or disaster, whether natural or man-made. National Security Presidential Directive (NSPD) 51/Homeland Security Presidential Directive (HSPD) 20 requires Executive Branch departments and agencies to develop and maintain COOPs in support of National Essential Functions (NEFs). Within the FBI, Corporate Policy Directive (CPD) 0210D, Continuity of Operations (COOP) (Nov. 17, 2009), requires that the FBI maintain a COOP program to ensure that mission essential functions (MEFs) continue under all circumstances.

To support contingency planning for COOP events, the FBI holds a license for Continuity Management Solution\(^1\) (CMS), a comprehensive commercial-off-the-shelf (COTS) software product developed by SunGard Availability Services designed to help manage the entire lifecycle of a Business Continuity program. CMS utilizes a common platform that enables data consistency across multiple planning, testing and execution-management processes, as well as seamless enterprise reporting.

The FBI will utilize two CMS applications for COOP purposes, the Living Disaster Recovery Planning System (LDRPS) and the Business Impact Analysis Professional (BIA).

LDRPS automates the creation, maintenance, storage and retrieval of COOPs throughout Bureau components (FBI HQ Divisions and Field Offices) through the use of templates and interface tools.\(^2\) COOPs contained in LDRPS will typically include information regarding:

---

\(^1\) Continuity Management System is the internal FBI name for this application and project.

\(^2\) It is anticipated that the COOPs maintained within LDRPS will initially pertain only to Security Division within case classification 319Q. As CMS is deployed, individual component COOPs (maintained by the Security Division within case classification 319Q) may also be added to LDRPS.

UNCLASSIFIED//FOR OFFICIAL USE ONLY
The BIA software in CMS will be used to acquire information within the FBI regarding vulnerabilities (such as operational and financial), impacts and recovery strategies. BIA organizes complex data presenting it in a usable format that will assist FBI personnel in creating COOPs.

As a first step, BIA will be used to create internal surveys seeking to identify FBI weaknesses and vulnerabilities. For example, a survey question might ask “What areas of your Division should receive priority attention during an event triggering a COOP?” A CMS administrator will prepare the survey and electronically distribute it to relevant personnel with COOP responsibilities.

BIA also facilitates the review of survey results by appropriate personnel. The scope of survey results available for viewing may range from individual responses within a specific Division to Bureau-wide.

BIA also has a robust reporting function, enabling FBI planners to build customized reports displaying collected data in charts and graphs using such programs as Microsoft Excel. Reports can be saved in PDF format for easy distribution.

CMS will contain limited personally identifiable information (PII) about individuals associated with the LDRPS and BIA applications. This information will include the names and contact information (office, home and Blackberry telephone numbers, Government e-mail address) of FBI personnel designated as members of a COOP Emergency Relocation Group (ERG); names and contact information for FBI vendors (address, telephone number and POC) whose services may be required in a COOP event; and the names and contact information (physical location, telephone number) of FBI personnel participating in BIA surveys. Neither SSNs nor DOBs will be contained in CMS.

CMS will[ ] and will be accessed from FBINET/Secret Enclave workstations. Access to CMS will be restricted to COOP Coordinators within each Headquarters Division and Field Office, as well as one or more system administrators. The system administrator(s) will identify individuals requiring access to CMS and provide those individuals with a link to the CMS site.

Individual COOP Coordinators will only be able to access and modify the specific COOP plan for which they are responsible; similarly, they will only have access to the BIA surveys pertaining to their specific component. CMS system administrators will, however, have access to all COOP Plans within LDRPS, as well as to all survey results contained in BIA.
2. Does the system/project collect, maintain, or disseminate any information about individuals (i.e., a human being or natural person, regardless of nationality)?

   ____ NO  [If no, STOP. The PTA is now complete and after division approval(s) should be submitted to FBI OGC/PCLU for final FBI approval. Unless you are otherwise advised, no PIA is required.]

   ____ YES  [If yes, please continue.]

   While CMS contains point-of-contact (POC) information, the purpose of the system is to collect and maintain COOPs and work associated with those plans.

3. Please indicate if any of the following characteristics apply to the information in the system about individuals: Bear in mind that log-on information may identify or be linkable to an individual. (Check all that apply.)

   ____ The information directly identifies specific individuals.

   ____ The information contains POC information for individuals associated with COOP plans and events.

   ____ The information is intended to be used, in conjunction with other data elements, to indirectly identify specific individuals.

   ____ The information can be used to distinguish or trace an individual’s identity (i.e., it is linked or linkable to specific individuals).

If you marked any of the above, proceed to Question 4.

   ____ None of the above. If none of the above, describe why the information does not identify specific individuals either directly or indirectly. [If you checked this item, STOP here after providing the requested description.]

4. Does the system/project pertain only to government employees, contractors, or consultants?

   ____ NO  ____ YES

5. Is information about United States citizens or lawfully admitted permanent resident aliens retrieved from the system/project by name or other personal identifier?

   ____ NO. [If no, skip to question 7.]

   ____ YES. [If yes, proceed to the next question.]
FBI PTA: Continuity Management System (CMS)

6. Does the system/project collect any information directly from the person who is the subject of the information?

_____ NO  [If no, proceed to question 7.]

_____ YES

a. Does the system/project support criminal, CT, or FCJ investigations or assessments?

_____ NO

_____ YES  [If yes, proceed to question 7.]

b. Are subjects of information from whom the information is directly collected provided a written Privacy Act (e)(3) statement (either on the collection form or via a separate notice)?

_____ NO  [The program will need to work with PCLU to develop/implement the necessary form(s).]

_____ YES  Identify any forms, paper or electronic, used to request such information from the information subject:

7. Are Social Security Numbers (SSNs) collected, maintained or disseminated from the system/project? Full SSNs should only be used as identifiers in limited instances.

_____ X NO     _____ YES  If yes, check all that apply:

_____ SSNs are necessary to establish/confirm the identity of subjects, victims, witnesses or sources in this law enforcement or intelligence activity.

_____ SSNs are necessary to identify FBI personnel in this internal administrative system.

_____ SSNs are important for other reasons. Describe:

_____ The system/project provides special protection to SSNs (e.g., SSNs are encrypted, hidden from all users via a look-up table, or only available to certain users). Describe:

_____ It is not feasible for the system/project to provide special protection to SSNs. Explain:

8. Is the system operated by a contractor?

UNCLASSIFIED//FOR OFFICIAL USE ONLY
UNCLASSIFIED//FOR OFFICIAL USE ONLY

FBI PTA: Continuity Management System (CMS)

_X_ No.

___ Yes. Information systems operated by contractors for the FBI may be considered Privacy Act systems of records. The Federal Acquisition Regulation contains standard contract clauses that must be included in the event the system collects, maintains or disseminates PII and additional requirements may be imposed as a matter of Department of Justice policy. Consultations with the Office of the General Counsel may be required if a contractor is operating the system for the FBI.

9. Has the system undergone Certification & Accreditation (C&A) by the FBI Security Division (SecD)?

___ NO If no, indicate reason; if C&A is pending, provide anticipated completion date:

_X_ YES If yes, please indicate the following, if known:

Since CMS is an application, rather than an IT system, it will not be separately accredited. CMS will ______ which was accredited on August 31, 2010 and has authority to operate (ATO) through August 30, 2013. ______ has the following risk levels:

Confidentiality: ___Low ___Moderate _X_ High ___Undefined

Integrity: ___Low ___Moderate _X_ High ___Undefined

Availability: ___Low ___Moderate _X_ High ___Undefined

___ Not applicable – this system is only paper-based.

10. Is this system/project the subject of an OMB-300 budget submission?

_X_ NO

___ YES If yes, please provide the date and name or title of the OMB submission:

_X_ NO
FBI PTA: Continuity Management System (CMS)

_____ YES If yes, please describe the data mining function:

12. Is this a national security system (as determined by the SecD)?

_____ NO  _____ YES

It is anticipated that at least some of the information contained in COOPS maintained in CMS will contain classified information.

13. Status of System/ Project:

_____ X This is a new system/project in development. [If you checked this block, STOP. The PTA is now complete and after division approval(s) should be submitted to FBI OGC/PCLI for final FBI approval and determination if PIA and/or other actions are required.]

II. EXISTING SYSTEMS / PROJECTS

1. When was the system/project developed?

2. Has the system/project undergone any significant changes since April 17, 2003?

_____ NO [If no, proceed to next question (II.3.).]

_____ YES If yes, indicate which of the following changes were involved (mark all changes that apply, and provide brief explanation for each marked change):

_____ A conversion from paper-based records to an electronic system.

_____ A change from information in a format that is anonymous or non-identifiable to a format that is identifiable to particular individuals.

_____ A new use of an IT system/project, including application of a new technology, that changes how information in identifiable form is managed. (For example, a change that would create a more open environment and/or avenue for exposure of data that previously did not exist.)

_____ A change that results in information in identifiable form being merged, centralized, or matched with other databases.

_____ A new method of authenticating the use of and access to information in identifiable form by members of the public.

_____ A systematic incorporation of databases of information in identifiable form purchased or obtained from commercial or public sources.
UNCLASSIFIED//FOR OFFICIAL USE ONLY

FBI PTA: Continuity Management System (CMS)

_____ A new interagency use or shared agency function that results in new uses or exchanges of information in identifiable form.

_____ A change that results in a new use or disclosure of information in identifiable form.

_____ A change that results in new items of information in identifiable form being added into the system/project.

_____ Changes do not involve a change in the type of records maintained, the individuals on whom records are maintained, or the use or dissemination of information from the system/project.

_____ Other [Provide brief explanation]:

3. Does a PIA for this system/project already exist?

_____ NO  _____ YES

If yes:

a. Provide date/title of the PIA:

b. Has the system/project undergone any significant changes since the PIA?

_____ NO  _____ YES

RECORDS. The program should consult with RMD to identify/resolve any Federal records/electronic records issues. The system may contain Federal records whether or not it contains Privacy Act requests and, in any event, a records schedule approved by the National Archives and Records Administration is necessary. RMD can provide advice on this as well as on compliance with requirements for Electronic Recordkeeping Certification and any necessary updates.

Other:
Standard Form 153 (SF-153), COMSEC MATERIAL REPORT, is used throughout the United States Intelligence Community, including the FBI, to formally account for custody of COMSEC materials. SF-153 contains the names and signatures of individuals handling COMSEC materials, but does not contain a Privacy Act Statement.

SF-153s pertaining to FBI COMSEC materials are retained by the FBI’s Central Office of Record (COR) for five years and then destroyed.

Elizabeth Ross Withnell, Acting Deputy General Counsel and FBI Privacy and Civil Liberties Officer

Signature: __________________________ Date Signed: 2/5/11
I. INFORMATION ABOUT THE SYSTEM / PROJECT

1. Provide a general description of the system or project that includes: (a) name of the system/project, including associated acronyms; (b) structure of the system/project, including interconnections with other projects or systems; (c) purpose of the system/project; (d) nature of the information in the system/project and how it will be used; (e) who will have access to the information in the system/project; (f) and the manner of transmission to all users.

Communications Security (COMSEC) is the protection of classified and sensitive information through electronic systems utilizing cryptographic equipment, documents and aids. One aspect of COMSEC is the use of secure telecommunications and information handling equipment and associated cryptographic components, ____________

The Security Division's Data Communications Security Unit (DCSU) has been designated as the FBI's Central Office of Record (COR), responsible for FBI COMSEC materials and equipment. To facilitate its work, COR utilizes the COMSEC ____________

Access to ____________ is restricted to FBI personnel in the COMSEC program.

Only limited personally identifiable information (PII) about FBI personnel is maintained in ____________ Personnel are identified in ____________ by their name and ____________ user ID. Originally a standalone system operated by COR ____________ is being added as an application to the FBI's Secret Enclave (FBINET), the Bureau's network for the primary investigative and administrative work of the FBI. Deployment on the Secret Enclave will enable COR, as well as COMSEC managers and alternate managers at HQ and in the field, to ____________

2. Does the system/project collect, maintain, or disseminate any information about individuals (i.e., a human being or natural person, regardless of nationality)?

____ NO

____ YES  [If yes, please continue.]

3. Please indicate if any of the following characteristics apply to the information in the system about individuals: Bear in mind that log-on information may identify or be linkable to an individual.

(Check all that apply.)

____ The information directly identifies specific individuals.

____ The information is intended to be used, in conjunction with other data elements, to indirectly identify specific individuals.
UNCLASSIFIED//FOR OFFICIAL USE ONLY

X The information can be used to distinguish or trace an individual’s identity (i.e., it is linked or linkable to specific individuals).

If you marked any of the above, proceed to Question 4.

X None of the above. If none of the above, describe why the information does not identify specific individuals either directly or indirectly.

4. Does the system/project pertain only to government employees, contractors, or consultants?
   
   XXXX NO XXXX YES

5. Is information about United States citizens or lawfully admitted permanent resident aliens retrieved from the system/project by name or other personal identifier?
   
   XXXX NO. [If no, skip to question 7.]
   
   XXXX YES. [If yes, proceed to the next question.]

   XXXX NO [If no, proceed to question 7.]
   
   XXXX YES

   a. Does the system/project support criminal, CT, or FCI investigations or assessments?

   XXXX NO
   
   XXXX YES [If yes, proceed to question 7.]

   b. Are subjects of information from whom the information is directly collected provided a written Privacy Act (c)(3) statement (either on the collection form or via a separate notice)?

   XXXX NO See comments regarding SF-153 on page 2.
   
   XXXX YES

7. Are Social Security Numbers (SSNs) collected, maintained or disseminated from the system/project? Full SSNs should only be used as identifiers in limited instances.

   XXXX NO XXXX YES If yes, check all that apply:

UNCLASSIFIED//FOR OFFICIAL USE ONLY
SSNs are necessary to establish/confirm the identity of subjects, victims, witnesses or sources in this law enforcement or intelligence activity.

SSNs are necessary to identify FBI personnel in this internal administrative system.

SSNs are important for other reasons. Describe:

The system/project provides special protection to SSNs (e.g., SSNs are encrypted, hidden from all users via a look-up table, or only available to certain users). Describe:

It is not feasible for the system/project to provide special protection to SSNs. Explain:

8. Is the system operated by a contractor?

X No.

Yes. Information systems operated by contractors for the FBI may be considered Privacy Act systems of records. The Federal Acquisition Regulation contains standard contract clauses that must be included in the event the system collects, maintains or disseminates PII and additional requirements may be imposed as a matter of Department of Justice policy. Consultations with the Office of the General Counsel may be required if a contractor is operating the system for the FBI.

9. Has the system undergone Certification & Accreditation (C&A) by the FBI Security Division (SecD)?

X NO If no, indicate reason; if C&A is pending, provide anticipated completion date:

C&A is pending for and is expected to be completed in mid-2011. At this time, the anticipated risk levels are “High” in all three categories.

YES If yes, please indicate the following, if known:

Provide date of last C&A certification/re-certification:

Confidentiality: __Low__Moderate __High__Undefined

Integrity: __Low__Moderate __High__Undefined

Availability: __Low__Moderate __High__Undefined
Not applicable – this system is only paper-based.
10. Is this system/project the subject of an OMB-300 budget submission?

   ☑ NO

   ☐ YES  If yes, please provide the date and name or title of the OMB submission:

   ☑ NO

   ☐ YES  If yes, please describe the data mining function:

12. Is this a national security system (as determined by the SecD)?

   ☑ NO  ☐ YES

13. Status of System/Project:

   ☑ This is a new system/project in development.

II. EXISTING SYSTEMS / PROJECTS

1. When was the system/project developed?  2004

2. Has the system/project undergone any significant changes since April 17, 2003?

   ☑ NO  [If no, proceed to next question (II.3).]

   ☑ YES  If yes, indicate which of the following changes were involved (mark all changes that apply, and provide brief explanation for each marked change):

       ☑ A conversion from paper-based records to an electronic system.

       ☑ A change from information in a format that is anonymous or non-identifiable to a format that is identifiable to particular individuals.

       ☑ A new use of an IT system/project, including application of a new technology, that changes how information in identifiable form is managed. (For example, a change that would create a more open environment and/or avenue for exposure of data that previously did not exist.)

       ☑ A change that results in information in identifiable form being merged, centralized, or matched with other databases.
A new method of authenticating the use of and access to information in identifiable form by members of the public.

A systematic incorporation of databases of information in identifiable form purchased or obtained from commercial or public sources.

A new interagency use or shared agency function that results in new uses or exchanges of information in identifiable form.

A change that results in a new use or disclosure of information in identifiable form.

A change that results in new items of information in identifiable form being added into the system/project.

Changes do not involve a change in the type of records maintained, the individuals on whom records are maintained, or the use or dissemination of information from the system/project.

Other [Provide brief explanation]:

3. Does a PIA for this system/project already exist?

   X NO   YES

If yes:

   a. Provide date/title of the PIA:

   b. Has the system/project undergone any significant changes since the PIA?

   NO   YES

[The PTA is now complete and after division approval(s) should be submitted to FBI OGC/PCLU for final FBI approval and determination if PIA and/or other actions are required.]

After all division approvals, forward signed hard copy plus electronic copy to FBI OGC/PCLU (JEH 7350).
(The FBI Privacy and Civil Liberties Officer's determinations, conditions, and/or final approval will be recorded on the following page.)
FINAL FBI APPROVAL / DETERMINATIONS / CONDITIONS: [This section will be completed by the FBI PCLU/PCLO following PTA submission. The PTA drafter should skip to the next page and continue.]

___ PIA is required by the E-Government Act.

___ PIA is to be completed as a matter of FBI/DOJ discretion.

Is PIA to be published on FBI.GOV (after any RMD FOIA redactions)? ___ Yes. ___ No (indicate reason):

___ X___ PIA is not required for the following reason(s):

___ System does not collect, maintain, or disseminate PII.

___ System is grandfathered (in existence before 4/17/2003; no later changes posing significant privacy risks).

___ X___ Information in the system relates to internal government operations.

___ System has been previously assessed under an evaluation similar to a PIA.

___ X___ No significant privacy issues (or privacy issues are unchanged).

___ Other (describe):

___ Notify FBI RMD/RIDS per MIOG 190.2-3? ___ X___ No. ___ Yes—See sample EC on PCLU intranet website here: http://home/DO/OGC/LTB/PCLU/PrivacyCivil%20Liberties%20Library/form_for_miog190-2-3_ec.wpd

___ X___ SORN/SORN revision(s) required? ___ X___ Yes (indicate revisions needed):

___ X___ Prepare/revise/add Privacy Act (eX) (3) statements for related forms? ___ X___ No. ___ Yes (indicate forms affected):

RECORDS. The program should consult with RMD to identify/resolve any Federal records/electronic records issues. The system may contain Federal records whether or not it contains Privacy Act requests and, in any event, a records schedule approved by the National Archives and Records Administration is necessary. RMD can provide advice on this as well as compliance with requirements for Electronic Records Keeping Certification and any necessary updates.

Christine M. Costello, Acting Deputy General Counsel and FBI Privacy and Civil Liberties Officer

Signature: [Signature]  Date Signed: 1-3-2013
I. INFORMATION ABOUT THE SYSTEM / PROJECT

1. Provide a general description of the system or project that includes: (a) name of the system/project, including associated acronyms; (b) structure of the system/project, including interconnections with other projects or systems; (c) purpose of the system/project; (d) nature of the information in the system/project and how it will be used; (e) who will have access to the information in the system/project; (f) and the manner of transmission to all users.

The FBI's Resource Planning Office (RPO), Resource Analysis Unit (RAU), oversees the allocation of all field office special agents and professional staff Funded Staffing Levels (FSLs) through the [redacted]. Through announced open seasons, usually occurring annually, field offices are given the opportunity to request additional resources, while headquarters program managers assess long-term personnel resource needs in order to actively address top operational priorities.

The RPO has developed an application and electronic workflow, the [redacted] for the processing of FSL requests and to provide FBI Senior Executives with information and reports regarding pending or closed resource requests. [redacted] is replacing the [redacted] presently used for these purposes. Users in the field and at headquarters will now be able to track FSL resource requests [redacted] and resource reports will be automated, which will enhance the efficiency and transparency of the process. [redacted] will collect resource request information from field offices and automatically forward that information to the relevant division program managers at FBI headquarters. The information collected and maintained in the database will consist of:

- The name of the Field Office submitting the request;
- The type of the position/subposition (i.e., Agent - MST-A (mobile surveillance team - armed));
- The investigative program/subprograms affected;
- The number of FSLs being requested or recommended; and
- Field Office and HQ Program justifications for the request.

No personally identifiable information (PII) will be collected or maintained by the application, except for the usernames of individuals involved in the submission and processing of resource requests. These users will typically consist of approximately 2-3 individuals within each Field Office, Program Managers assigned to Headquarters Divisions, and RAU personnel. Requests for user privileges must be approved by RAU. Role-based access will also be utilized. Users assigned to field offices and headquarters divisions will have read/write access, while RAU personnel will have administrator roles with read/write/modify privileges and the ability to authorize new user access.
2. Does the system/project collect, maintain, or disseminate any information about individuals (i.e., a human being or natural person, regardless of nationality)?

   ___ NO  [If no, STOP. The PTA is now complete and after division approval(s) should be submitted to FBI OGC/PCLU for final FBI approval. Unless you are otherwise advised, no PIA is required.]

   ___ YES  [If yes, please continue.]

   NOTE: the only information about individuals collected, maintained or disseminated from the [ ] are the usernames of individuals involved in the resource request process (i.e., submitting, reviewing, revising, commenting on or approving a request).

3. Please indicate if any of the following characteristics apply to the information in the system about individuals: Bear in mind that log-on information may identify or be linkable to an individual.
   (Check all that apply.)

   ___ The information directly identifies specific individuals.

   ___ The information is intended to be used, in conjunction with other data elements, to indirectly identify specific individuals.

   ___ The information can be used to distinguish or trace an individual’s identity (i.e., it is linked or linkable to specific individuals).

   If you marked any of the above, proceed to Question 4.

   ___ None of the above. If none of the above, describe why the information does not identify specific individuals either directly or indirectly. [If you checked this item, STOP here after providing the requested description.]

4. Does the system/project pertain only to government employees, contractors, or consultants?

   ___ NO  ___ YES

5. Is information about United States citizens or lawfully admitted permanent resident aliens retrieved from the system/project by name or other personal identifier?

   ___ NO  [If no, skip to question 7.]

   ___ YES: [If yes, proceed to the next question.]

6. Does the system/project collect any information directly from the person who is the
subject of the information?

____ NO  [If no, proceed to question 7.]

____ YES

a. Does the system/project support criminal, CT, or PCI investigations or assessments?

____ NO

____ YES  [If yes, proceed to question 7.]

b. Are subjects of information from whom the information is directly collected provided a written Privacy Act (e)(3) statement (either on the collection form or via a separate notice)?

____ NO [The program will need to work with PCLU to develop/implement the necessary form(s).]

____ YES  Identify any forms, paper or electronic, used to request such information from the information subject:

7. Are Social Security Numbers (SSNs) collected, maintained or disseminated from the system/project? Full SSNs should only be used as identifiers in limited instances.

____ X NO  ____ YES  If yes, check all that apply:

____ SSNs are necessary to establish/confirm the identity of subjects, victims, witnesses or sources in this law enforcement or intelligence activity.

____ SSNs are necessary to identify FBI personnel in this internal administrative system.

____ SSNs are important for other reasons. Describe:

____ The system/project provides special protection to SSNs (e.g., SSNs are encrypted, hidden from all users via a look-up table, or only available to certain users). Describe:

____ It is not feasible for the system/project to provide special protection to SSNs. Explain:

8. Is the system operated by a contractor?
X No.

___ Yes. Information systems operated by contractors for the FBI may be considered Privacy Act systems of records. The Federal Acquisition Regulation contains standard contract clauses that must be included in the event the system collects, maintains or disseminates PII and additional requirements may be imposed as a matter of Department of Justice policy. Consultations with the Office of the General Counsel may be required if a contractor is operating the system for the FBI.

9. Has the system undergone Certification & Accreditation (C&A) by the FBI Security Division (SecD)?

___ NO If no, indicate reason; if C&A is pending, provide anticipated completion date:

X YES If yes, please indicate the following, if known:

Provide date of last C&A certification/re-certification: December 16, 2011

The ___ will reside on the Enterprise Server (ES) and is encompassed by the ES C&A. The ES was most recently accredited on December 16, 2011 and has authority to operate (ATO) through December 16, 2014 at the following risk levels. The following are the ES risk levels:

Confidentiality: ___Low ___ Moderate X High ___ Undefined

Integrity: ___Low ___ Moderate X High ___ Undefined

Availability: ___Low ___ Moderate X High ___ Undefined

___ Not applicable – this system is only paper-based.

X NO

___ YES If yes, please describe the data mining function:

11. Is this a national security system (as determined by the SecD)?

X NO ___ YES

12. Status of System/Project:
This is a new system/project in development. [If you checked this block, STOP. The PTA is now complete and after division approval(s) should be submitted to FBI OGC/PCLU for final FBI approval and determination if PIA and/or other actions are required.]

II. EXISTING SYSTEMS / PROJECTS

1. When was the system/project developed?

2. Has the system/project undergone any significant changes since April 17, 2003?

   _____ NO  [If no, proceed to next question (II.3.).]

   _____ YES  If yes, indicate which of the following changes were involved (mark all changes that apply, and provide brief explanation for each marked change):

   _____ A conversion from paper-based records to an electronic system.

   _____ A change from information in a format that is anonymous or non-identifiable to a format that is identifiable to particular individuals.

   _____ A new use of an IT system/project, including application of a new technology, that changes how information in identifiable form is managed. (For example, a change that would create a more open environment and/or avenue for exposure of data that previously did not exist.)

   _____ A change that results in information in identifiable form being merged, centralized, or matched with other databases.

   _____ A new method of authenticating the use of and access to information in identifiable form by members of the public.

   _____ A systematic incorporation of databases of information in identifiable form purchased or obtained from commercial or public sources.

   _____ A new interagency use or shared agency function that results in new uses or exchanges of information in identifiable form.

   _____ A change that results in a new use or disclosure of information in identifiable form.

   _____ A change that results in new items of information in identifiable form being added into the system/project.
Changes do not involve a change in the type of records maintained, the individuals on whom records are maintained, or the use or dissemination of information from the system/project.

Other [Provide brief explanation]:

5. Does a PIA for this system/project already exist?

   ____ NO  ____ YES

If yes:

   a. Provide date/title of the PIA:
   
   b. Has the system/project undergone any significant changes since the PIA?

   ____ NO  ____ YES

[The PTA is now complete and after division approval(s) should be submitted to FBI OGC/PCLU for final FBI approval and determination if PIA and/or other actions are required.]
